IDENTIFIERS	*Indiana

ABSTRACT

To provide current occupational information to aid in planning by vocational educators, related state agencies and boards, business, and industry in Indiana, this publication summarizes occupational data by planning and development regions within the state. For each of the fourteen economic regions the information is organized in the following manner: (1) characteristics of the region such as 1975 population statistics, commuting patterns, employment distribution, and manufacturing and nonmanufacturing employment; (2) occupational supply data, which tells the number of persons enrolled or completing vocational education programs at the secondary, postsecondary, and adult levels and the number of registered apprentices; (3) occupation demand data for 1977-1978 arranged by major urban centers with those occupations expected to experience shortages specially marked; (4) reprints of business journal articles giving an economic analysis of the region; and (5) the locations of the regional offices of the Indiana Employment Security Division. The occupational supply and demand information is presented for a list of 406 job titles and was provided primarily by various state educational boards and commissions and the Employment Security Division. ACKNOWLEDGEMENTS

The Indiana Advisory Council on Vocational Education gratefully acknowledges the cooperation and assistance of the public and private sources that contributed time, expertise, and information, or made facilities available to the Council in the production of the Indiana Labor Supply and Demand document:

1. Indiana Employment Security Division
   Research & Statistics:
   - Emily Hawk, Chief
   - Theodore Popoff, Occupational Information
   - Richard Dierdorf, Labor Market Analyst

2. State Board on Vocational and Technical Education:
   - Don K. Gentry, Executive Officer/State Director
   - Geneva Fletcher, Deputy State Director of Vocational Education
   - Noel Brown, State Coordinator of Adult/Apprenticeship Work Study Programs
   - Phillip Mann, State Coordinator of Post-Secondary Programs and Evaluation
   - Margaret Dailey, Data Analyst and Programmer

3. Indiana Commission for Higher Education:
   - Dr. Jack Bainter, Program Officer-Academic Affairs

4. Indiana Private School Accrediting Commission:
   - Dr. Joseph Clark, former Commissioner
   - Pamela Johnson, former Assistant Commissioner-Administrative Services
   - Myra Mason, Assistant Commissioner-Administrative Services

5. Bureau of Apprenticeship & Training, U.S. Dept. of Labor, Indianapolis:
   - M. R. Heninger, State Director

6. Indiana Heartland Coordinating Commission, Indianapolis:
   - Joseph Drexler, Regional Planner

7. Division of Research, School of Business, Indiana University, Indiana Business Review.

8. State Advisory Council on Vocational Education Staff:
   - Vicki Neaves, Research Associate
   - Marcia Warner, Secretary

9. Division of Vocational Education
   Department of Public Instruction

INTRODUCTION

This is the third publication of the Indiana Labor Supply and Demand supported by the Indiana State Advisory Council on Vocational Education. The purpose of this publication is to revise earlier documents to provide current occupational information for decisions by vocational educators, related state agency personnel, advisory committee members, boards of education, boards of trustees, members of employment and training agencies, as well as by members of the business and industry community.

The availability of current occupational information is essential for planning purposes because of fluctuations (a) in the size of population, (b) in the status of the economy, (c) in the proportions of women and minorities in the total work force as well as (d) in the role of work which has been influenced by increased mechanization and changing societal values.

Although it is difficult, of course, to anticipate accurately the future, basic questions continue to be raised about (1) what jobs will exist in the future, (2) what kinds of training and education will be needed by those who fill the jobs, as well as, (3) how many potential employees will become available to meet the needs.

The Indiana State Advisory Council on Vocational Education offers the Labor Supply and Demand with the recognition that it represents the most complete occupational information on entry level jobs available in Indiana at this time but that the report remains incomplete. Decision-making and planning will require a continuous process of data acquisition and analyses, with improvement in the nature and completeness of the data as well as in the time required to obtain, analyze, and disseminate the information.

SOURCES OF DATA

This publication is made possible through the cooperation of several agencies which provided extensive employment and training information. These agencies are as follows:

Supply (Enrollments and Completions):

The State Board for Vocational and Technical Education provided enrollment and completion data for (1) Indiana secondary school vocational programs, and (2) Indiana post-secondary vocational programs in the two year and four year institutions, as well as information on programs for adults and apprentices.

The Indiana Commission for Higher Education provided completion data for public post-secondary Indiana institutions (enrollment data by occupational codes are not gathered).

The Indiana Private School Accrediting Commission provided enrollment and completion data for private post-secondary institutions in Indiana.

The Bureau of Apprenticeship and Training, U.S. Department of Labor, Indiana section provided data on registered apprentices in Indiana.

Demand:

The Indiana Employment Security Division made a major contribution to this publication, providing regional economic profiles, trends, projected demands, population, information, etc.

Important resources were also obtained from the following:

1. *Indiana Business Review*, School of Business, Indiana University.
2. *Analysis of Employment Trends in the Indiana Region* (Economic Region 8, Indiana Heartland Coordinating Commission.
3. *Indiana County Population Projection 1975-2000*, published by the Indiana State Board of Health in conjunction with the Division of Research, School of Business, Indiana University.

Additional Sources:

Information concerning Indiana occupational supply and demand in the areas of health careers and college graduates in several fields can be found in the Appendix.

Additional information about resources for occupational issues at the State and National levels are listed in the Appendix.

The Indiana State Advisory Council on Vocational Education will make available a companion document to the *Indiana Labor Supply and Demand*, identifying the status of occupational information in Indiana and issues involved in retrieval and dissemination.

Format:

This document presents occupational information by Indiana Planning and Development Regions (see Page 3), in accord with the method used by Indiana Employment Security Division.

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The occupational demand data are arranged by major urban centers in each region. These data are anticipated occupational demands for 1977-1978. These data were in the form of a numerical code to indicate the demand for a given occupation and an "x" was used to indicate a shortage of workers for an occupation. In an effort to improve readability, these codes have been changed to indicate need for workers in the following way:

1 = low
2 = moderately low
3 = moderate
4 = moderately high
5 = high
6 = * (indicating shortage)

The following pages present the listing of the occupational supply and demand by 406 job titles for each individual economic region. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarized the experience of the local Indiana Employment Security Offices with requests for workers in 154 occupations.

Additional resources are also included within. Indiana Employment Security Division Offices are listed at the end of each regional profile. Reference resources can be found in the Appendix.

REGION 1

1975 POPULATION ESTIMATES

COUNTY	MALE	FEMALE	TOTAL	PERCENT CHANGE 1970-1975
JASPER	11,900	11,200	23,100	12.7
LAKE	267,500	282,600	550,100	0.7

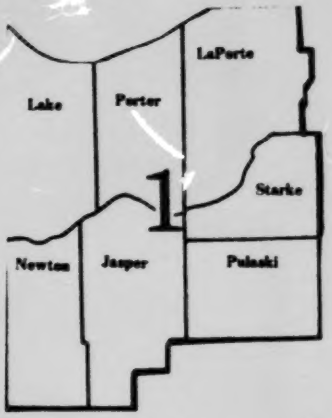
TOTAL	402,000	420,100	822,100	2.4



POPULATION CHARACTERISTICS

The population of Region 1 is the second highest of the 14 Economic Regions. Two thirds of the people in the Region reside in Lake County. Gary, Hammond and East Chicago combined form the second largest urban center in the State. Michigan City and LaPorte are other important urban centers in the Region. Region 1 is one of the major iron and steel producer centers in the nation.

REGION 1, COMMUTING PATTERNS

About one out of five employees in Region 1 commutes outside the home county to work. Nearly half the commuters in the Region (26,700) work in Illinois. On the other hand, 28,000 Illinois residents commute to Region 1 to work. Twelve hundred Michigan residents commute to Region 1 for work while only 250 Region 1 residents commute to Michigan for work. A total of 39,200 workers commute to Lake County from Illinois, Michigan, and other Indiana Counties. The Map below shows commuting patterns for Region 1.

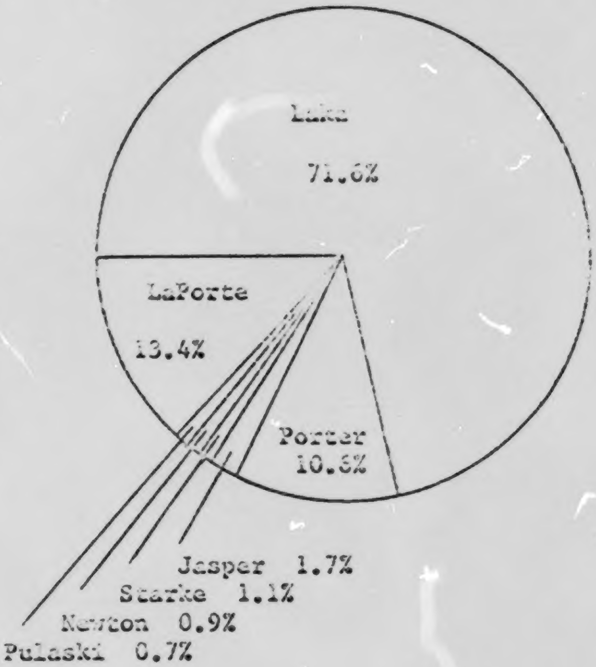
Starke	3,777	2,424	37.4%
Total:	221,379	55,938	20.4%

EMPLOYMENT DISTRIBUTION

Employment in Region 1 is centered in Lake County. More than seven out of ten employees in the Region can be found in Lake County. Covered employment totaled nearly 240,100 in 1975, and 236,400 in the first quarter of 1976. See the Diagram below.

COVERED EMPLOYMENT* BY COUNTIES

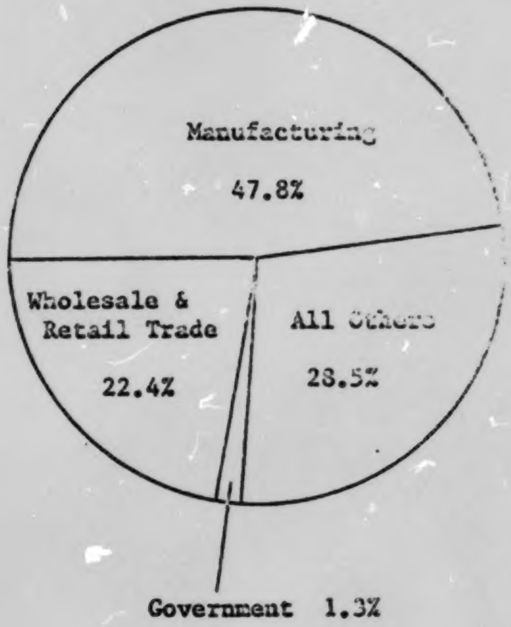


---

*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 1, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 1.

REGION 1: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	11,050	240,060
AGRICULTURE, FORESTRY, & FISHING	95	610
MINING	18	210
CONSTRUCTION	1,276	13,160
Building construction	411	3,550
Construction, except building (general contractors)	122	3,120
Special trade contractors	743	6,490
MANUFACTURING	691	114,790
Food & kindred products	56	3,430
Apparel & fabric products	22	2,630
Lumber & wood products	33	700
Furniture & fixtures	14	2,760
Paper & allied products	11	820
Printing & publishing	86	2,330
Chemicals & allied products	35	2,970
Petroleum refining & related products	12	3,730
Rubber & plastic products	24	1,380
Leather & leather products	4	160
Stone, clay, glass, & concrete products	56	1,920
Primary metals	46	67,020
Fabricated metals	101	10,350
Nonelectrical machinery	117	6,760
Electrical machinery	22	2,620
Transportation equipment	21	3,570
Controlling instruments, photographic & optical goods, and watches & clocks	9	980
All other manufacturing	22	660
TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS, & SANITARY SERVICES	443	13,100
Local & suburban passenger transportation	22	710
Motor freight transportation	296	4,300
Water transportation	4	140
Air transportation	10	100
Pipe line transportation	10	140
Transportation services	32	460
Communications	36	2,350
Electric, gas, & sanitary services	33	4,900

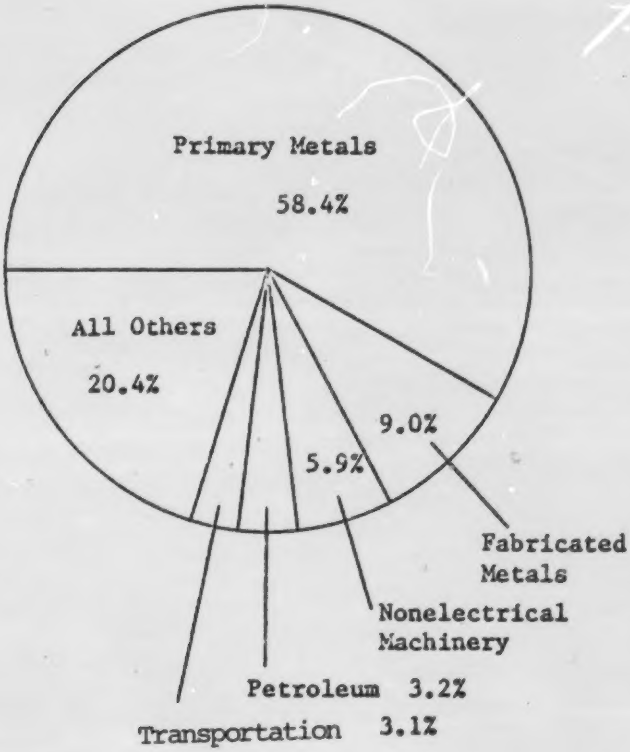
INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
WHOLESALE & RETAIL TRADE	4,532	53,800
Wholesale trade (durable goods)	416	4,380
Wholesale trade (nondurable goods)	287	3,870
Building materials, hardware, garden supply, & mobile home dealers	220	1,780
General merchandise stores	148	7,660
Food stores	351	7,940
Automotive dealers & gasoline service stations	813	6,180
Apparel & accessory stores	294	2,630
Furniture, home furnishings, & equipment stores	249	1,630
Eating & drinking establishments	1,061	12,750
Miscellaneous retail	693	4,980
FINANCE, INSURANCE, & REAL ESTATE	967	8,710
Banking	41	3,310
Credit agencies (except banks)	173	1,420
Security & commodity brokers dealers, exchanges, & services	11	120
Insurance	58	1,520
Insurance agents, brokers, & service	232	750
Real estate	408	1,410
Combinations of real estate, insurance, loans, & law offices	35	150
Holding & other investment companies	9	30
SERVICES	2,996	32,650
Hotels, rooming houses, camps, & other lodging places	99	1,520
Personal services	502	2,480
Business services	310	3,810
Automobile repair, services, & garages	286	1,340
Miscellaneous repair services	103	660
Motion pictures	37	460
Amusement & recreation services (except motion pictures)	126	1,440
Health services	765	14,410
Legal services	239	750
Educational services	30	1,690
Social services	69	950
Membership organizations	271	2,290
All other services	159	850
GOVERNMENT	32	3,030
State government	5	2,110
Local government	27	920

MANUFACTURING EMPLOYMENT

In Region 1, 47% of all covered employment is in manufacturing. Nearly 114,800 workers in the Region are employed in almost 690 manufacturing establishments. Seven out of ten of the manufacturing employees work in Lake County. Primary metals is the largest industry group in the manufacturing sector with nearly six out of ten employees in the total manufacturing work force. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 1 are listed in order by numbers employed; see the Table below.

REGION 1: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Supervisors, nonworking, except service	6,950
Assemblers	3,770
Managers & officers	3,640
Welders & flamecutters	3,560
Cranemen, derrickmen, & hoistmen	3,110
Mechanics, maintenance	2,440
Electricians	2,220
Inspectors	2,060
Millwrights	1,940
Industrial truck operators	1,690
Janitors, porters, & cleaners	1,550
Production packagers	1,530
Machinists	1,370
Truck drivers	1,290
Hook & chainmen	1,110
General clerks	1,100
Punch press operator, metal	1,100
Typists	1,050
Secretaries	990
Accounting clerks	900

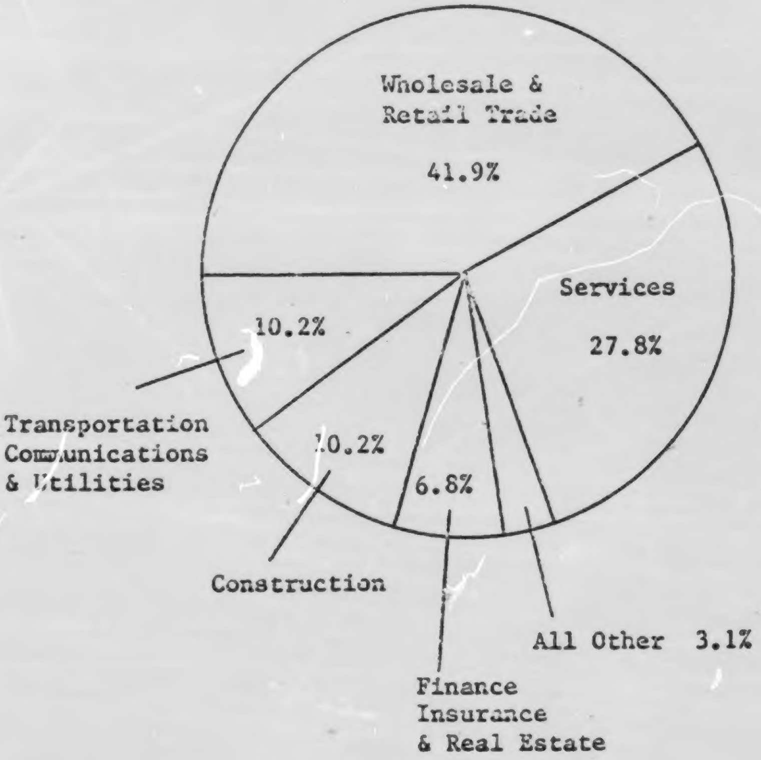
NONMANUFACTURING EMPLOYMENT

In Region 1, over half of all covered employment is in nonmanufacturing. More than 122,200 workers are employed in over 10,300 nonmanufacturing establishments. Lake County has more than seven out of ten employees in Region 1 nonmanufacturing sector.

Wholesale and retail trade sector accounts for nearly 42% of the nonmanufacturing in Region 1. More than one out of four employees in nonmanufacturing works in services. Nine out of ten employees in Region 1 nonmanufacturing works in wholesale and retail trade, in services, in transportation, communications, and utilities, or in construction. In addition, 45% of the total covered employment in Region 1 is in these four nonmanufacturing sectors. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 1: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	6,420
Managers & officers	5,520
Sales persons	5,310
Cashiers	2,720
Waiters/Waitresses	2,600
General clerks	1,880
Food preparation & service workers	1,800
Mechanics, automotive	1,770
Stock clerks, sales floor	1,670
Delivery & route workers	1,540
Automobile service-station attendants	1,310
Stock clerks, stockroom & warehouse	1,290
Bookkeepers, hand	1,220
Cooks, short order	1,060
Truck drivers	1,030
Janitors, porters, & cleaners	980
Kitchen helpers	710
Counter workers, lunchroom	680
Butchers/Meat cutters	620
Shipping/Receiving clerks	600
Baggers	590
Cooks, restaurant	540
Bartenders	360

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 1. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.

2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.

3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.

4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 1. At the end of the Region 1 section can be found detailed supply information at the secondary and post-secondary levels.

Region I

Occupation	Program Enrollments				Registered Apprentice	
	Adult		Apprentice			
	M	F	M	F	M	F
Accounting/Computing occupation	9	35				
Agriculture mechanics	18					
Agriculture production	269	51

Textiles/Clothing		192				
Tool/Die maker					2	
Typing occupation		81				
Welding/Cutting	251	13	152			

OCCUPATIONAL DEMAND

In Region 1, it is anticipated that nearly three dozen occupations will be in short supply during 1977-1978. These occupations are listed by occupational group in the Table below.

REGION 1: OCCUPATIONS IN SHORT SUPPLY, 1977-1978.

OCCUPATIONS:

A. Health Related Occupations:

1. Nurses aides
2. Practical nurses
3. Professional nurses (registered)
4. Radiologic occupations (x-ray technicians, etc.)
5. Typists

B. Technicians and Related Occupations:

1. Drafters
2. Engineering technicians
3. Industrial technicians
4. Mechanical technicians
5. Programmers

C. Salesworkers by Industry:

1. Insurance

D. Office Occupations:

1. Accountants
2. Clerk typists
3. Keypunch operators & verifiers
4. Secretaries
5. Stenographers
6. Typists

E. Crafts and Related Occupations:

1. Appliance repairers
2. Automotive mechanics (motor)
3. Cooks & chefs
4. Diesel mechanics
5. Electricians (including electronics)
6. Electrical motor repairers
7. General industrial maintenance
8. Machine tool setters (set-up)
9. Machinists
10. Millwrights
11. Office machine repairers
12. Patternmakers, metal
13. Sewers & stitchers (manufacturing)
14. Tool & die makers
15. TV & radio repairers
16. Welders & flamecutters (certified)

F. Service and Related Occupations:

1. Waiters/Waitresses

During 1977-1978, other occupations are expected to be in constant demand in Region 1. These occupations are listed by occupational group in the Table below.

REGION 1: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978.

OCCUPATIONS:

A. Health Related Occupations:

1. Clinical laboratory technicians
2. Hospital & other institutional workers
3. Medical & medical laboratory technicians
4. Occupational therapists
5. Physical therapists
6. Respiratory therapy technician and/or inhalation

B. Technicians and Related Occupations:

1. Automotive technicians
2. Electrical technicians
3. Electronic technicians
4. Systems analysts

C. Management:

1. Industrial management technicians
2. Manager trainees

D. Salesworkers by Industry:

1. Food service (restaurants, etc.)
2. General merchandise (department stores)
3. Hotel & lodging
4. Real estate

E. Office Occupations:

1. Accounting clerks
2. Bookkeepers
3. Cashiers
4. General office clerks

F. Crafts and Related Occupations:

1. Agriculture implement mechanics
2. Air conditioning & heating installers & repairers
3. Automobile vehicle repairers: body & fender
4. Carpenters
5. Die setters
6. Heavy construction operators: crane, derrick & hoist operators; excavating, grading & road machinery operators
7. Industrial machinery repairers
8. Machine tool operators

F.

9. Masons
10. Painters & decorators
11. Plumbers & pipefitters
12. Roofers
13. Sheet metal workers
14. Welders & flamecutters: Basic

G. Service and Related Occupations:

1. Automobile attendants: gas & parking
2. Charworkers & cleaners
3. Counter & fountain workers
4. Drivers: truck and/or tractor
5. Janitors
6. Private household workers

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 1: Lake County, LaPorte, Michigan City, Portage, and Rensselear.

L. P. Singer: GARY-HAMMOND-EAST CHICAGO (Calumet Area)*

"Six months ago, in the May-June 1976 Indiana Business Review, we stated that the road of recovery would be somewhat bumpy, with a few mild retreats in the fourth quarter of 1976. We still believe that the current retreats will be relatively mild; however, the pause may extend into the first quarter of 1977, after which the recovery will gather momentum and operate on its second breath. Our projections for the Gary-Hammond-East Chicago region are about on course. We expected the second quarter index to approach 125 by mid year (the index was 121). We projected about 135 by the middle of 1977. This prediction may still hold, although for it to be true, we would have to have a much steeper acceleration in the second quarter of 1977 than would have been consistent with the monetary-fiscal stance that had characterized the Ford-Burns administration.

"On the price level front, which naturally affects real (physical) parameters, too, the local picture is somewhat uncertain. We have experienced consistent pressures on the price level by businesses, including heavy manufacturing, whose rate of capacity utilization was below par. Plant managers and local businessmen indicate that utilization of manufacturing capacity is about 8-9% below optimal (or most profitable) level. Retailing capacity ranges from about 15% below desired capacity utilization in foods, where much new expansion occurred, to about 9-10% in department stores. Residential stock is about 7% underutilized. This means that, at least locally, there will be mostly replacement investment and not much new expansion in 1977, except for a gradual materialization of long-run expansion of steel capacity in the new mills in Porter County.

"Most of the pressure on prices will come from the supply side, as real wages weaken because of higher tax rates and externally induced price rises (fuel costs). The profit squeeze further exacerbates upward pressures on prices. So far, a moderately restrictive monetary policy, coupled with a belief on the part of businesses that further price rises would trigger a monetary crunch, has tended to contain a price surge. But 1977 may experience a lessening of monetary restrictions, which initially will bring about a round of price increases; however, as capacity utilization advances and output accelerates, profits will improve, thus relieving some of the upward pressure on prices. This may spur moderation in local wage demands, as the slide in real wages recedes, towards the latter quarters of 1977 and the beginning of 1978.

"A recent study supports such a prognosis. Using regression techniques, we found that in 1975-1976, average net profits before taxes in northern Indiana were about 7.17% of gross sales. Profits are a function of capacity utilization and other variables. We expect about an 8% increase in local capacity utilization for 1977, from about 74% to about 82%. Thus, if our predictive equations hold, this will cause net profits to rise to about 8.98%, or nearly 9% of gross sales.

*Singer, L. P. Gary-Hammond-East Chicago (Calumet Area). Indiana Business Review, Nov.-Dec. 1976, 51, 27-28

"We had also stated that the employment picture may continue to be mixed. One must bear in mind that the northwest Indiana region has an average unemployment rate of about 5.4%, much below the state, Chicago or the national averages. Thus, even though employment is mixed, it is a high level. On the other hand, this region also has a stubborn core of unemployed and, as the local Manpower Surveys by the federal government indicate, there is not much hope for improvement. In some months, up to 49-55% of the vacancies in manufacturing and middle management were not filled because of the applicants' lack of skills.

"Steel and related manufacturing, which represents almost 30% of regional employment, is stabilizing its labor force (some fringes, such as craft training programs, were drastically reduced or eliminated). The real growth rate is expected to hover around 4%. Services may grow at a slightly higher rate; hotels, hospitals, new retail outlets, laboratories and professional offices are expected to expand in the new core shopping areas surrounding the Broadway, U. S. 30, I-65, Sixty-first Street region. The new professional and commercial area will gradually extend east towards Valparaiso and west towards Schererville.

"Ten years ago, when there was only farmland on either side of U. S. 30, we projected in this publication a major transmigration of shopping facilities to their present locations. We are now in the process of completing our next decennial forecast. Preliminary indications are that the core cities of Hammond, Gary and East Chicago will retain about 55% of the population and about 38% of retail outlets, while the SMSA balance of 45% will have access to about 62% of the retail stores located outside the core cities. Such demographic changes will increase pressures for a metropolitan type government, with cities as satellities.

"We cannot complete this outlook without examining what the new Carter policies might mean for this area. Most businessmen suspect that there is no acceptable remedy for the inflation-unemployment tradeoff, With the possible exception of wage-price controls. However, a proposal is under consideration which might solve the problem without resorting to drastic measures.

"New jobs in the public sector would be created by a shelf of approved short and intermediate projects-mostly in urban regions-whenever the national adult unemployment rate exceeded a predetermined level (say, 6%). This would immediately activate a value added tax of a given magnitude (say, 1% for each 1% of unemployment over 6%). The new jobs in the public sector would be financed dollar for dollar by a tax on private sector outputs. Thus, the cost of unemployment would be shared without the usual inflationary pressures caused by unrestrained and embedded deficits. As soon as private sector unemployment recedes, the tax would be correspondingly scaled down, providing the necessary stimulus during the recovery and preventing the frequent second dips of recent cyclical history. A return of resources from the public to the private sector would be assured by keeping public sector wages sufficiently below private wages. We predict that President Carter will not adopt wage-price controls, owing to the fact that more efficient income policies are available which encourage the private sector to mop up unemployed resources and which are not destructive of work effort."

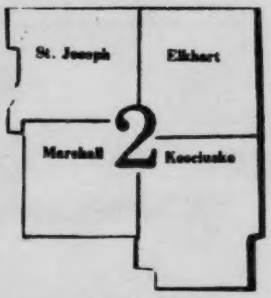
TOTAL	229,000	241,200	470,200	3.4



POPULATION CHARACTERISTICS

According to the 1975 population estimates, Region 2 ranked fifth highest of the State's fourteen Economic Regions. More than half of the residents of this Region live in St. Joseph County. Six cities in Region 2 account for over half of the Region's population: South Bend, Elkhart, Mishawaka, Goshen, Plymouth and Warsaw.

REGION 2, COMMUTING PATTERNS

One out of nine employees in Region 2 commutes outside the home county to work. Half of the commuters go to St. Joseph County for employment. Of the total employees in Region 2, 6,900 (4%) commute from Michigan. Only 1,800 (1%) of the residents in Region 2 commute to Michigan for employment. One out of four employed persons in Marshall County commutes outside the county for employment. However, 89% of employed persons in Region 2 are employed in the home county. The Map below shows commuting patterns for Region 2.

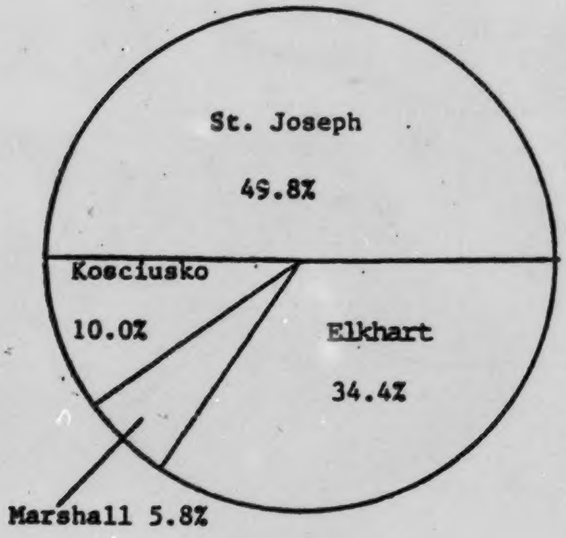
DISTRIBUTION OF REGION 2 LABOR FORCE, BY PLACE OF WORK, 1970 CENSUS

COUNTY	WORKING IN HOME COUNTY	WORKING IN OTHER COUNTIES	(%) COMMUTING OUTSIDE COUNTY
Elkhart	46,302	2,847	5.4%
Kosciusko	15,575	2,970	15.0%
Marshall	9,229	3,512	25.9%
St. Joseph	78,622	9,733	10.2%
Total:	149,728	19,062	11.3%

EMPLOYMENT DISTRIBUTION

Employment in Region 2 is centered around South Bend, Mishawaka, and around the secondary urban areas of Elkhart and Goshen. These three urban centers and the counties in which they are located have 81% of the Region's population and about 85% of its nonfarm wage and salary employment. Total nonfarm wage and salary employment is estimated at 156,800 in 1975, and 160,300 in the first quarter of 1976. See the Diagram below.

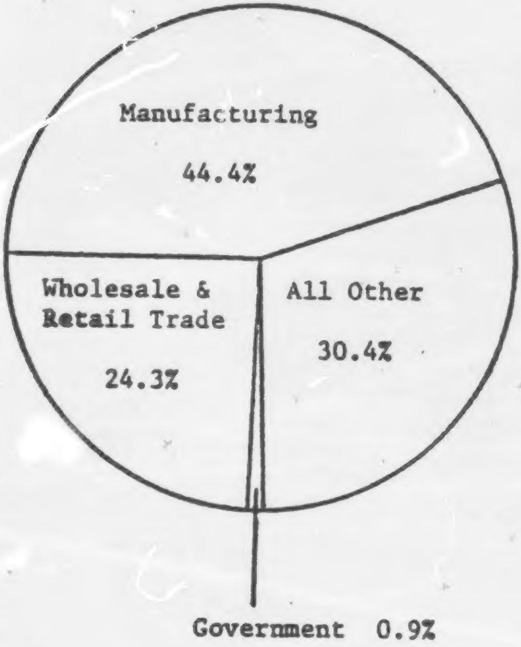
COVERED EMPLOYMENT* BY COUNTIES



*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 2, covered employment is centered in St. Joseph County, predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 2.

REGION 2: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	8,910	156,810
AGRICULTURE, FORESTRY & FISHING	93	390
MINING	10	80
CONSTRUCTION	957	6,260
Building construction	333	2,370
Construction, except building (general contractors)	43	400
Special trade contractors	581	3,490
MANUFACTURING	1,268	69,690
Food & kindred products	71	2,680
Apparel & fabric products	40	1,330
Lumber & wood products	138	4,400
Furniture & fixtures	46	1,690
Paper & allied products	18	940
Printing & publishing	97	3,060
Chemicals & allied products	24	3,760
Rubber & plastics products	96	5,690
Leather & leather products	7	380
Stone, clay, glass, & concrete products	35	990
Primary metals	29	2,290
Fabricated metals	180	6,310
Nonelectrical machinery	196	9,830
Electrical machinery	48	4,060
Transportation	174	16,870
Controlling instruments, photographic & optical goods, watches & clocks	20	2,640
All other manufacturing	49	2,770
TRANSPORTATION, COMMUNICATIONS ELECTRIC, GAS & SANITARY SERVICES	268	7,240
Local & suburban passenger transportation	17	260
Motor freight transportation	177	2,860
Air transportation	11	160
Transportation services	13	40
Communications	27	2,420
Electric, gas, & sanitary services	23	1,500

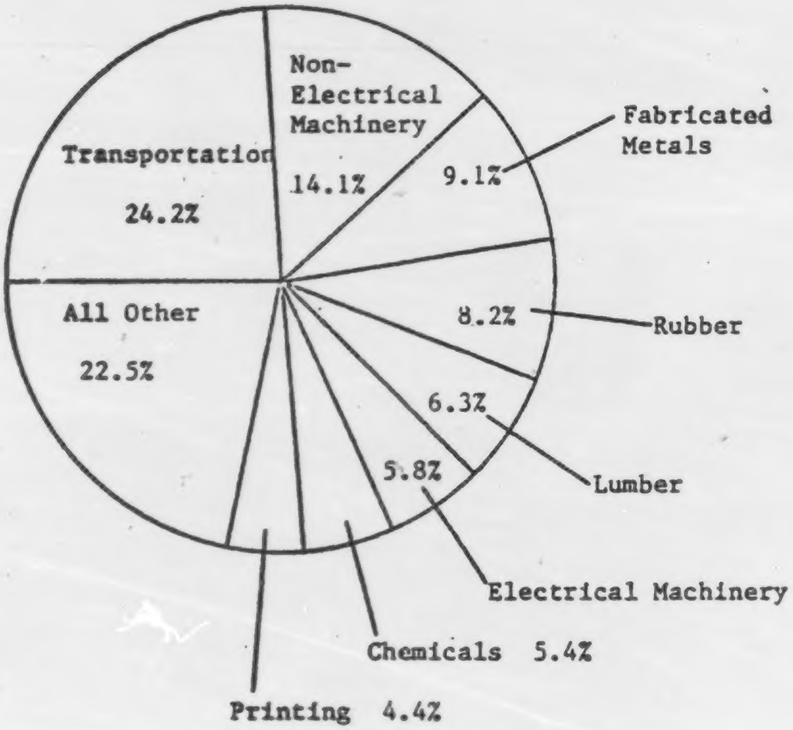
INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
WHOLESALE AND RETAIL TRADE	3,387	38,030
Wholesale trade (durable goods)	567	6,420
Wholesale trade (nondurable goods)	244	3,100
Building materials, hardware, garden supply, & mobile home dealers	189	1,220
General merchandise stores	90	4,630
Food stores	229	3,900
Automotive dealers & gasoline service stations	553	3,750
Apparel & accessory stores	169	1,610
Furniture, home furnishings, & equipment stores	192	1,120
Eating & drinking establishments	689	8,780
Miscellaneous retail	465	3,500
FINANCE, INSURANCE, & REAL ESTATE	626	7,530
Banking	30	2,820
Credit agencies (except banks)	106	1,690
Security & commodity brokers, dealers, exchanges, & services	14	140
Insurance	44	1,150
Insurance agents, brokers, & services	140	660
Real estate	263	1,000
Combinations of real estate, insurance, loans, law offices	15	40
Holding & other investment companies	14	30
SERVICES	2,279	26,140
Hotels, rooming houses, camps, & other lodging places	79	1,540
Personal services	355	1,920
Business services	267	2,900
Automobile repair, services, & garages	223	1,140
Miscellaneous repair services	90	290
Motion pictures	22	330
Amusement & recreation services (except motion pictures)	102	890
Health services	552	8,810
Legal services	166	480
Educational services	29	4,060
Social services	57	1,200
Membership organizations	211	1,540
All other services	126	1,040
GOVERNMENT	22	1,450
State government	3	770
Local government	19	680

MANUFACTURING EMPLOYMENT

In Region 2, 44% of all covered employment is in manufacturing. The three largest industry groups in the Region are: (1) transportation equipment, (2) nonelectrical machinery, and (3) fabricated metals. Over 47% of the manufacturing work force in Region 2 are employed in these three industry groups. More than 69,700 workers in the Region are employed in one of nearly 1,270 manufacturing establishments. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 2 are listed in order by numbers employed; see the Table below.

REGION 2: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	10,150
Managers & officers	4,680
Supervisors, nonworking, except service	2,200
Welders & flamecutters	1,890
Punch press operators, metal	1,640
Inspectors	1,560
Production packagers	1,430
Janitors, porters, & cleaners	1,390
Lathe and/or turning machine operators	1,360
Supervisors	1,300
Truck drivers	1,230
Tool & die makers	1,170
General clerks	1,030
Drill press and/or boring machine operators	1,020
Secretaries	990
Stock clerks, stockroom & warehouse	810
Maintenance workers, general utility	670
Mechanical engineers	630

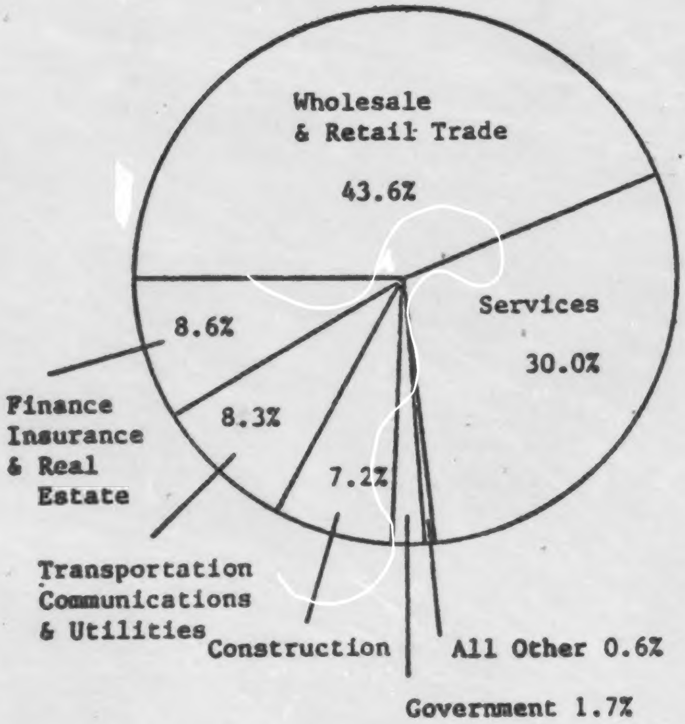
NONMANUFACTURING EMPLOYMENT

In Region 2, nearly 56% of all covered employment is in nonmanufacturing. More than 87,100 workers are employed in more than 7,640 nonmanufacturing establishments in the Region. St. Joseph County has six out of ten employees in the Region 2 nonmanufacturing sector.

Wholesale and retail trade represents almost 44% of the nonmanufacturing employment in Region 2. Three out of ten nonmanufacturing employees is in the services sector. More than eight out of ten employees in the nonmanufacturing sector of Region 2 is in one of the following: (1) wholesale and retail trade, (2) services, or in (3) finance, insurance, and real estate work forces. Nearly 46% of the total employment in Region 2 is in these three work forces. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



60

In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 2: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	4,510
Managers & officers	3,880
Sales persons	3,730
Cashiers	1,910
Waiters/Waitresses	1,820
General clerks	1,320
Food preparation & service workers	1,260
Mechanics, automotive	1,240
Stock clerks, sales floor	1,180
Delivery & route workers	1,080
Automobile service-station attendants	920
Stock clerks, stockroom & warehouse	910
Bookkeepers, hand	850
Cooks, short order	740
Truck drivers	730
Janitors, porters, & cleaners	680
Kitchen helpers	500
Counter workers, lunchroom	470
Butchers/Meat cutters	430
Shipping/Receiving clerks	420
Baggers	410
Cooks, restaurants	380
Secretaries	380
Bus boys/girls	370
Order fillers	170

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 2. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests fo workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 2. At the end of the Region 2 section can be found detailed supply information at the secondary and post-secondary levels.

Region II

	Program Enrollments				Registered Apprentice	
	Adult		Apprentice			
Occupation	M	F	M	F	M	F
Agriculture mechanics	3	1				
Agriculture mechanics skills	34					
Agriculture production	149	9				
Bricklayers					7	
Carpenters					11	
Electrician					28	
Electronic mechanic					1	
Farm business management	176	25				
Iron workers					10	
Machine repair					3	
Machine shop			57			
Machinist					1	
Maintenance mechanic millwright					6	
Metalworking			9			
Model maker					1	
Mould maker					3	
Other agriculture	17					
Outside electrical worker					2	
Painter					2	
Pattern maker metal					2	
Plumbing			26		4	
Pressman					1	
Sheet metal worker					14	
Textiles/Clothing		204				
Tool/Die maker			19		29	

In Region 2, it is anticipated that at least two dozen occupations will be in short supply during 1977-1978. These occupations are listed below.

REGION 2: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

Automotive vehicle mechanics (motor)
Cooks & chefs
Dental hygienist
Die setters
Drafters
Electronic technician
Engineering technicians
General industrial maintenance workers
Insurance salesworkers
Keypunch operators & verifiers
Machine tool operators
Machine tool setters (set-up)
Machinists
Mechanical technician
Millwrights
Office machine repairers
Practical nurses
Professional nurses (registered)
Respiratory therapy technician and/or inhalation
Secretaries
Stenographers
Tool & die makers
Waiters/Waitresses
Welders & flamecutters (certified)

OCCUPATIONAL DEMAND

During 1977-1978, other occupations are anticipated to be in constant demand in Region 2. These occupations are listed by occupational group in the Table below.

REGION 2: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Dental assistant
2. Emergency care technicians
3. Medical & medical laboratory technicians
4. Medical transcription technicians
5. Nurse aides
6. Operating room technicians
7. Physical therapists
8. Radiologic occupations (x-ray technicians, etc.)

B. Technicians and Related Occupations:

1. Automotive technicians
2. Cable television technicians
3. Electrical technicians
4. Industrial technicians

C. Management:

1. Administrative managers
2. Industrial management technicians
3. Manager trainees

D. Salesworkers by Industry:

1. Food distribution (grocery stores)
2. Food service (restaurants, etc.)
3. General merchandise (department stores)

E. Office Occupations:

1. Accountants
2. Accounting clerks
3. Bookkeepers
4. Cashiers
5. Clerk typists
6. Computer operators
7. General office clerks
8. Receptionists & telephone operators
9. Shipping & receiving clerks
10. Typists

F. Crafts and Related Occupations:

1. Air conditioning & heating installers & repairers
2. Appliance repairers
3. Automotive vehicle repairers: body & fender
4. Carpenters
5. Electricians (including electronics)
6. Foundry core makers
7. Foundry molders
8. Industrial machinery repairers
9. Plumbers & pipefitters
10. Roofers
11. Sewers & stitchers (manufacturing)
12. Sheet metal workers
13. TV & radio repairers

G. Service and Related Occupations:

1. Charworkers & cleaners
2. Drivers: truck and/or tractor
3. Industrial guards & watchmen

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 2: Elkhart, Plymouth, South Bend, and Warsaw.

REGION 2

CORPORATE RELOCATION IMPACT: SOUTH BEND

The Associates Corporation of North America announced intent to relocate from South Bend to Dallas late in 1976. The impact of the move on the economy of South Bend was assessed from 1977, the first year of the move, to 1980 (Bartholomew, Joray, & Kochanowski, 1977).

It was estimated that the corporate move would result in an income loss to the South Bend region of fifty to sixty-five million, with corresponding employment losses of about 3,000 jobs. The Table that follows gives the total employment in the South Bend region from 1958 to 1969 with projections to 1980, and includes prediced job losses to the year 1980.

Three levels of job losses were predicted for each year between 1977 and 1980: low, average, and high. (See Bartholomew, Joray & Kochanowski, 1977, for details of methods used.) Estimates of job losses by the three levels can be found in the Table below.

ESTIMATES OF EMPLOYMENT AND JOB LOSSES

Year	Total Employment	Jobs Lost
1958	137,000	
1959	156,000	
1960	161,000	
1961	148,000	
1962	155,000

1980*		2,503
1980*	225,000	2,928
1980*		3,328

*Projected

Bartholomew, Joray and Kochanowski (1977) expect the decline in income and employment opportunities will result in regional outmigration from South Bend and decreased regional inmigration. The decline in the South Bend regional population as a result of the corporate move is estimated at 6,600 persons, a decline of 1.4% in the regional population.

There was an 8% outmigration in the South Bend SMSA between 1960 and 1970, based on Census data. Outmigration stemmed from the loss of major manufacturing employers to the region. Present manufacturing employment in the South Bend region is 20% below the 1967 level. Outmigration was most extensive however, in the 25 to 34 year old age group, 18.5% between 1960 and 1970.

The impact of income loss in the South Bend private sector was assessed with relation to the demand for goods and services in the region. (See Bartholomew, Joray, & Kochanowski, 1977, for details of methods used.) Estimated percentages of decreases in demand for selected goods and services can be found in the Table below. While percentage figures are comparatively low, dollar values for losses are substantial. Reduced expenditures predicted are as follows: (1) foods, $2.9 million, (2) rentals, $2.3 million, (3) purchase and financing of new homes, $5.8 million, (4) new cars, $2.8 million, and (5) durable consumer goods $4.5 million.

ESTIMATED PERCENTAGE DECREASES IN DEMAND FOR SELECTED GOODS AND SERVICES

Goods and Services	% Change in Demand
Public education	-2.02%
Housing: renters	-2.02%
Housing: owner-occupants	-2.52%

POPULATION CHARACTERISTICS

The population of Region 3 is the third highest of the fourteen Economic Regions of the State according to the 1975 population estimates. More than half of the residents of this region live in Allen County. Three cities in the Region account for 41% of the population: (1) Fort Wayne, the second largest city in the State, (2) Huntington, and (3) Auburn.

REGION 3, COMMUTING PATTERNS

About one out of seven workers in Region 3 commutes outside the home county to work. A third of the workers in Whitley County, and three out of ten in Wells County, travel to another county for employment. Only about three out of a hundred workers from Allen County, however, travel outside the county for employment. Of all workers in Region 3, one out of fifteen commutes to Allen County for employment but lives outside Allen County. Eighty-six percent of all workers in Region 3 are employed within the home county. The Map below shows commuting patterns for Region 3.

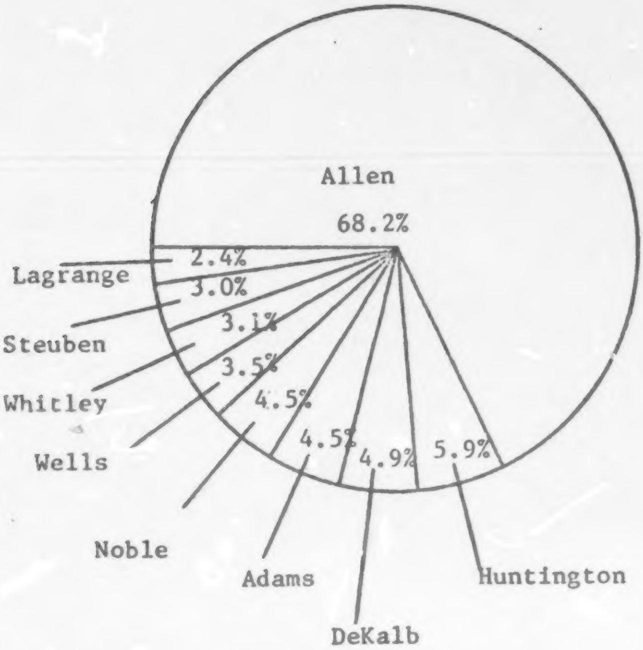
Whitley	5,972	3,331	34.2%
Total:	161,243	25,300	13.6%

EMPLOYMENT DISTRIBUTION

Employment in Region 3 is centered in Allen County with more than two out of three workers in the total covered work force in the Region. Covered employment totaled nearly 164,800 in 1975, and 167,500 in the first quarter of 1976. See Diagram below.

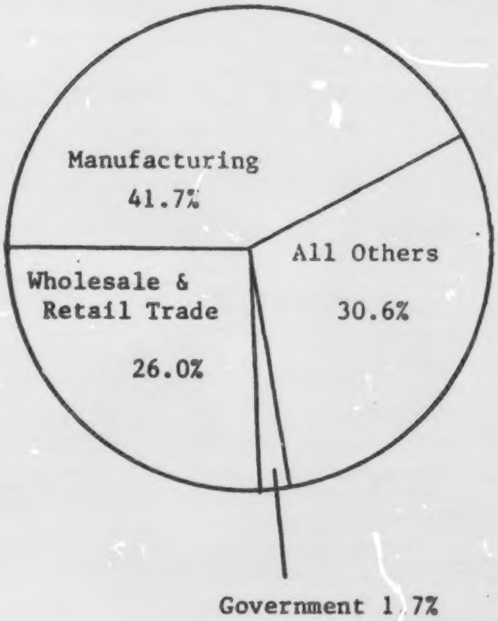
COVERED EMPLOYMENT* BY COUNTY



*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 3, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for Region 3 in 1975.

REGION 3: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT

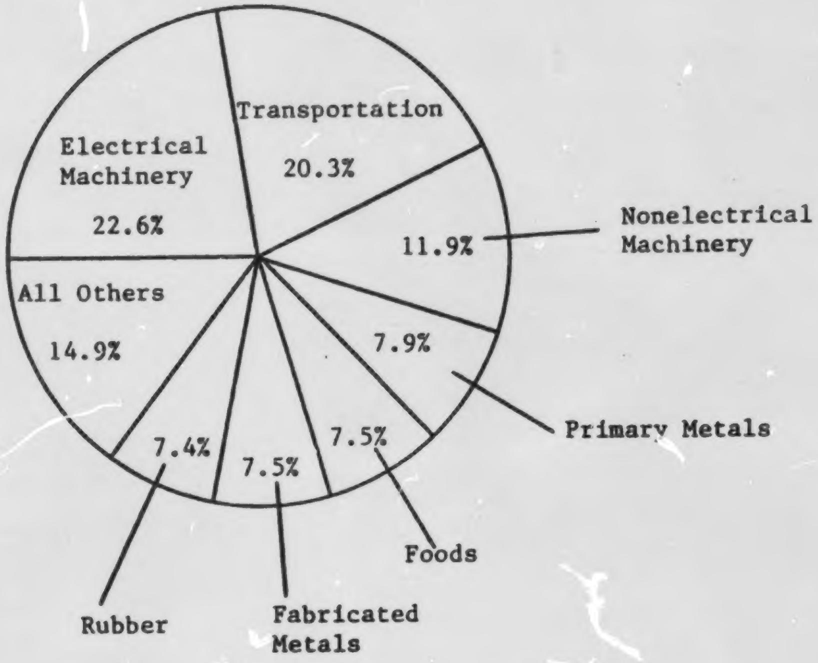
MANUFACTURING EMPLOYMENT

In Region 3, 41% of all covered employment is in manufacturing. The three largest industry groups in the Region are: (1) electrical machinery, (2) transportation equipment, and (3) nonelectrical machinery. Nearly 55% of the manufacturing work force in Region 3 are employed in these three industry groups. Nearly 68,700 workers in the Region are employed in one of over 860 manufacturing establishments. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 3 are listed in order by numbers employed; see the Table below.

REGION 3: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	13,850
Managers & officers	3,660
Supervisors, nonworking, except service	2,840
Inspectors	2,350
Lathe and/or turning machine operators	1,600
Welders & flamecutters	1,370
Production packagers	1,210
Truck drivers	1,180
Maintenance workers, general utility	1,160
General clerks	1,080
Salespersons	1,010
Punch press operators, metal	960
Industrial truck operators	960
Electrical engineers	880
Janitors, porters, & cleaners	860
Tool & die makers, metal	820
Mechanical engineers	700
Machine tool operators, combination	680
Grinding and/or abrading machine operators	510

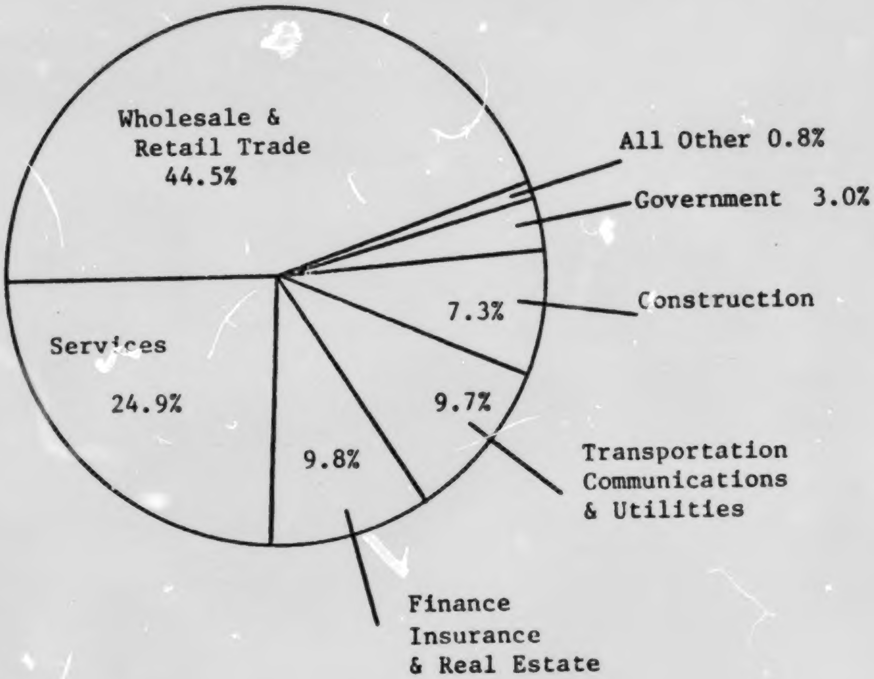
NONMANUFACTURING EMPLOYMENT

In Region 3, over 58% of the total covered employment is in nonmanufacturing. More than 96,100 workers are employed in more than 7,700 nonmanufacturing establishments in the Region. Allen County has three out of four employees in the Region 3 nonmanufacturing sector.

Wholesale and retail trade represents nearly one half of the nonmanufacturing employment in the Region. One fourth of the nonmanufacturing employees is in the services sector. Nearly eight out of ten employees in nonmanufacturing in the Region is in one of the following: (1) wholesale and retail trade, (2) services, or in (3) finance, insurance, and real estate. More than 46% of the total employment of Region 3 is in these three work forces. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 3: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN WHOLESALE AND RETAIL TRADE, 1973

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	5,150
Managers & officers	4,430
Salespersons	4,260
Cashiers	2,180
Waiters/Waitresses	2,080
General clerks	1,510
Food preparation & service workers	1,440
Mechanics, automotive	1,420
Stock clerk, sales floor	1,340
Delivery & route workers	1,230
Automobile service-station attendants	1,050
Stock clerks, storeroom & warehouse	1,030
Bookkeepers, hand	980
Cooks, short order	850
Truck drivers	830
Janitors, porters, & cleaners	790
Kitchen helpers	570
Counter workers, lunchroom	540
Butchers/Meat cutters	490
Baggers	470
Cooks, restaurant	430
Secretaries	430
Bus boys/girls	420
Order fillers	420
Bartenders	290

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 3. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 3. At the end of the Region 3 section can be found detailed supply information at the secondary and post-secondary levels.

Region III

	Program Enrollments				Registered	
	Adult		Apprentice		Apprentice	
Occupation	M	F	M	F	M	F
Agriculture	160	43				
Agriculture mechanics	43	1				
Agriculture mechanics skills	37					
Agriculture production	324	13				
Agriculture supply/service	40					
Blueprint reading	36					
Business machine repair					8	
Carpentry	22		51		3	
Dental technician						1
Die sinker					1	
Electrician					15	
Family management	5	25				
Farm business management	45	22				
Housing		17				
Industrial electrician	26					
Iron worker					7	
Machine repair					2	
Machine shop	87	1				
Machinist					7	
Maintenance mechanic millwright					11	
Masonry	30					
Metal trade combined	78	1				
Operating engineer					1	
Opthalmic dispenser	5	23				
Other agriculture	46	4				
Outside electrical worker					3	
Pattern makers metal					2	
Plumbing	41				1	
Pressperson					4	1
Printer					1	
Sheet metal worker	47		49		2	
Structural steel			34			
Textiles/Clothing		10				
Tool maker					4	
Tool/Die maker			119	2	9	

OCCUPATIONAL DEMAND

In Region 3, it is anticipated that at least one dozen occupations will be in short supply during 1977-1978. These occupations are:

REGION 3: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

- Bookkeepers
- Electricians
- Electronic technicians
- General industrial maintenance
- Industrial machinery repairers
- Insurance salesworkers
- Machinists
- Office machine repairers
- Professional nurses (registered)
- Secretaries
- Tool & die makers
- TV & radio repairers

During 1977-1978, other occupations are anticipated to be in constant demand in Region 3. These occupations are listed by occupational group in the Tabel below.

REGION 3: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Technicians and Related Occupations:

1. Drafters
2. Engineering technicians

B. Salesworkers by Industry:

1. Food services (restaurants, etc.)

C. Office Occupations:

1. Accountants
2. Accounting clerks
3. Clerk typists
4. General office clerks
5. Keypunch operators & verifiers
6. Shipping & receiving clerks
7. Stenographers
8. Typists

D. Crafts and Related Occupations:

1. Automotive vehicle repairers, body & fender mechanic (motor)
2. Carpenters
3. Cooks & chefs
4. Machine tool setters (set-up)
5. Millwrights
6. Roofers
7. Sewers & stitchers (manufacturing)

E. Service and Related Occupations:

1. Automobile attendants: gas & parking
2. Counter & fountain workers
3. Industrial guards & watchmen
4. Janitors

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 3: Auburn, Fort Wayne, and Huntington.

THE FORT WAYNE ECONOMY

An assessment of the Fort Wayne Economy was reported by Guthrie (1976) *. "All major categories of economic activity in the Fort Wayne SMSA have experienced steady growth throughout the first three quarters of 1976. Manufacturing and nonmanufacturing employment have increased by approximately 2,400 and 3,000 jobs, respectively, as of the end of August. Unemployment has decreased 2.8 percentage points, to a seasonally adjusted current level of 5.0% in October. However, the local unemployment rate is deceptive in that the decrease in unemployment has resulted from a continued contraction of the labor force, now approximating 8,000, rather than an expansion of employment.

"Local department store sales so far this year are up 15% on a real basis from the anemic first quarter 1975 low, although they have been flat for the last six months through August 1976. This mirrors the national trend; however, the local consumer is still actively purchasing, especially durables. For example, building permits for new single-family and duplex housing in Allen County are averaging 115 per month through September, which is 36% ahead of last year and 15% ahead of 1972, the best year to date. This bodes well for local construction activity in the short run, especially since the two most recent months have been trending further upward. Local new housing data are consistent with both a Federal Reserve Bank of St. Louis Review article which suggests that the housing industry will peak later in this recovery than it has in past recoveries, and with housing starts nationally, which jumped 10% from the second to the third quarter. This activity should keep the local wire and motor industries strong.

"Consumers largely supported the current economic recovery through 1975, and the buildup of business inventories supported the push in the first two quarters of 1976. If the economy is to continue to expand, the need for increased capital spending by business is self-evident. New orders for durable goods have recouped from the April 1975 low, but more growth is needed. Given the still relatively favorable interest rates (especially when considering the inflation rate), the evidence suggests further increases in capital spending during the current expansionary period.

"The transportation equipment sales trend is of particular importance to the Fort Wayne economy. Truck sales as of the end of September had pulled ahead of the record pace set in 1973; however, sales have been concentrated in the lower weight classes. This favors local manufacturers, especially Dana Corp., which manufactures primarily for those weight classes. However, the heavy duty truck market has been flat in 1976. Increased capital spending should benefit this particular segment of the truck industry, and this in turn will benefit the Fort Wayne economy. Also, the new Teamsters contract, which calls for having air conditioning on line haul equipment by April 1, 1977, should create a blip in the demand for the large heavy duty trucks produced in Fort Wayne, just as the Department of Transportation's new brake standards did.

"The current business recovery has labored of late; however, it should become expansionary again during the first quarter of 1977. Local employment is forecasted to expand by 3,000 (2%) and 2,000 (1.3%) jobs in the first and second half of 1977, respectively.

"One event which would invalidate this forecast should be considered. If there is an excessive increase in the price of crude oil in January 1977, the current economic expansion could easily abort, and severe local unemployment would reoccur as a result of an oil boycott."

*Guthrie, T. L. Fort Wayne. Indiana Business Review, Nov.-Dec. 1976, 51, 17-18.

POPULATION CHARACTERISTICS

The population of Region 4 ranks seventh among the fourteen Economic Regions of the State. About 68% of the residents of this Region live in three counties: Tippecanoe, Montgomery and Clinton. Four cities account for over 37% of the population: Lafayette, West Lafayette, Frankfort and Crawfordsville.

REGION 4, COMMUTING PATTERNS

One out of six employees in Region 4 commutes outside the home county to work. Nearly half the employed force in Warren County commutes to some other county for work. Only two counties in Region 4 have low rates of commuters: Tippecanoe and Montgomery Counties. The Map below shows commuting patterns for Region 4.

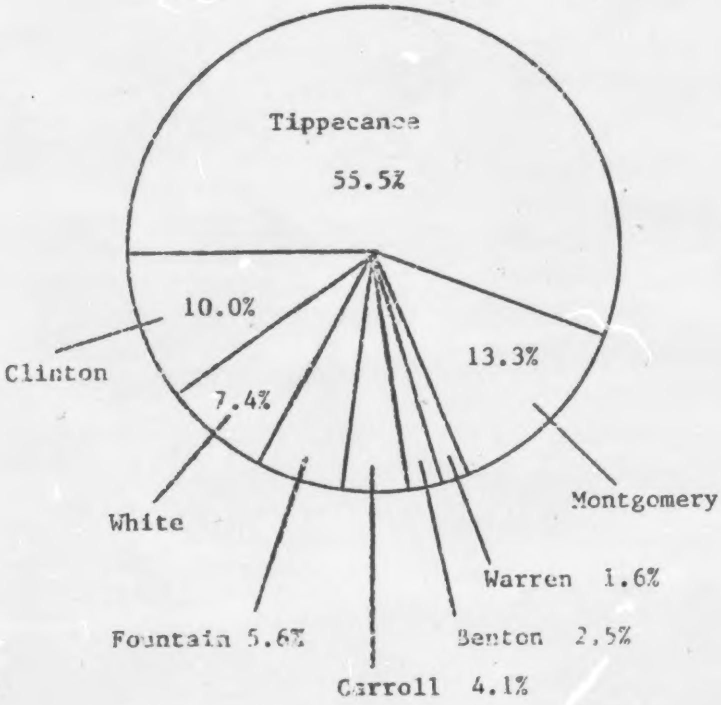
Total:	75,621	16,020	17.5%

EMPLOYMENT DISTRIBUTION

Employment in Region 4 is centered in Tippecanoe County. Three out of four employees in the Region can be found in Tippecanoe, Montgomery, and Clinton Counties. Covered employment totaled nearly 69,200 in 1975, and 70,200 in the first quarter of 1976. See the Diagram below.

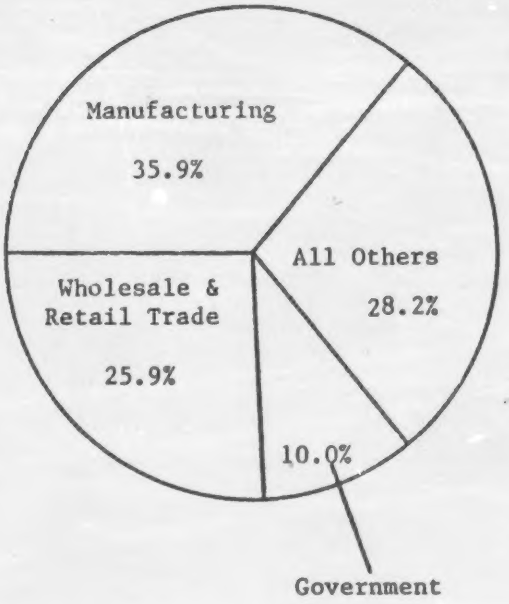
COVERED EMPLOYMENT* BY COUNTY



*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishment with certain exceptions. State government hospitals, schools of higher education, and local utilities are covered.

In Region 4, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 4.

REGION 4: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	4,281	69,170
AGRICULTURE, FORESTRY, & FISHING	65	370
MINING	15	190
CONSTRUCTION	523	2,850
Building construction	210	1,030
Construction, except building (general contractors)	44	620
Special trade contractors	269	1,200
MANUFACTURING	295	24,820
Food & kindred products	35	2,000
Apparel & fabric products	5	280
Lumber & wood products	33	1,170

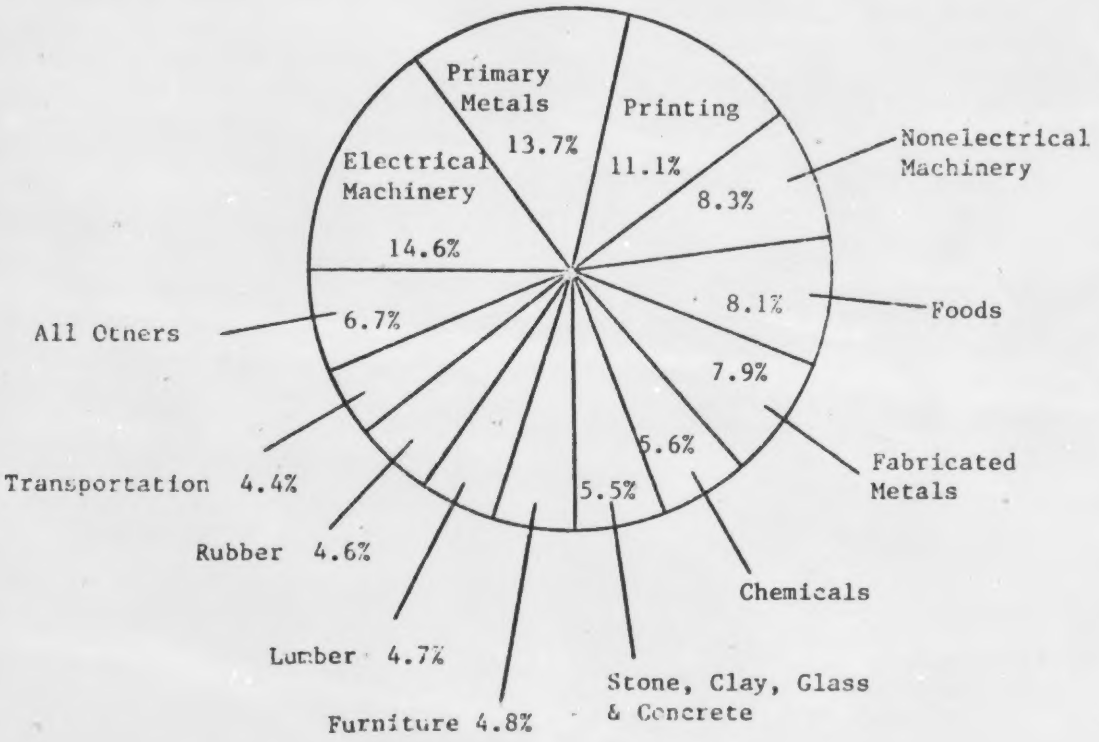
Real estate	125	460
Combinations of real estate, insurance, loans, & law offices	15	30
All other finance, insurance, & real estate	7	70
SERVICES	1,033	9,860
Hotels, rooming houses, camps, & other lodging places	39	830
Personal services	182	800
Business services	102	800
Automobile repair, services, & garages	102	330
Miscellaneous repair services	36	120
Motion pictures	11	140
Amusement & recreation services (except motion pictures)	57	520
Health services	230	4,480
Legal services	91	240
Education services	8	330
Social services	25	500
Membership organizations	90	540
All other services	60	230
GOVERNMENT	27	6,910
State government	3	6,490
Local government	24	420

MANUFACTURING EMPLOYMENT

In Region 4, 36% of all covered employment is in manufacturing. Over 24,800 workers in the Region are employed in one of nearly 300 establishments. Four out of ten of the manufacturing employees can be found in Tippecanoe County. The electrical machinery industry is the largest industry group in the manufacturing sector. Nearly four out of ten of the workers in manufacturing can be found in the following industries: electrical machinery, primary metals, or printing. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 4 are listed in order by numbers employed; see the Table below.

REGION 4: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	2,810
Managers & officers	1,070
Supervisors, nonworking, except service	1,010
Inspectors	660
Secretaries	580
Coil winders	550
Welders & flamecutters	540
Machine tool operators, combination	520
Production packagers	460
Janitors, porters, & cleaners	390
Industrial truck operator	360
Compression/Injection molding machine operator	300
Maintenance workers, general utility	300
Testers	300
General clerks	280
Lathe and/or turning machine operator	240
Chemical operator A	230
Filers, grinders, buffers, chippers, & cleaners	230
Grinding and/or abrading machine operator	200
Chemical operator helper	190

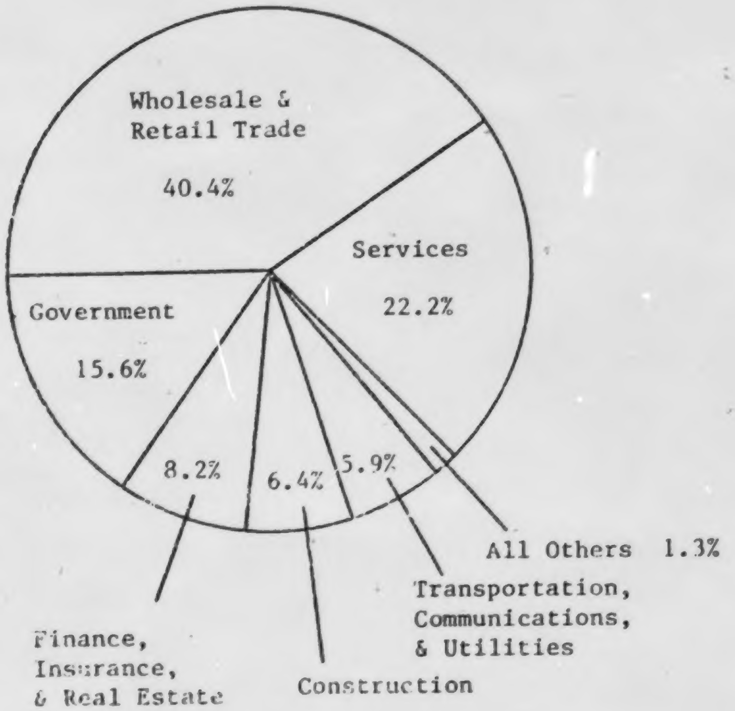
NONMANUFACTURING EMPLOYMENT

In Region 4, over 54% of all covered employment is in nonmanufacturing. More than 37,400 workers are employed in nearly 4,000 nonmanufacturing establishments. Tippecanoe County has over 56% of the nonmanufacturing employment in the Region.

More than four out of ten workers in the Region 4 nonmanufacturing sector can be found in wholesale and retail trade. More than one out of five nonmanufacturing employees works in the services sector. Nearly eight out of ten employees in nonmanufacturing works in wholesale or retail trade, in services, or in government. More than half of the total covered employment in Region 4 are in one of these three sectors. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 4: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	2,110
Managers & officers	1,810
Sales persons	1,740
Cashiers	890
Waiters/Waitresses	850
General clerks	620
Food preparation & service workers	590
Mechanics, automotive	580
Stock clerks, sales floor	550
Delivery & route workers	500
Automobile service-station attendants	430
Stock clerks, stockroom & warehouse	420
Bookkeepers, hand	400
Cooks, short order	350
Truck drivers	340
Janitors, porters, & cleaners	320
Kitchen helpers	230
Counter workers, lunchroom	220
Butchers/Meat cutters	200
Shipping/Receiving clerks	200
Baggers	190
Cooks, restaurant	180
Secretaries	180
Bus boys/girls	170
Bartenders	120

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 4. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 4. At the end of the Region 4 section can be found detailed supply information at the secondary and post-secondary levels.

Region IV

Occupation	Program Enrollments				Registered Apprentice	
	Adult		Apprentice			
	M	F	M	F	M	F
Agriculture	20	27				
Agriculture construction maintenance	18					
Agriculture mechanics skills	3					
Agriculture production	146	66				
Agriculture power machines	10					
Carpentry			19			
Computing machine operator		12				
Electrician			31		1

Machinist					4	
Operating engineers					4	
Ornamental horticulture	3	8				
Outside electrical worker					1	
Pipefitter					1	
Plant science	36	1				
Plumbing			23			
Textile/Clothing	22	141				
Tool maker					1	
Truck repair					1	
Typist		13				
Water management	15					

OCCUPATIONAL DEMAND

In Region 4, it is anticipated that at least a dozen occupations will be in short supply during 1977-1978. These occupations are listed below.

REGION 4: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

- Hospital & other institutional workers
- Nurse aides
- Professional nurses (registered)
- Drafters
- Food service salesworkers (restaurants, etc.)
- Clerk typists
- General office clerks
- Automotive vehicle repairers: body & fender
- Tool & die makers
- Private household workers
- Waiters/Waitresses

During 1977-1978, other occupations are expected to be in constant demand in Region 4. These occupations are listed by occupational group in the Table below.

REGION 4: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Dental hygienist
2. Practical nurses

B. Technicians and Related Occupations:

1. Automotive technicians

C. Management:

1. Administrative managers
2. Manager trainees

D. Salesworkers by Industry:

1. Food distribution (grocery stores)
2. General merchandise (department stores)
3. Hotel & lodging

E. Office Occupations:

1. Accountants
2. Accounting clerks
3. Cashiers
4. Secretaries
5. Typists

F. Service and Related Occupations:

1. Automobile attendants: gas & parking
2. Charworkers & cleaners
3. Counter & fountain workers
4. Delivery & route workers
5. Drivers: truck and/or tractor
6. Industrial guards & watchmen
7. Janitors

F. Crafts and Related Occupations:

1. Air conditioning & heating installers & repairers
2. Automotive vehicle repairers: mechanics (motor) combination
3. Carpenters
4. Cooks, chefs
5. Diesel mechanics
6. Electrical motor repairers
7. Electricians (including electronics)
8. General industrial maintenance workers
9. Heavy construction operators: crane, derrick, hoist operators; excavation, grading, & road machinery operators
10. Industrial machinery repairers
11. Machinists
12. Machine tool setters (set-up)
13. Masons
14. Plumbers & pipefitters
15. Roofers
16. Sewers & stitchers (manufacturing)
17. Sheet metal workers
18. Welders & flamecutters: basic certified

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate: for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 4: Crawfordsville, Frankfort, and Lafayette.

REGION 4

POPULATION CHARACTERISTICS

The population of Region 5 ranks eighth among the fourteen Economic Regions of the State. About 37% of the residents in this Region live in Howard County. Howard County, the fourteenth most populous county in the State, has 2% of Indiana's population. Between 1970 and 1975, population increased significantly in Howard County, but small increases were found for Fulton and Miami Counties. Tipton showed population decrease during the period.

Kokomo, the largest urban center, in the Region, had a population of about 46,000 in 1973. Seven urban centers account for over 45% of the population in the Region: Kokomo, Logansport, North Manchester, Peru, Rochester, Tipton, and Wabash.

REGION 5, COMMUTING PATTERNS

About one out of seven employees in Region 5 commutes outside the home county to work. Half of the commuters go to Howard County for employment. Nearly two thirds of the commuters come from Tipton and Fulton Counties. With the exception of Tipton County, two thirds or more of the employees work in their home counties. The Map below shows commuting patterns for Region 5.

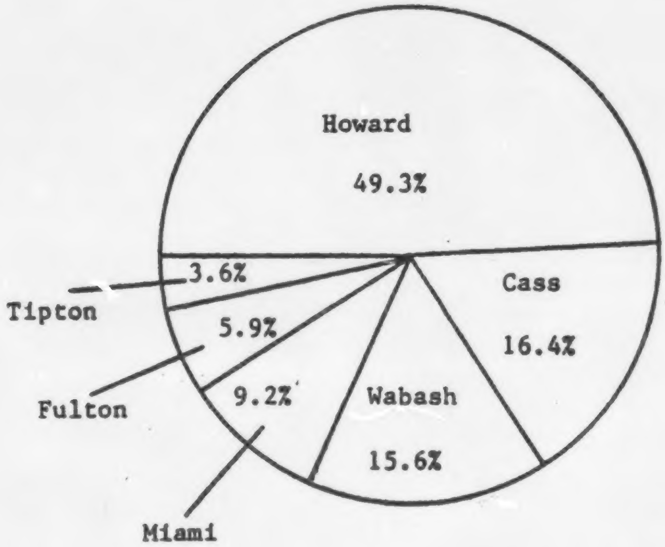
Total:	72,512	12,926	15.1%

EMPLOYMENT DISTRIBUTION

Employment in Region 5 is centered in Howard County, especially in Kokomo. About eight out of ten employees in the Region can be found in Howard, Cass, and Wabash Counties. Covered employment totaled nearly 66,900 in 1975, and 69,800 in the first quarter of 1976. See the Diagram below.

COVERED EMPLOYMENT* BY COUNTIES

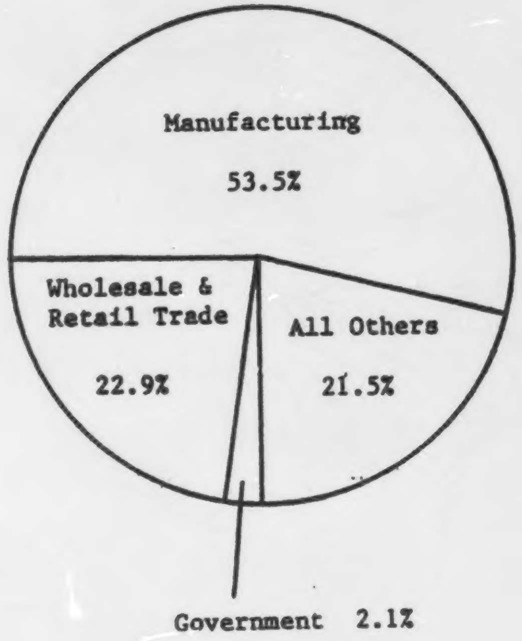


---

*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local utilities are covered.

In Region 5, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 5.

REGION 5: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT

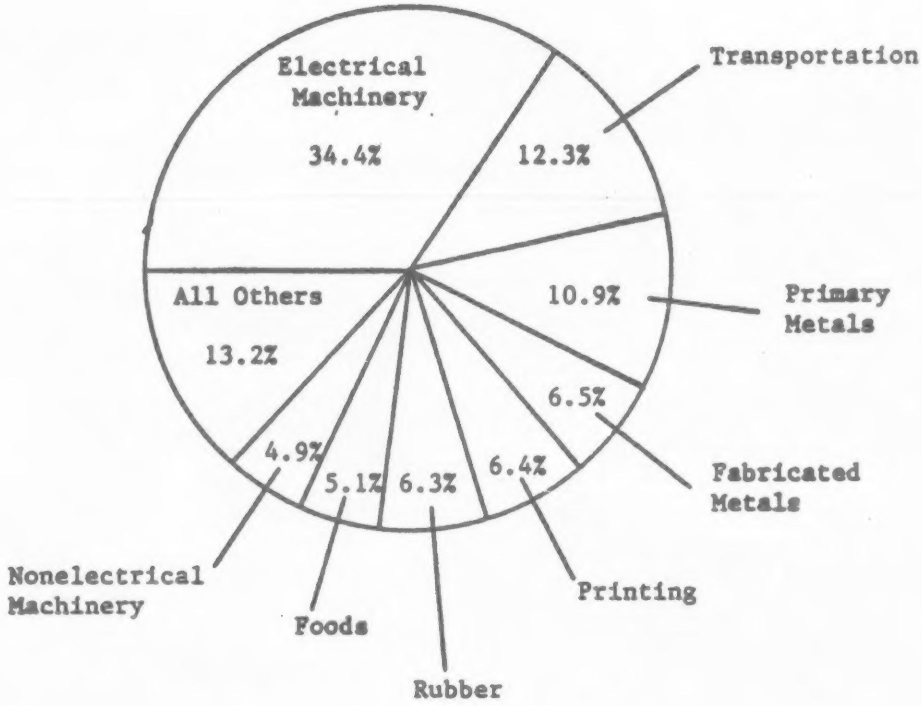
MANUFACTURING EMPLOYMENT

In Region 5, 53% of all covered employment is in manufacturing. The Region is one of Indiana's major areas of parts production for the automotive industry. Nearly 35,800 workers in the Region are employed in one of 320 manufacturing establishments. More than half of the manufacturing employees can be found in Howard County. In the manufacturing sector, the electrical machinery industry is the largest industry group. Nearly six out of ten manufacturing employees can be found in electrical machinery, transportation, or primary metals industries. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



177

In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 5 are listed in order by numbers employed; see the Table below.

REGION 5: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	7,110
Inspectors	1,890
Supervisors, nonworking, except service	1,430
Managers & officers	1,280
Punch press operators, metal	960
Tool and die makers, metal	780
Drill press and/or boring machine operators	750
Welders and flamecutters	700
Lathe and/or turning machine operators	620
Grinding and/or abrading machine operators	610
Janitors, porters, and cleaners	550
Machine tool operators, combination	520
Pressers, rubber goods	420
Electricains	360
Sewing machine operators, regular equipment	360
Filers, grinders, buffers, chippers, & cleaners	320
Milling and/or planing machine operators	320
Millwrights	300

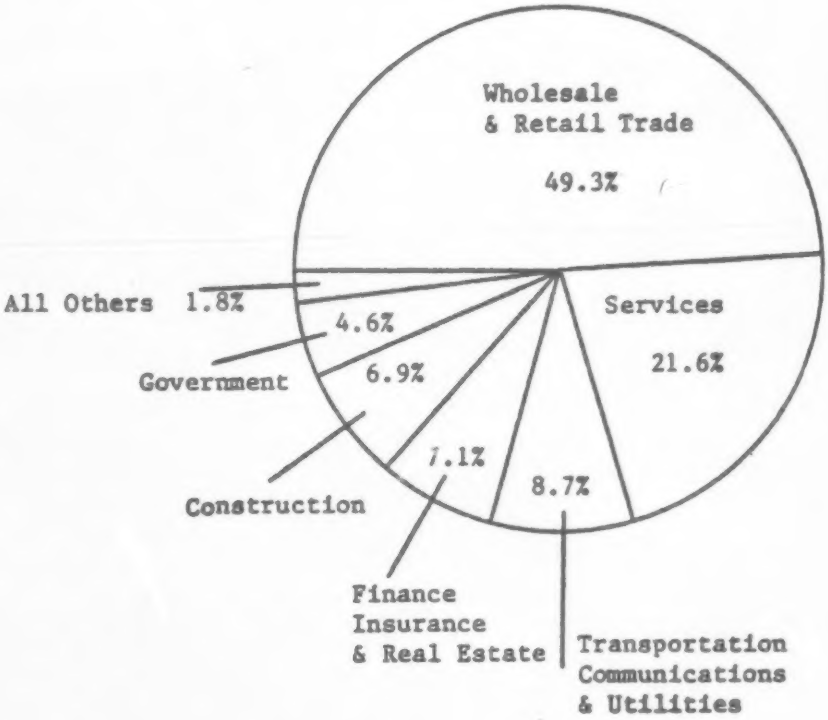
NONMANUFACTURING EMPLOYMENT

In Region 5, over 46% of all covered employment is in nonmanufacturing. More than 31,100 workers are employed in 3,560 nonmanufacturing establishments. Howard County has four out of ten employees in Region 5 nonmanufacturing sector.

Wholesale and retail trade represents nearly half of the nonmanufacturing in Region 5. About one out of five nonmanufacturing employees is in the services sector. Nearly eight out of ten employees in nonmanufacturing works in wholesale or retail trade, in services, or in transportation, communications, or utilities. In addition, two out of three employees in the total covered employment in Region 5, are in wholesale or retail trade, services, or in transportation, communications, or utilities. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 5: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	1,790
Managers & officers	1,540
Sales persons	1,480
Cashiers	760
Waiters/Waitresses	720
General clerks	530
Food preparation & service workers	500
Mechanics, automotive	490
Stock clerks, sales floor	470
Delivery & route workers	430
Automobile service-station attendants	370
Stock clerks, stockroom & warehouse	360
Bookkeepers, hand	340
Cooks, short order	300
Truck drivers	290
Janitors, porters, & cleaners	270
Kitchen helpers	200
Counter workers, lunchroom	190
Butchers/Meat cutters	170
Shipping/Receiving clerks	170
Baggers	160
Cooks, restaurant	150
Secretaries	150
Bus boys/girls	140
Bartenders	100

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 5. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 5. At the end of the Region 5 section can be found detailed supply information at the secondary and post-secondary levels.

Region V

	Program Enrollments				Registered	
	Adult		Apprentice		Apprentice	
Occupation	M	F	M	F	M	F
Agriculture	11	9				
Agriculture mechanics	12					
Agriculture mechanics skills	13					
Agriculture power machines	25	4

Lineman	1992	606				
Machine repair					4	
Machine shop	33	1				
Maintenance mechanic millwright					2	
Mechanics	23	43				
Metalworking			103			
Metal trade combined			9			
Miscellaneous technical education	30					
Mould maker					1	
Operating engineers					1	
Other agriculture	43	10				
Outside electrical worker					1	
Plumbing			45		3	
Refrigeration & Air conditioning maintenance controls					1	
Sheet metal workers					2	
Steamfitters					4	
Textiles/Clothing		116				
Tinsmith					1	
Tool maker					2	

Region V

Occupation	Program Enrollments				Registered Apprentice	
	Adult		Apprentice			
	M	F	M	F	M	F
Tool/Die maker			178	6	4	
Truck repair					1	
Upholstering	7	52				
Welders					7	
Welding/Cutting	76		22			
Woodworking	10	8				

OCCUPATIONAL DEMAND

In Region 5, it is anticipated that at least a dozen occupations will be in short supply during 1977-1978. These occupations are listed below.

REGION 5: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

Automotive vehicle
  repairers: body & fender
Cooks & chefs
Diesel mechanics
Dietary technicians
  other health technicians
Drivers: truck and/or tractor
Hospital dietary technicians
Insurance salesworkers
Nurse aids
Practical nurses
Professional nurses
  (registered)
Secretaries
Waiters/Waitresses
Welders & flamecutters:
  basic

During 1977-1978, other occupations are expected to be in constant demand in Region 5. These occupations are listed by occupational group in the Table below.

REGION 5: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Clinical laboratory technicians
2. Emergency care technicians
3. Hospital & other institutional workers
4. Medical health technicians
5. Physical therapists
6. Radiologic occupations (x-ray technicians, etc.)
7. Respiratory therapy technicians and/or inhalation.

B. Technicians and Related Occupations:

1. Automotive technicians
2. Conservation technicians
3. Drafters
4. Electronic technicians
5. Engineering technicians
6. Industrial management technicians
7. Industrial technicians
8. Mechanical technicians
9. Water & waste water technicians.

C. Wholesale and Retail Trade Occupations:

1. Apparel & accessories salesworkers
2. Food distribution salesworkers (grocery stores)
3. Food services salesworkers (restaurants, etc.)
4. General merchandise salesworkers (department stores)
5. Manager trainees

D. Office Occupations:

1. Accountants
2. Accounting clerks
3. Bookkeepers
4. Bookkeeping machine operators
5. Cashiers
6. Clerk typists
7. General office clerks
8. Receptionists & telephone operators
9. Stenographers
10. Stock & inventory clerks
11. Typists

E. Crafts and Related Occupations:

1. Air conditioning & heating installers & repairers
2. Appliance repairers
3. Automotive vehicle mechanics (motor)
4. Bookbinders
5. Carpenters
6. Die setters
7. Electrical motor repairers
8. Electricians (including electronics)
9. Foundry molders
10. Foundry core makers
11. General industrial maintenance workers
12. Heavy construction workers; crane, derrick & hoist operators, excavating, grading, & road machinery operators.
13. Industrial machinery repairers
14. Machine tool setters (set up)
15. Machine tool operators
16. Machinists
17. Meat cutters (except meat packing)
18. Millwrights
19. Plumbers & pipefitters
20. Roofers
21. Sewers & stitchers (manufacturing)
22. Tool & die makers

F. Service and Related Occupations:

1. Automobile attendants: gas & parking
2. Charworkers & cleaners
3. Counter & fountain workers
4. Janitors
5. Laundry & dry cleaning occupations
6. Park workers

G. Agricultural Occupations:

1. Agricultural implement mechanics
2. Nursery workers
3. Vegetable farmworkers

DETAILED SIPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations are listed for the following urban centers in Region 5: Kokomo, Logansport, Peru, and Wabash.

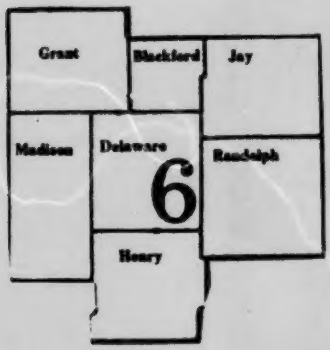
MADISON	67,900	71,500	139,000	0.7
RANDOLPH	14,500	15,100	29.600	2.4
TOTAL	231,800	246,300	478,100	1.1



POPULATION CHARACTERISTICS

The population of Region 6 is fourth highest of the fourteen Economic Regions of the State. Almost three-fourths of the Region's population live in three counties: Madison, Delaware and Grant. Five cities contain 45% of the Region's population: Anderson, Muncie, Marion, New Castle, and Elwood. Muncie is the home of Ball State University, and students there are included in the population count.

REGION 6, COMMUTING PATTERNS

One out of seven workers in Region 6 commutes outside the home county for employment. Nearly half (47%) of all commuters in the Region come from two counties: Madison and Henry Counties. Eighty-five percent of all employees in the Region work within the home county. The Map below shows commuting patterns for Region 6.

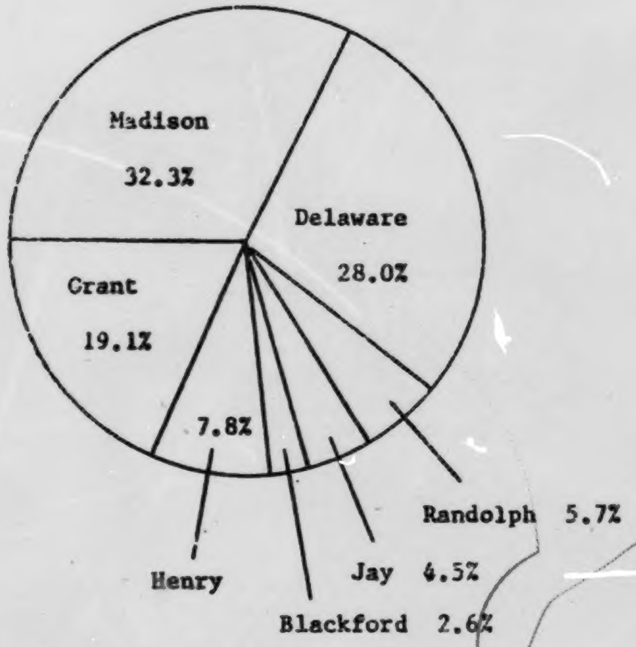
Total:	140,671	24,670	14.9%

EMPLOYMENT DISTRIBUTION

Employment in Region 6 is centered in Madison, Delaware, and Grant Counties. Nearly eight out of ten workers in the Region can be found in these three counties. Covered employment totaled nearly 131,800 in 1975, and 133,700 in the first quarter of 1976. See the Diagram below.

COVERED EMPLOYMENT* BY COUNTIES

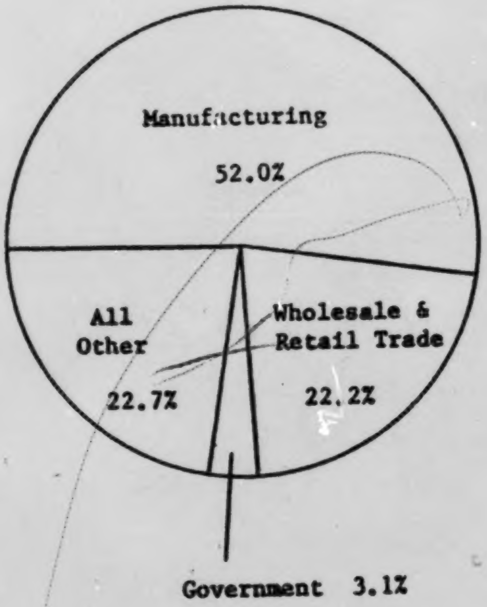


---

*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 6, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 6.

REGION 6: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	7,289	131,770
AGRICULTURE, FORESTRY, & FISHING	68	290
MINING	18	230
CONSTRUCTION	775	3,570
Building construction	266	1,200
Construction, except building (general contractors)	61	510
Special trade contractors	448	1,860
MANUFACTURING	608	68,540
Food & kindred products	57	3,350

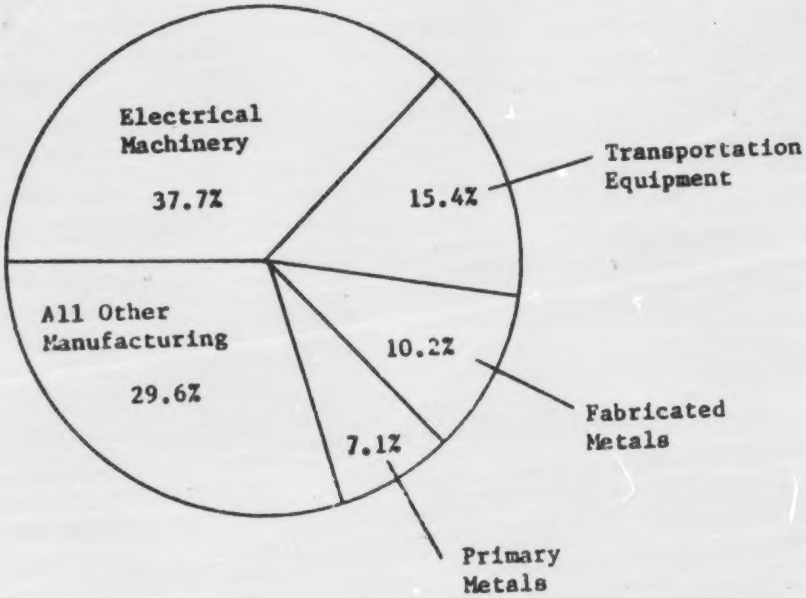
Miscellaneous repair services	69	180
Motion pictures	18	200
Amusement & recreation services (except motion pictures)	99	720
Health services	492	7,800
Legal services	140	340
Education services	11	710
Social services	50	730
Membership organizations	171	1,210
All other services	88	310
GOVERNMENT	31	4,000
State government	3	3,280
Local government	28	720

MANUFACTURING EMPLOYMENT

In Region 6, 52% of all covered employment is in manufacturing. More than 68,500 workers in the Region are employed in one of over 600 manufacturing establishments. More than three out of four manufacturing employees can be found in Delaware, Grant, and Madison Counties. In the manufacturing sector, electrical machinery is the largest industry group. More than six out of ten manufacturing employees can be found in electrical machinery, transportation equipment, or in fabricated metals industries. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 6 are listed in order by numbers employed; see the Table below.

REGION 6: OCCUPATIONS OF NUMERICAL SIGNIGICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	9,700
Inspectors	3,370
Supervisors, nonworking, except service	3,060
Managers & officers	2,630
Tool & die makers, metal	2,010
Punch press operators, metal	1,870
Industrial truck operators	1,720
Selectors (glass)	1,700
Machine tool operators, combination	1,570
Janitors, porters, and cleaners	1,350
Welders & flamecutters	1,310
Drill press and/or boring machine operators	1,290
Production packagers	1,280
Lathe and/or turning machine operators	1,080
Mechanics, maintenance	1,060
Grinding and/or abrading machine operators	810
Painters, production	780
Machine tool operators, tool room	710
Compression and/or injection-molding machine operators	680
Electricians	620

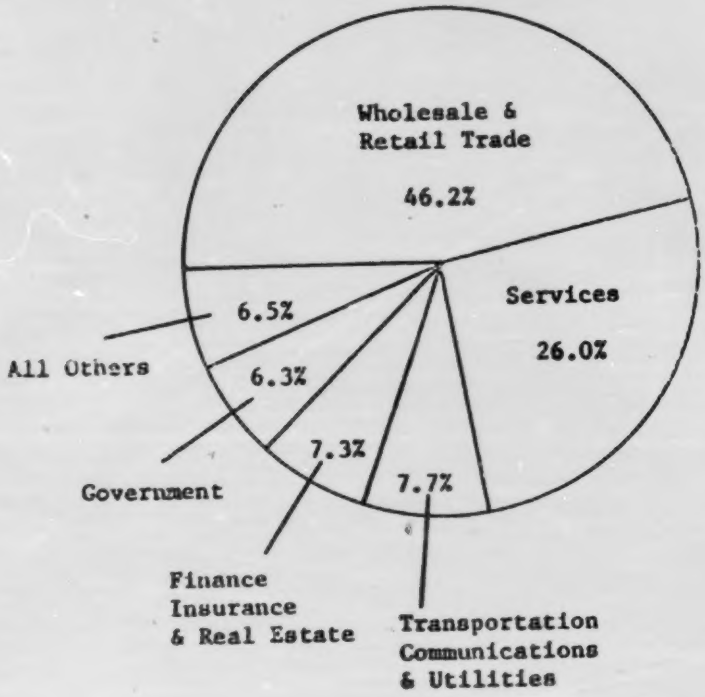
NONMANUFACTURING EMPLOYMENT

In Region 6, nearly 48% of the total covered employment is in nonmanufacturing, nearly equal in size to the manufacturing work force. More than 63,200 workers are employed in nearly 6,700 nonmanufacturing establishments. More than eight out of ten employees in Region 6 nonmanufacturing sector can be found in Delaware, Grant, and Madison Counties.

Wholesale and retail trade represents nearly half (46%) of the nonmanufacturing in the Region. More than one out of four employees in nonmanufacturing is in the services sector. Nearly eight out of ten employees in nonmanufacturing works in wholesale and retail trade, in services, or in transportation, communications, or utilities. In addition, more than one out of three employees in the total covered employment in Region 6, can be found in one of these three sectors.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 6: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	3,450
Managers & officers	2,970
Salespersons	2,850
Cashiers	1,460
Waiters/Waitresses	1,400
General clerks	1,010
Food preparation & service workers	970
Mechanics, automotive	950
Stock clerks, sales floor	900
Delivery & route workers	830
Automobile service-station attendants	700
Stock clerks, stockroom & warehouse	690
Bookkeepers, hand	650
Cooks, short order	570
Truck drivers	560
Janitors, porters, & cleaners	530
Kitchen helpers	380
Counter workers, lunchroom	360
Butchers/Meat cutters	330
Baggers	320
Shipping/Receiving clerks	320
Secretaries	290
Cooks, restaurant	290
Bus boys/girls	280

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 6. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 6. At the end of the Region 6 section can be found detailed supply information at the secondary and post-secondary levels.

Region VI

	Program Enrollments				Registered	
	Adult		Apprentice		Apprentice	
Occupation	M	F	M	F	M	F

OCCUPATIONAL DEMAND

In Region 6, it is anticipated that about a dozen occupations will be in short supply during 1977-1978. These occupations are listed below.

REGION 6: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

Automotive mechanics (motor)
Cooks & chefs
Electricians
(including electronics)
Industrial machinery repairers
Machinists
Millwrights
Occupational therapists
Practical nurses
Professional nurses
(registered)
Secretaries
Tool & die makers

During 1977-1978, other occupations are expected to be in constant demand in Region 6. These occupations are listed by occupational group in the Table below.

REGION 6: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:
   1. Hospital & other institutional workers
   2. Medical health technicians
   3. Medical transcription technicians
   4. Nurses aides

B. Technicians and Related Occupations:
   1. Electrical technicians
   2. Engineering technicians
   3. Industrial technicians
   4. Mechanical technicians

C. Management:
   1. Manager trainees

D. Salesworkers by Industry:
   1. Apparel & accessories
   2. Food services (restaurants, etc.)
   3. Insurance

E. Office Occupations:
   1. Bookkeepers
   2. Cashiers
   3. Clerk typists
   4. General office clerks
   5. Typists

F. Crafts and Related Occupations:
   1. Carpenters
   2. Diesel mechanics
   3. General industrial maintenance
   4. Plumbers & pipefitters
   5. Roofers

G. Service and Related Occupations:

1. Automotive attendants: gas & parking
2. Charworkers & cleaners
3. Counter & fountain workers
4. Day nursery workers & operators
5. Drivers: truck and/or tractor
6. Janitors
7. Private household workers
8. Waiters/Waitresses

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 6: Anderson, Marion, Muncie, and New Castle.

REGION 6

R. R. Jost: MUNCIE*

"Historically, areas with a heavy concentration of durable goods manufacturing, such as the Great Lakes region, are vulnerable to the vicissitudes of the business cycle, suffering pronounced unemployment in the downswing, but recovering well in the upswing. Indiana's unemployment experience closely conformed to this pattern during the severe 1973-75 recession, and unemployment data for the Muncie SMSA ostensibly appears to fit the same pattern.

"Unemployment in the Muncie SMSA peaked at over 11.5% during both August and September of 1975, and subsequently trended downward to 5.4% as of September 1976. This relatively rapid decline in unemployment is not quite typical of Muncie's past cyclical experience, for Muncie has tended to lag the cycle more than Indiana as a whole. Employment and population data provide a partial explanation for this somewhat atypical behavior. Using November 1973, the cyclical peak of the nation, as a reference, Muncie's employed nonagricultural labor force has subsequently declined by over 6% as of September 1976. Indeed, nonagricultural labor force data for the 1970s has been essentially flat, though the average 1976 data compare a bit unfavorably with 1970. It appears that Muncie SMSA has experienced a very slow rate of growth during the 1970s and, as a consequence, many workers have withdrawn or delayed their entrance into the labor force.

"Population trends for this area tend to reinforce this interpretation. The population of the Muncie SMSA grew approximately 23% between 1950 and 1960, 15% during the sixties, but increased by only 300 people, or .2 of 1%, in the first half of the current decade. During this latter quinquennium, the Muncie SMSA experienced a net outmigration of 5,400 people, or 4.2% of the 1970 population. Between July 1, 1974 and July 1, 1975, the population actually declined by 1,100 people. What is true for Delaware County (in other words, the Muncie SMSA) is also generally true for Region 6, which includes the six surrounding counties, all of which have experienced a slower rate of population growth than many of the more rapidly growing regions of the state.

"Ball State University's previously rapid growth contributed much to the population growth of Delaware County during the 1960s, but enrollment has leveled off in the 1970s, and both demographic data and IU-PUI enrollment figures in Richmond, Indianapolis, Kokomo and Fort Wayne suggest the real possibility of declining future enrollments.

---

OCCUPATIONAL DEMAND

In Region 7, it is anticipated that at least four dozen occupations will be in short supply during 1977-1978. These occupations are listed by occupational group in the Table below.

REGION 7: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Clinical laboratory technicians
2. Dental assistants
3. Dental hygienists
4. Histologic technicians
5. Hospital dietary technicians
6. Medical & medical laboratory technicians
7. Medical records technicians
8. Medical transcription technicians
9. Nurses aides
10. Operating room technicians
11. Practical nurses
12. Professional nurses (registered)
13. Radiologic occupations (x-ray technicians, etc.)
14. Respiratory therapy technicians and/or inhalation

"The Muncie Composite Business Index currently registers a meager 113 over its 1967 base of 100, and the manufacturing component is down to 90. During the 1960s, employment in the manufacturing sector of the Muncie SMSA (and Region 6 as well) grew at a rate substantially lower than that of the state as a whole. Slower growth of manufacturing employment, which has a relatively high multiplier effect in terms of creating additional jobs, accounts for much of the flat growth rate of the employed nonagricultural labor force in the 1970s. Furthermore, the more pronounced growth of the trade and service and government sectors in the 1960s and early 1970s obviously has not spared the local economy from the severities of the 1973-75 recession.

"What is the outlook for the Muncie SMSA in 1977? Much depends on how the nation's economy fares. Despite the growing number of Cassandras and some as yet unknown factors that could derail continued expansion, such as the size of the OPEC price rise and Carter's economic policies during the first 100 days, the odds still heavily favor moderate continued expansion of the nation's economy through 1977. It is hoped that the favorable outlook for both capital spending and auto sales will benefit the local machine tool and transportation equipment firms.

"The most important economic news for the Muncie SMSA is the announcement of plans for a 166,780 square foot addition to the existing Chevrolet-Muncie manual transmission plant. This plant addition is expected to add several hundred workers to the payroll when it is completed and in operation by the Spring of 1978. Muncie's economic future is heavily dependent on decisions by business firms to expand or locate in Muncie, for these are the decisions from which jobs are created."

POPULATION CHARACTERISTICS

The population of Region 7 ranks tenth in size among the fourteen Economic Regions of the State. Vigo County accounts for more than half of the population of this Region. Three cities account for 41% of the Region's population: Terre Haute, Greencastle, and Brazil. Terre Haute is the sixth largest city in the State. Region 7 is a major coal mining area in the State.

REGION 7 COMMUTING PATTERNS

About one out of five employees in Region 7 commutes outside the home county to work. From Illinois, 1,100 workers commute to Region 7; from Region 7, 1,000 workers commute to Illinois. About 6,600 workers commute to Vigo County. High rates of commuting, from three to four out of ten employees, were found for the following counties: Clay, Vermillion, Parke, and Sullivan. The Map below shows commuting patterns for Region 7.

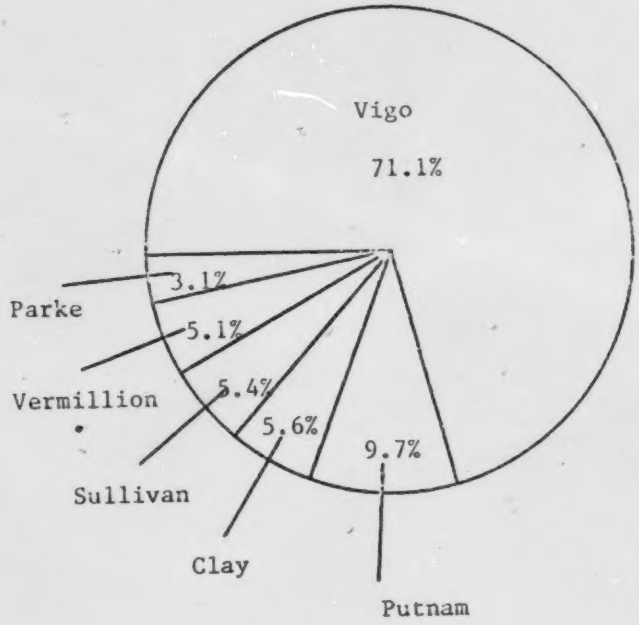
Vigo	36,994	2,513	5.9%
Total:	57,852	14,208	19.7%

EMPLOYMENT DISTRIBUTION

Employment in Region 7 is centered in Vigo County, which has seven out of ten workers in the total Regional work force. Covered employment totaled nearly 53,700 in 1975, and 53,250 in the first quarter of 1976. See the Diagram below.

COVERED EMPLOYMENT* BY COUNTIES

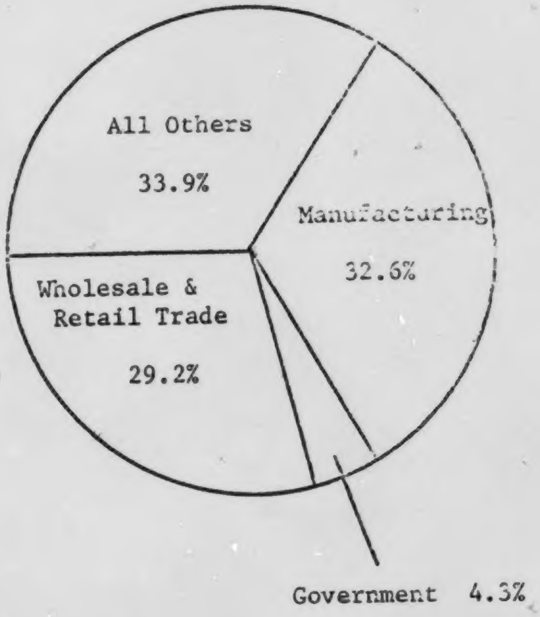


---

*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 7, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISION*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 7.

REGION 7: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

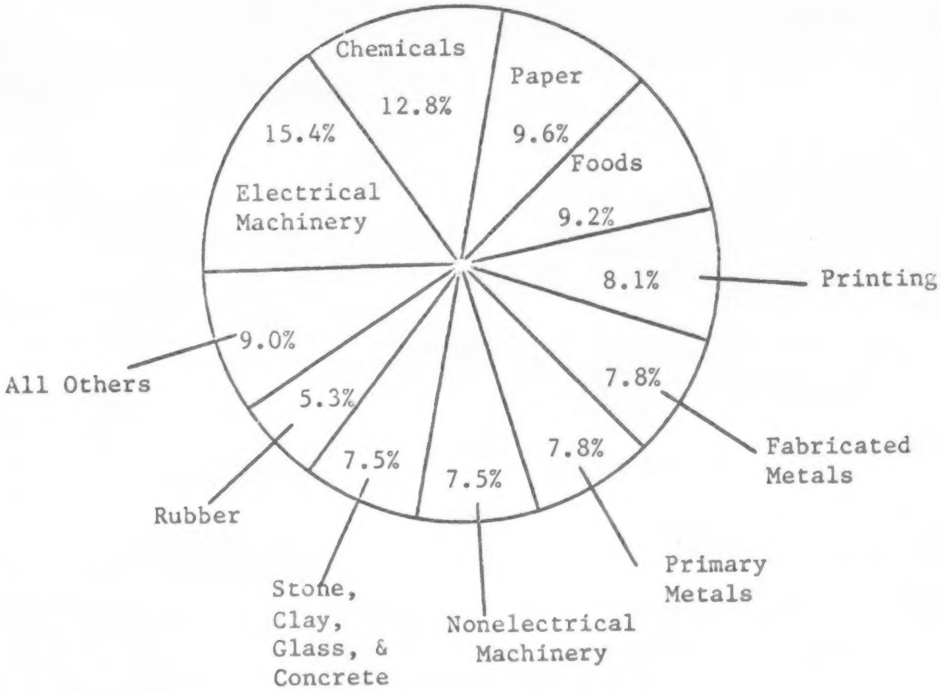
MANUFACTURING EMPLOYMENT

In Region 7, one third of all covered employment is in manufacturing. Nearly three fourths of the manufacturing employment force in the Region is in Vigo County. More than a third of the manufacturing work force is in the following industries: electrical machinery, chemicals, and paper. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 7 are listed in order by numbers employed; see the Table below.

REGION 7: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	860
Managers & officers	770
Supervisors, nonworking, except service	610
Production packagers	520
Welders & flamecutters	410
Industrial truck operators	400
General clerks	390
Extruder operators, thermoplastics	330
Inspectors	300
Mechanics, maintenance	270
Delivery & route workers	240
Janitors, porters, & cleaners	220
Punch press operators, metal	190
Chemical operators A	170
Maintenance workers, general utility	170
Chemical operators B	160
Order clerk	150
Secretaries	150
Sewing machine operators, automatic	90
Printers, production	30

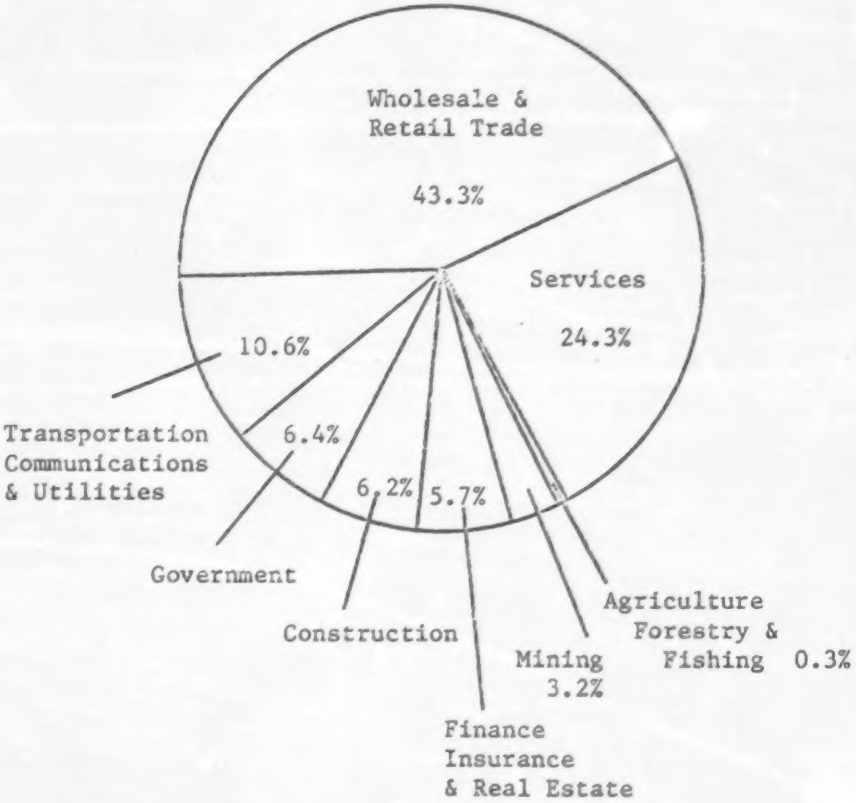
NONMANUFACTURING EMPLOYMENT

In Region 7, more than two-thirds of all covered employment is in nonmanufacturing. Nearly 36,200 workers are employed in over 3,320 nonmanufacturing establishments. Vigo County has about seven out of ten employees in the Region nonmanufacturing work force.

Over 43% of the nonmanufacturing employment in the Region is in wholesale and retail trade. More than three out of four nonmanufacturig employees works in wholesale and retail trade, in services, or in transportation, communications, and utilities. More than half of the total covered employment in the Region is in these three sectors. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 7: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	1,850
Managers & officers	1,590
Sales persons	1,530
Cashiers	780
Waiters/Waitresses	750
General clerks	540
Food preparation & service workers	520
Mechanics, automotive	510
Stock clerks, sales floor	480
Delivery & route workers	440
Automobile service-station attendants	380
Stock clerks, stockroom & warehouse	370
Bookkeepers, hand	350
Cooks, short order	310
Truck drivers	300
Janitors, porters, & cleaners	280
Kitchen helpers	200
Counter workers, lunchroom	190
Butchers/Meat cutters	180
Baggers	170
Shipping/Receiving clerks	170
Bus boys/girls	150
Cooks, restaurant	150
Secretaries	150
Bartenders	100

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 7. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 7. At the end of the Region 7 section can be found detailed supply information at the secondary and post-secondary levels.

B. Technicians and Related Occupations:

1. Automotive technicians
2. Electronic technicians
3. Programmers
4. Systems analysts

C. Management:

1. Administrative managers

D. Salesworkers by Industry:

1. Fashion merchandising
2. Food service

E. Office Occupations:

1. Accountants
2. Bookkeepers
3. Clerk typists
4. Computer operators
5. General office clerks
6. Keypunch operators & verifiers
7. Secretaries
8. Stenographers
9. Typists

F. Crafts and Related Occupations:

1. Agricultural implement mechanics
2. Air conditioning & heating installers & repairers
3. Automotive vehicle repairers: Body & fender
    - Mechanics (motor)
    - Combination
4. Beauty operators (cosmetologists)
5. Cabinet makers
6. Cooks & chefs
7. Diesel mechanics
8. Electricians (including electronics)
9. General industrial maintenance
10. Industrial machinery repairers
11. Machine tool operators
12. Machine tool setters (set-up)
13. Machinists
14. Millwrights
15. Patternmakers, metal
16. Patternmakers, wood
17. Sewers & stitchers (manufacturing)
18. Tool & die makers
19. Welders & flamecutters: certified

G. Service and Related Occupations:

1. Waiters/Waitresses

During 1977-1978, other occupations are expected to be in constant demand in Region 7. These occupations are listed by occupational group in the Table below.

REGION 7: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978.

OCCUPATIONS:

A. Health Related Occupations:

1. Hospital & other institutional workers
2. Medical health technicians
3. Occupational therapists
4. Physical therapists

B. Technicians and Related Occupations:

1. Chemical technicians
2. Manager trainees

C. Management:

1. Industrial management technicians
2. Manager trainees

D. Salesworkers by Industry:

1. Apparel & accessories
2. Food distribution
3. General merchandise
4. Insurance

E. Office Accounting:

1. Accounting clerks
2. Bookkeeping machine operators
3. Cashiers
4. File clerks
5. Receptionists & telephone operators
6. Shipping & receiving clerks
7. Stock & inventory clerks

F. Crafts and Related Occupations:

1. Chemical operators (including extruders)
2. Electrical motor repairers
3. Foundry core makers
4. Foundry molders
5. Heavy construction operators: crane, derrick & hoist operators
6. Plumbers & pipefitters
7. Sheet-metal workers
8. Welders & flamecutters: basic

G. Service and Related Occupations:

1. Automobile attendants: gas & parking
2. Charworkers & cleaners
3. Counter & fountain workers
4. Day nursery workers & operators
5. Delivery & route workers
6. Drivers: truck and/or tractor
7. Janitors
8. Private household workers

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarly accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban center in Region 7: Terre Haute.

REGION 7

T. C. Parks: TERRE HAUTE*

"Traditionally, the national economy booms in an election year, but this year it has deviated from the pattern. Although the economy continues to improve from the worst recession since World War II, the recovery has slowed markedly. In addition, the recent negative movement of some indicators may indicate further slowing in the near future. The economy of the Terre Haute SMSA resembles the national economy; its performance over the last six months has been lackluster, and the outlook for the near future is mixed.

"Retail trade is an important sector in Terre Haute's economy. The city is the largest retail shopping center on Interstate 70 between Indianapolis and St. Louis; therefore. Terre Haute attracts a significant number of customers who reside outside the Terre Haute SMSA. In 1972, the area's 1,633 retail establishments had sales of $428.3 million and employed nearly 18% of the labor force. A survey indicates that area retailers are optimistic, expecting an increase of approximately 9% in sales over last year. (After inflation is taken into consideration, real growth will be probably less than 3% for the year.) In addition, some of the retailers noted a freer spending attitude among consumers, which could signal heavier Christmas sales.

"The agricultural sector appears to be another bright spot. Since 80% of the land in the Terre Haute SMSA is used for agriculture and 16% of the population resides in rural areas, conditions in the agricultural sector have a significant impact on the area's economy. A combination of factors should boost farm incomes slightly and contribute to further strength in farm land values, which have risen at an annual compound rate of 21.2% since 1972. Good weather at harvest time and expanded plantings should lead to larger yields. With the exception of wheat, grain prices have been relatively strong.

"In the May-June edition of the Indiana Business Review, Robert F. Cook reported that the unemployment rate in the Terre Haute SMSA remained below Indiana's rate from April 1974 to March 1976. In March 1976, Indiana's seasonally adjusted rate was 6.2%; Terre Haute's was 5.6%. By July, Indiana's rate had fallen 5%, but Terre Haute's rate had fallen to only 5.2%. The latest data (August 1976) show Indiana with a rate of 5.2% and Terre Haute with 5.9%.

"The area's fabricated metals industry is related to capital spending by business. Since the Commerce Department reported that new orders for nondefense capital goods fell by 11.7% in August, we might expect that this sector would remain soft for the first half of 1977.

---

*Parks, T. C. Terre Haute. Indiana Business Review, Nov.-Dec. 1976, 51, 19-20.

"Construction activity has picked up in the area since midsummer. However, local building trades unions still report high levels of unemployment among their members, and some unions are sending craftsmen to jobs outside the area. Vigo County authorities report an upsurge in new building permits in the late summer months. In addition, several commercial enterprises have expansion plans for the coming year. The Chamber of Commerce reports that businesses currently have plans to spend $10 million during the next year for expansion projects. The Terre Haute area is still hopeful that the RDX plant in Vermillion County will be revitalized; government authorities will announce their decision on the plant early in 1977."

POPULATION CHARACTERISTICS

The population of Region 8 exceeds one million people and is the highest of the fourteen Economic Regions of the State. Population in selected counties is growing at a very rapid rate, with Hamilton increasing almost 20% in the four year period 1970-1974. Almost 70% of the Region's population is in Indianapolis, with an additional 10% residing in the cities of Shelbyville, Greenwood, Franklin, Greenfield, Lebanon, Martinsville, Plainfield, and Noblesville.

Indianapolis, the State Capitol, is the eleventh largest city in the Nation and the largest State Capitol in the Nation.

REGION 8, COMMUTING PATTERNS

About one out of six employees in Region 8 commutes outside the home county to work. More than half the employees in Hamilton, Hancock, Hendricks, Johnson, and Morgan Counties commute outside the home county to work. Less than 4% of the employees from Marion County are commuters. The Map below shows commuting patterns for Region 8.

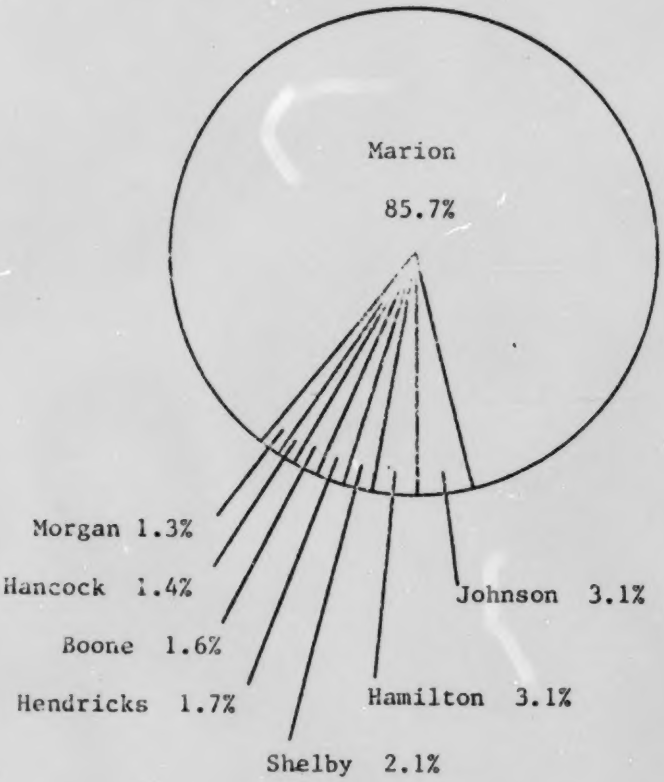
Total	338,992	74,251	17.0%

EMPLOYMENT DISTRIBUTION

Employment in Region 8 is centered in Marion County. In Region 8, nearly 86% of the employees work in Marion County. Covered employment totaled over 375,200 in 1975, and 376,500 in the first quarter of 1976. See the Diagram below.

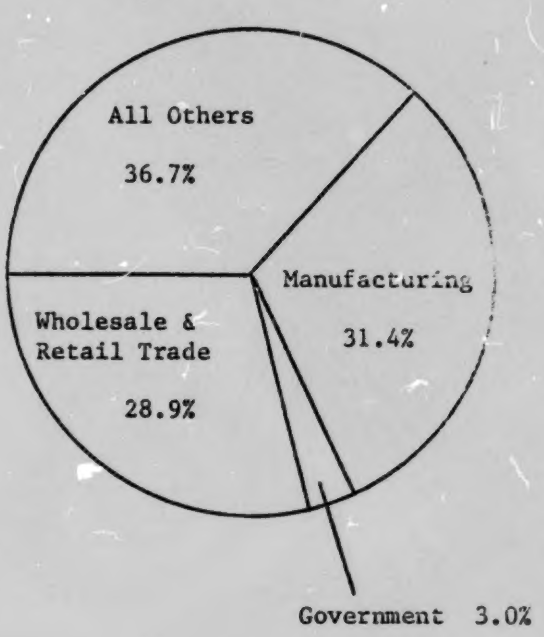
COVERED EMPLOYMENT* BY COUNTIES



*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State governement hospitals, schools of higher education, and local government utilities are covered.

In Region 8, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 8.

REGION 8: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	18,997	375,210
AGRICULTURE, FORESTRY, & FISHING	200	940
MINING	46	820
CONSTRUCTION	2,295	16,960
Building construction	646	4,020
Construction, except building (general contractors)	173	2,630
Special trade contractors	1,476	10,310
MANUFACTURING	1,433	118,030
Food & kindred products	89	7,940
Apparel & fabric products	29	1,110
Lumber & wood products	61	1,280
Furniture & fixtures	32	810
Paper & allied products	43	3,280
Printing & publishing	264	8,700
Chemicals & allied products	50	10,490
Rubber & plastics products	48	3,470
Stone, clay, glass, & concrete products	65	2,480
Primary metals	31	3,230
Fabricated metals	189	8,990
Nonelectrical machinery	334	16,650
Electrical machinery	49	17,320
Transportation equipment	49	28,730
Controlling instruments, photographic & optical goods, watches & clocks	36	1,580
All other manufacturing	64	1,970
TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS & SANITARY SERVICES	647	23,500
Local & suburban passenger transportation	30	740
Motor freight transportation	372	9,840
Air transportation	39	950
Communications	70	7,060
Electric, gas, & sanitary services	80	4,540
All other transportation	56	370

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
WHOLESALE & RETAIL TRADE	7,004	108,330
Wholesale trade (durable goods)	1,432	19,270
Wholesale trade (nondurable goods)	659	9,690
Building materials, hardware, garden supply, & mobile home dealers	291	3,040
General merchandise stores	136	16,000
Food stores	413	10,880
Automotive dealers & gasoline service stations	1,049	10,060
Apparel & accessory stores	360	3,670
Furniture, home furnishings, & equipment stores	370	2,410
Eating & drinking establishments	1,246	22,440
Miscellaneous retail	1,048	10,870
FINANCE, INSURANCE, & REAL ESTATE	1,968	32,150
Banking	48	7,610
Credit agencies (except banks)	221	2,460
Security & commodity brokers, dealers, exchanges & services	43	550
Insurance	268	13,370
Insurance agents, brokers, & services	430	2,160
Real estate	874	5,530
Combinations of real estate, insurance, loans, law offices	36	150
Holding & other investment companies	48	320
SERVICES	5,368	63,270
Hotels, rooming houses, camps, & other lodging places	130	4,420
Personal services	734	5,610
Business services	738	9,740
Automobile repair, services & garages	449	2,900
Miscellaneous repair services	218	1,250
Motion pictures	76	870
Amusement & recreation services (except motion pictures)	237	2,650
Health services	1,380	20,450
Legal services	388	1,540
Educational services	60	2,600
Social services	118	3,100
Membership organizations	461	4,660
All other services	379	3,480
GOVERNMENT	36	11,210
State government	6	8,400
Local government	30	2,810

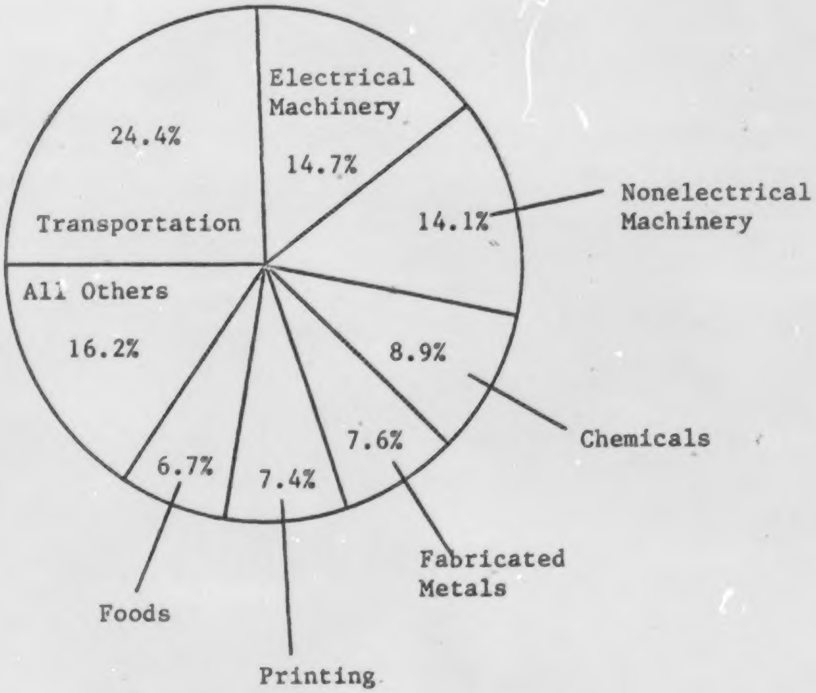
For Region 8, as well as for the State, Indianapolis is the hub of manufacturing, commerce, and government. Its importance is growing as a trade and distribution center and it plays a major role in the emerging financial, insurance and real estate activities. Transportation, communications, utilities and an active construction industry add to the diversity of the economy.

MANUFACTURING EMPLOYMENT

More than 118,000 workers in Region 8 are employed in one of over 1,430 manufacturing establishments. Nearly a third of all covered employment in Region 8 is in manufacturing. Transportation equipment industry is the largest industry group in manufacturing. Over 53% of the Region 8 manufacturing work force can be found in transportation equipment, electrical machinery, or in nonelectrical machinery industries. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 8 are listed in order by numbers employed; see the Table below.

REGION 8 - OCCUPATIONS OF NUMERICAL SIGNIFICANCE, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	11,120
Managers & officers	7,760
Supervisors, nonworking, except service	4,300
Inspectors	3,380
Production Packagers	2,810
Lathe and/or turning machine operators	2,700
Grinding and/or abrading machine operators	2,420
Punch press operators, metal	2,330
General clerks	2,300
Welders & flamecutters	2,290
Drill press and/or boring machine operators	2,250
Janitors, porters, and cleaners	2,220
Secretaries	2,050
Salespersons	1,910
Industrial truck operator	1,640
Machinists	1,540
Mechanical engineers	1,540
Testers	1,500
Tool & die makers, metal	1,370
Machine tool operators, combination	1,240

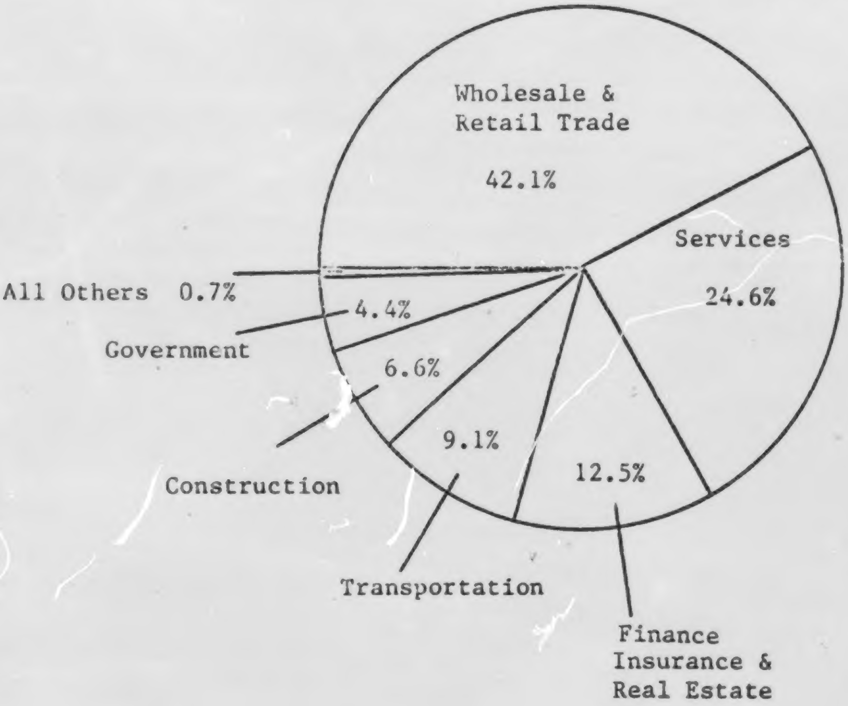
NONMANUFACTURING EMPLOYMENT

In Region 8, nearly seven out of ten employees is in nonmanufacturing employment. Nearly 257,200 workers are employed in over 17,560 nonmanufacturing establishments in the Region. Over 85% of the nonmanufacturing employment in Region 8 is in Marion County.

Wholesale and retail trade represents 42% of the nonmanufacturing employment in the Region. One out of four employees in the nonmanufacturing sector is in the services sector. Nearly eight out of ten employees in nonmanufacturing can be found in wholesale and retail trade, in services, or in finance, insurance, or real estate sectors. Over half of the total covered employment in the Region can be found in the three sectors. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



301

In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail trade establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 8: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	12,970
Managers & officers	11,160
Sales persons	10,740
Cashiers	5,490
Waiters/Waitresses	5,250
General clerks	3,800
Food preparation & service workers	3,640
Mechanics, automotive	3,570
Stock clerks, sales floor	3,380
Delivery & route workers	3,110
Automobile service-station attendants	2,650
Stock clerks, stockroom & warehouse	2,610
Bookkeepers, hand	2,460
Cooks, short order	2,140
Truck drivers	2,090
Janitors, porters, & cleaners	1,970
Kitchen helpers	1,440
Counter workers, lunchroom	1,360
Butchers/Meat cutters	1,250
Shipping/Receiving clerks	1,220
Cooks, restaurant	1,080
Secretaries	1,080
Bus boys/girls	1,050
Shipping packers	760
Bartenders	730

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 8. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 8. At the end of the Region 8 section can be found detailed supply information at the secondary and post-secondary levels.

Region VIII

	Program Enrollments				Registered	
	Adult		Apprentice		Apprentice

Welders					2	
Welding/Cutting	118	5	87			
Business machine repairs					13	

OCCUPATIONAL DEMAND

In Region 8, it is anticipated that nearly three dozen occupations will be in short supply during 1977-1978. These occupations are listed by occupational group in the Table below.

REGION 8: OCCUPATIONS IN SHORT SUPPLY 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Dental hygienists
2. Medical & medical laboratory technicians
3. Nurses aides
4. Practical nurses
5. Professional nurses

B. Technicians and Related Occupations:

1. Automotive technicians
2. Electronic technicians
3. Mechanical technicians

C. Management:

1. Administrative managers
2. Manager trainees

D. Office Occupations:

1. Clerk typists
2. Computer operators
3. Receptionists & telephone operators
4. Secretaries
5. Stenographers
6. Typists

E. Crafts and Related Occupations:

1. Air conditioning & heating installers & repairers
2. Automotive vehicle mechanics (motor)
3. Beauty operators (cosmetologists)
4. Carpenters
5. Cooks & chefs
6. Diesel mechanics
7. Electricians (including electronics)
8. General industrial maintenance workers
9. Machine tool setters (set-up)
10. Machinists
11. Millwright
12. Plumbers & pipefitters
13. Sheet-metal workers
14. Tool & die makers
15. Welders & flamecutters: certified

F. Service and Related Occupations:

1. Drivers: truck and/or tractor

During 1977-1978, other occupations are expected to be in constant demand in Region 8. These occupations are listed by occupational group in the Table below.

REGION 8: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Child care technicians

B. Technicians and Related Occupations:

1. Drafters

C. Salesworkers:

1. Food service (restaurants, etc.)
2. Insurance

D. Office Occupations:

1. Accounting clerks
2. Bookkeepers
3. Cashiers
4. General office clerks
5. Shipping & receiving clerks

E. Crafts and Related Occupations:

1. Appliance repairers
2. Automotive vehicle repairers: body & fender
3. Cabinet makers
4. Heavy construction operators: excavating, grading, & road machinery operators
5. Industrial machinery repairers
6. Machine tool operators
7. Painters & decorators
8. Roofers
9. Welders & flamecutters: basic

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 8: Franklin, Indianapolis (Marion County), Lebanon, and Shelbyville.

OCCUPATION	CODES	SUPPLY																						DEMAND			
		SECONDARY						POST-SECONDARY PUBLIC						POST-SECONDARY PRIVATE													
		ENROLLEES			COMPLETERS			ENROLLEES			COMPLETERS			ENROLLEES			COMPLETERS							FRANKLIN	MARION COUNTY	LEBANON	SHELBY -VILLE

REGION 8: OCCUPATIONAL STUDIES

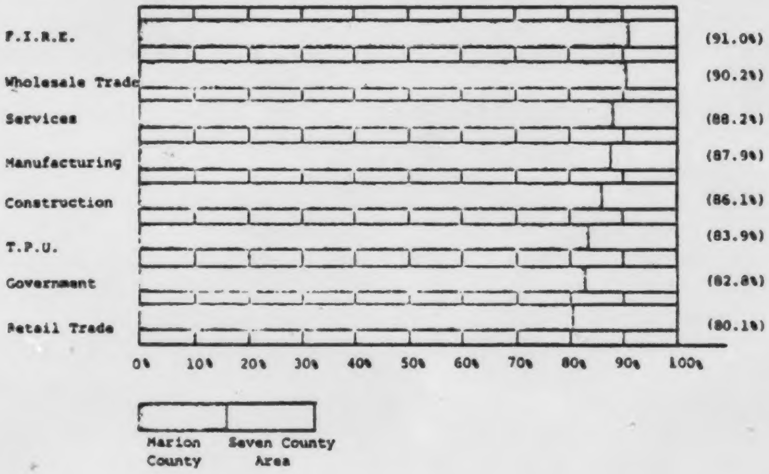
A. INDIANA HEARTLAND COORDINATING COMMISSION*

A ten year (1964 to 1974) study of Region 8 was reported by the Indiana Heartland Coordinating Commission. Major trends in the economy and employment were identified in the study. The employment composition, (sectors) of manufacturing and non-manufacturing in Region 8 was found to more closely resemble that of the United States as a whole rather than that of the remainder of the State. Employment in manufacturing represented 36% of the total State employment but 28% of the total employment in Region 8.

Employment was found to be more diversified and less specialized in Region 8 when compared with the State as a whole. Between 1964 and 1974, a generally lower unemployment rate was found in Region 8 than in the State. Region 8 is service-oriented with less dependence on the cyclical demands of manufacturing; e.g., in 1974, eight out of twelve of the largest employment categories in Region 8 were in non-manufacturing.

Nine out of ten jobs in Region 8 manufacturing are located in Marion County. Typically manufacturing employment in the Region involves assembly-type operations to produce finished products. See the Figure below.

Percent of Regional Employment in Marion Co. & In the Combined 7-Co. Area By Employment Sector, 1974



---

*Drexler, J. An Analysis of Employment Trends in the Heartland Region, 1964-1974. Indianapolis: Indiana Heartland Coordination Commission, Aug. 1976.

Eighty-eight percent of the services employment in Region 8 can be found in Marion County. The major types of services are medical and other health services and miscellaneous business services.

There is a concentration of insurance carriers, banking, and real estate in Region 8, with nine out of ten of the jobs located in Marion County.

Marion County has 84% of Region 8 employment in trucking and public utilities, including communications.

Nine out of ten wholesale trade jobs in Region 8 can be found in Marion County. Two major types are miscellaneous wholesalers and machinery, equipment and supplies.

In Region 8, Marion County has 83% of the government jobs, and 86% of the contract construction.

Between 1964 and 1974, Region 8 employment in manufacturing grew at a slower rate than did employment in non-manufacturing sectors. While manufacturing employment showed a 12% increase during the period, employment in services areas grew 82%, and construction employment grew 62%. Although manufacturing employed the largest numbers between 1964 and 1974, the employment composition in Region 8 shifted to service-oriented activities, including government, retail and wholesale trade and services. Accompanying this shift was an expansion in service-oriented employment activities. About half the growth in retail trade employment was due to increases in eating and drinking establishments. In services, over half the employment growth was due to increases in medical and other health services, and in miscellaneous business services.

Between 1964 and 1974, both population and employment increased in each of the counties in Region 8. Marion County, however, had the lowest rate of increase in population and employment. In Region 8, there was employment dispersion beyond Marion County and into other Region 8 counties. The highest rate of dispersion occurred in transportation, public utilities, and wholesale and retail employment.

In Region 8, Hamilton County had the greatest growth rate in employment and population between 1964 and 1974. During the period, population increased 51% while employment increased 103%. The precent of employed residents who worked outside Hamilton County decreased significantly during the period. Employment in manufacturing dropped from 38% of the total employment in the County in 1974, to 28% in 1974. In the same period, increases in proportions of total employment were found for transportation and public utilities, services, and construction.

Johnson County ranked second among the eight counties in Region 8, both in population and in employment growth. Johnson County employment increased 86% between 1964 and 1974, while population in the County increased 39%. Employment grew more rapidly than population with an increase in jobs per 100 persons from 15.6 in 1964, to 20.9 in 1974. A significant decrease was found during the period, in the percent of employed residents who work outside the County.

Between 1964 and 1974, the total employment composition shifted in Johnson County with declines in manufacturing and government proportions. In 1964, one person in three was employed in manufacturing while one person in five was employed in manufacturing in 1974. An increase in proportion of total employment in Johnson County was found for retail trade which changed from 20.6% in 1964, to 28.3% in 1974.

In Hendricks County, employment increased 75.6% between 1964 and 1974, while population increased 30%. The employment composition made little change, however, in the ten year period.

In Morgan County, employment increased 46% between 1964 and 1974, and population increased 24%. Manufacturing employment declined from 23.4% in 1964 to 16.5% of the total employment in Morgan County in 1974. Construction employment increased 100% during the period, while a 122.4% increase was found for finance, insurance, and real estate employment.

Nearly equal rates of increase were found for employment and population changes during the ten year period in Hancock County. Employment increased by 43.4% while population increased by 34.8%. Little change was found in the employment composition during the period. The rate of change in retail trade was the lowest in the ten year period, in Hancock County when compared with the remainder of Region 8. A large proportion of employed residents must continue to work outside the county.

Boone County employment increased 40.7% between 1964 and 1974, while population increased only 12.7%. During the period, manufacturing employment decreased from 25% of the total employment, in 1964, to 18.5% in 1974. An increase of 210% was found for employment in finance, insurance and real estate in Boone County.

Shelby County showed an increase of 37.4% in employment and an increase of 11.1% in population between 1964 and 1974. The increase in the number of jobs per 100 persons resulted in a decrease in proportions of employed residents working outside the county. Little change in the employment composition was found during the period.

IMPLICATIONS FROM THE HEARTLAND STUDY

These recent employment trends indicate that growth of Regional employment may slow considerably in the future. This may result primarily from a decline in the birth rate of the population and the slow growth of manufacturing employment. In recent years the birth rate of the population has declined. Discounting an increase in outmigration, this decline may ultimately result in fewer entrants into the labor force, thus, reducing growth in total employment. A decline in employment growth may have no adverse impact on the Region 8 provided it is followed by a similar decline in population growth. If population and labor force growth exceed the number of available jobs, Region 8 could experience long-term unemployment and eventual outmigration, especially if jobs are readily available in other areas. The impact of this occurrence would be felt mostly by the unemployed, persons entering the labor force, and unskilled laborers. The lack of adequate employment opportunities would severely restrict social mobility within the existing income structures and opportunities for upward mobility would be limited.

The trend toward a service-oriented economy may also have implications on future land use patterns. The higher employment growth in the services, government, retail trade, and finance, insurance, and real estate sectors indicates that the present pattern of commercial strip development along major access roads may continue, if proper land use control mechanisms are not implemented.

Employment opportunities for low-income persons and minorities in the inner city of Indianapolis could be affected by the trend of dispersion of employment. As new employment establishments disperse in Region 8, lack of adequate transportation may limit employment opportunities for residents in the inner city. While the trend of employment dispersion implies that a higher percent of employed persons will work in the county of their residence, the dispersion of employment also indicates that employment growth in the seven counties surrounding Marion County may not provide a sufficient number of jobs to sustain the population. Consequently, the dispersion of employment may not keep pace with the suburbanization of the population. The fringe areas surrounding Marion County in the seven-county area are likely to become "bedroom" communities with heavy dependence on employment located in Marion County. This would increase both private and public transportation costs.

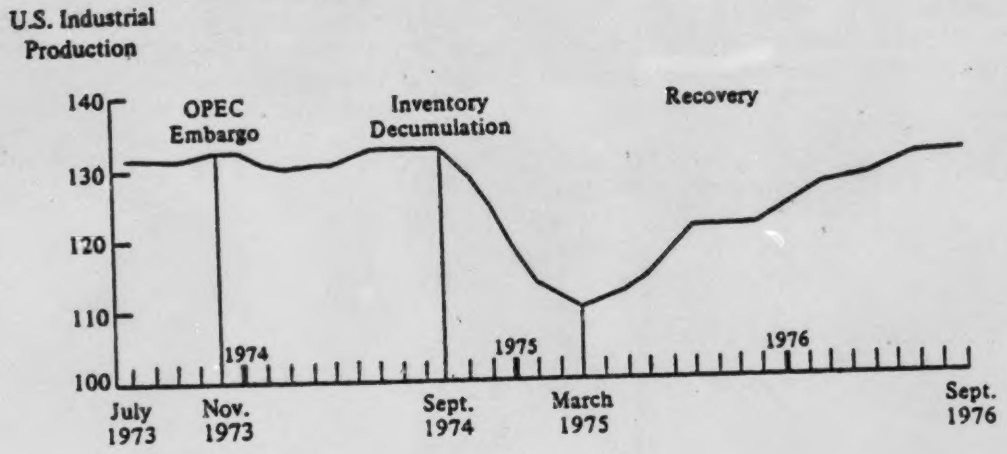
B. R. J. Kirk: INDIANAPOLIS*

"A review of employment in Indianapolis since November 1973 reveals ups and downs of reflecting state and national trends" (see Figure and Table below). "During the recession brought on by the OPEC reduction in oil supplies, Indianapolis employment continued to increase more than in the state and nation. The contraction resulting from the 1974-75 demand-induced recession was more severe in Indianapolis than in the United States, both less severe than in Indiana. The city's recovery has not been strong. Both Indianapolis and Indiana are employing fewer in September 1976 than in November 1973; the nation is employing slightly more. Although manufacturing employment contracted as much in Indianapolis as in the United States, U. S. manufacturing employment has recovered more strongly.

---

*Kirk, R. J. Indianapolis. Indiana Business Review Nov.-Dec. 1976, 51, 15-17

National Trends in Industrial Production



"Even so, the Indianapolis unemployment rate during 1976 has been significantly below the U. S. rate. But an examination of labor force data by household indicates that during the recovery phase (March 1975-September 1976), the U. S. work force increased 3.9% while the Indianapolis work force decreased 1.4%. If the Indianapolis work force had increased at the U. S. rate, the Indianapolis unemployment rate would be much higher.

Nonagricultural Employment
(November 1973 = 100)

	Peak, Sept. 1974	Trough, March 1975	Sept. 1976
Indianapolis	102.2	95.4	97.2
Indiana	100.9	92.1	97.5
United States	100.6	96.2	101.4

"One explanation for the decrease in the Indianapolis work force is that net outmigration has occurred; between 1970 and 1975, 15,000 persons left the Indianapolis metropolitan area. It is doubtful that this trend changed course in 1976. Another possible explanation is that some unemployed persons have become discouraged and are not now seeking work.

"Indianapolis competes with three other metropolitan areas-Cincinnati, Columbus and Louisville. Of the four, Cincinnati enjoys the strongest relative position; in this area, manufacturing has contracted least, and the strongest recovery has been made in total nonagricultural employment" (see Table below). "The contraction in manufacturing was more severe in Indianapolis than in Cincinnati, but even more severe in Columbus and Louisville. The recovery in manufacturing in Indianapolis has been similar to the recovery in Cincinnati and Columbus; nevertheless, of the four areas, the recovery in total nonagricultural employment has been slowest in Indianapolis. It appears that the nonmanufacturing sector is a source of weakness. Components of the sector that have contracted during the recovery are construction, finance, insurance and real estate, and services.

Employment in Four Cities
(November 1973 = 100)

	Peak, Sept.	Trough, March	Sept.
Total nonagricultural			
Indianapolis	102.2	94.5	97.2
Cincinnati	101.5	96.0	100.8
Columbus	99.9	95.2	98.0
Louisville	101.5	94.2	97.3
Manufacturing			
Indianapolis	99.8	88.3	91.4
Cincinnati	99.8	89.8	93.1
Columbus	99.3	85.1	88.4
Louisville	102.8	89.7	92.2

"Other measures of economic activity are summarized in the Indianapolis Business Activity Index, prepared by Indiana National Bank. The index reached 228.7 in September-the highest level achieved this year. The industrial component showed the most strength in the chemical and transportation equipment sectors. Electric energy sales in the third quarter of 1976 in Marion County showed a modest increase in industrial sales and a stronger increase in commercial sales compared to the same period a year ago.

"The report on construction in Marion County shows essentially no change in the number of single-family housing starts but an increase in multifamily starts in the third quarter of 1976 compared to the the third quarter of 1975. New construction (apartments; commercial, industrial, office, and public buildings; and warehouses) for the third quarter of 1976 was $37 million as compared with $51 million completed. Therefore, for every dollar on new construction roughly $1.50 in construction was completed. The value of new construction for the third quarter was 28% above the second quarter, but for the January-September 1976 period was 52% below the same period in 1975. In September, construction employment was about 15% below the level of last year. The city is submitting seven projects to the federal government for funding under the Public Works Act of 1976. This act is designed to stimulate employment in the construction industry; the projects range from a new central firehouse to renovation of Bush Stadium.

"Since July, total loan demand for Indianapolis has increased somewhat. The primary contributors to the improvement have been the consumer and real estate loan categories. Department store sales during the first six months of 1976 were 12% higher than during the same period last year. A representative of the industry has reported a continuation of this trend in Central Indiana.

"In industrial park news Phillips-Van Huesen (the shirt manufacturer) has moved the national headquarters of two of its divisions to Park 100 in northwestern Indianapolis, and occupied 102,000 square feet of warehouse space. This move is evidence of the appeal of Indianapolis as a distribution center. Eli Lilly will complete soon the first phase of a ten year, $150 million expansion program. Since this phase replaces existing production facilities, no net increase in employment is expected.

"The skyline of downtown Indianapolis is being altered by the Merchants Plaza Project which includes a 527 room hotel scheduled for opening on April 1. The hotel is enjoying a strong presale of rooms for conventions. In addition to the hotel, Merchants National Bank will occupy 225,000 square feet of office space; nearly half of the 375,000 square feet available for office space is committed; and 85,000 square feet is being leased for retailing.

"What about the future? As for construction, no new large projects are on the horizon. With declining vacancy rates in multifamily units, there is the possibility of upward pressure on rents and higher rates of return; an increase in multifamily housing starts is a possibility next summer. Conversations with a cross-section of major employers indicate that a few may have modest increases in employment based on expected sales increased, and economic activity may quicken at some locations in the metropolitan area which have been made more accessible by the opening of the inner belt."

TOTAL	73,600	78,700	152,300	2.1

POPULATION CHARACTERISTICS

The population of Region 9 ranks twelfth in size among the fourteen Economic Region of the State. Wayne County accounts for more than half of the population of the Region. A little less than half of the Region's population is found in three cities: Richmond, Connersville and Rushville. Richmond is the twelfth largest city in the State.

REGION 9, COMMUTING PATTERNS

About one out of six employees in Region 9 commutes outside the home county to work. High rates of commuting are found for workers in the following counties: (a) Union, 53.5%, (b) Franklin, 44.5%, and (c) Rush, 29%. More than eight out of ten employees in Region 9 work within the home county. The Map below shows commuting patterns for Region 9.

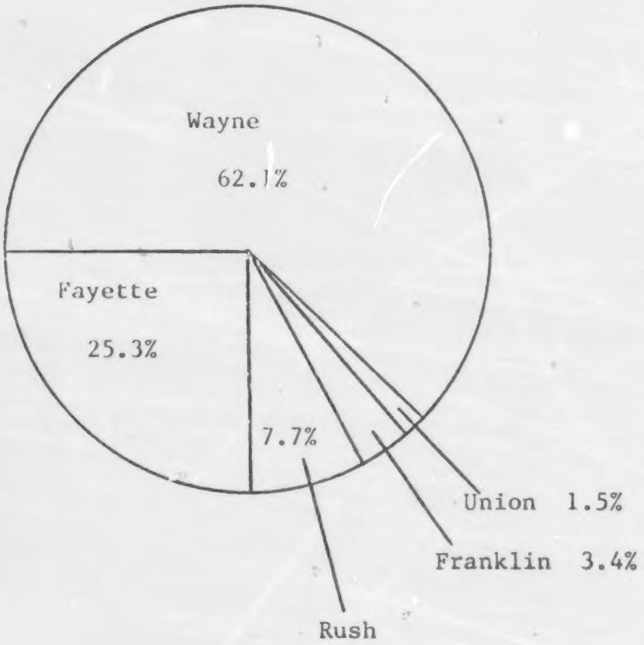
Wayne	26,965	2,054	6.7%
Total:	43,765	9,031	17.1%

EMPLOYMENT DISTRIBUTION

Employment in Region 9 is centered in Wayne County where six out of ten employees in the Region can be found. Wayne and Fayette Counties account for 87.4% of the total employment force in Region 9. Covered employment totaled over 39,300 in 1975, with little or no change in the first quarter of 1976. See the Diagram below.

COVERED EMPLOYMENT* BY COUNTIES

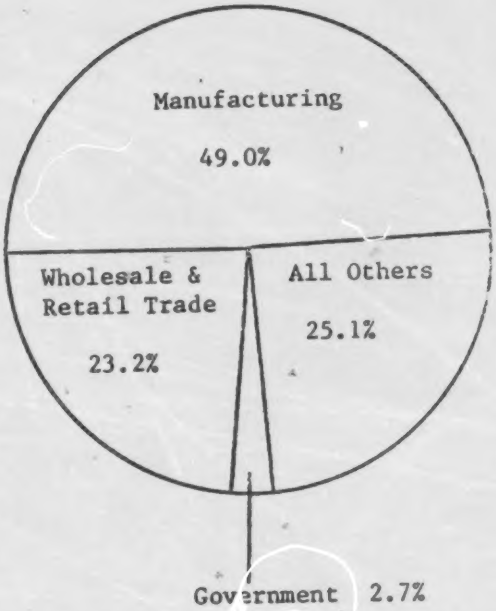


---

*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 9, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 9.

REGION 9: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	2,370	39,310
AGRICULTURE, FORESTRY, & FISHING	25	160
MINING	10	80
CONSTRUCTION	253	1,300
Building construction	85	420
Construction, except building (general contractors)	27	290
Special trade contractors	141	590
MANUFACTURING	195	19,240
Food & kindred products	14	430
Lumber & wood products	10	560
Furniture & fixtures	7	580
Paper & allied products	8	290
Printing & publishing	20	410
Chemicals & allied products	8	170
Rubber & plastics products	6	440
Stone, clay, glass, & concrete products	11	260
Primary metals	7	2,120
Fabricated metals	24	2,400
Nonelectrical machinery	41	4,330
Electrical machinery	5	5,020
Transportation equipment	8	1,100
All other manufacturing	26	1,130
TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS & SANITARY SERVICES	79	1,270
Motor freight transportation	44	340
Communications	10	580
Electric, gas, & sanitary services	16	280
All other transportation	9	70

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
WHOLESALE & RETAIL TRADE	1,004	9,120
Wholesale trade (durable goods)	79	650
Wholesale trade (nondurable goods)	96	860
Building materials, hardware, garden supply, & mobile home dealers	48	300
General merchandise stores	42	1,380
Food stores	95	1,130
Automobile dealers & gasoline service stations	190	1,200

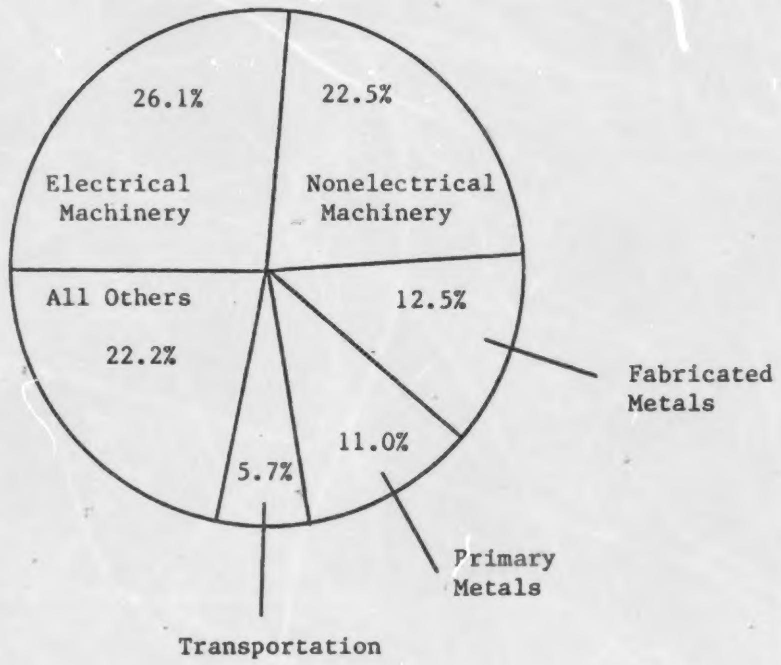
Hotels, rooming houses, camps, & other lodging places	25	280
Personal services	99	370
Business services	50	440
Automobile repair, services, & garages	53	170
Amusement & recreation services (except motion pictures)	30	250
Health services	149	2,240
Legal services	46	110
Social services	13	280
Membership organizations	72	420
All other services	60	740
GOVERNMENT	14	1,070
State government	3	710
Local government	11	360

MANUFACTURING EMPLOYMENT

In Region 9, 49% of all covered employment is in manufacturing. The Region is one of the major areas of electrical machinery production in the State. Over 19,200 workers in the Region are employed in one of about 200 manufacturing establishments. More than half of the manufacturing employment can be found in Wayne County. In the Region, more than six out of ten manufacturing employees can be found in the following sectors: electrical machinery, nonelectrical machinery or fabricated metals industries. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 9 are listed in order by numbers employed; see the Table below.

REGION 9: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	5,270
Inspectors	1,100
Managers & officers	1,090
Supervisors, nonworking, except service	560
Production packagers	470
Industrial truck operators	450
Punch press operators, metal	400
Lathe and/or turning machine operators	380
Welders & flamecutters	330
Janitors, porters, & cleaners	300
Drill press and/or boring machine operators	270
Salespersons	270
Tool & die makers, metal	250
Drafters	240
Grinding and/or abrading machine operators	230
Mechanics, maintenance	230
Painters, production	230
Order fillers	200
Secretaries	190
General clerks	170

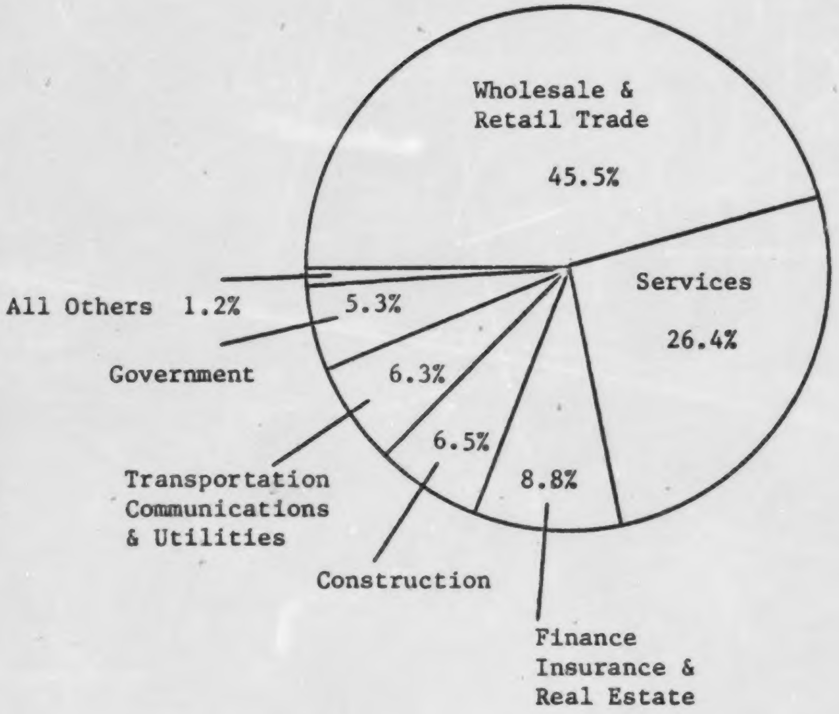
NONMANUFACTURING EMPLOYMENT

In Region 9, over half of all covered employment is in nonmanufacturing. Nearly 20,100 workers are employed in almost 2,180 establishments. Wayne County has nearly seven out of ten employees in the Region nonmanufacturing sector.

Wholesale and retail trade represents 46% of the nonmanufacturing employment in Region 9. One out of four nonmanufacturing employees is in the services sector. Of all the nonmanufacturing employment, eight out of ten workers are in wholesale and retail trade, services, or in finance, insurance, and real estate sectors. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



349

In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 9: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	1,080
Managers & officers	920
Sales persons	890
Cashiers	460
Waiters/Waitresses	440
General clerks	320
Food preparation & service workers	300
Mechanics, automotive	300
Stock clerks, stockroom & warehouse	300
Bookkeepers, hand	280
Stock clerks, sales floor	280
Delivery & route workers	260
Truck drivers	240
Janitors, porters, & cleaners	230
Automobile service-station attendants	220
Cooks, short order	180
Counter workers, lunchroom	160
Baggers	140
Butchers/Meat cutters	140
Shipping/Receiving clerks	140
Bus boys/girls	120
Cooks, restaurant	120
Kitchen helpers	120
Secretaries	120
Bartenders	85

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 9. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 9. At the end of the Region 9 section can be found detailed supply information at the secondary and post-secondary levels.

Region IX

Occupation	Program Enrollments Adult M	 F	 Apprentice M	 F	Registered Apprentice M	 F
Accounting/Computing occupation	9	9				
Agriculture mechanics	9					
Agriculture power/ machine	9					
Agriculture production	146	37				
Blueprint reading	8					
Body/Fender	28					
Electrical occupation	11					
Electrical repairer	11					
Electrician					1	
Electronic occupation	7					
Heat & refrigeration					1	
Hydraulics			7			
Industrial electrician			61	4		
Industrial electronics			18			
Iron worker					1	
Machine repair					1	
Machine shop	12					
Maintenance mechanic millwright					1	
Manufacturing processes	6	1				
Metallurgy			17			
Millwork/Cabinet	15					
Nurses aide		13				
Other agriculture	20					
Plumbing			29		5	
Refrigeration	7		16			
Repairer & winder (roll grinder)					1	
Sheet metal			7			
Small engine repair	22					
Stationary engineer					1	
Structural steel	20					
Tool/Die maker			36		8	

OCCUPATIONAL DEMAND

In Region 9, it is anticipated that at least a dozen and a half occupations will be in short supply during 1977-1978. These occupations are listed below.

REGION 9: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

Automotive vehicle repairers: body & fender mechanics (motor) combination
Diesel mechanics
Drafters
Industrial machinery repairers
Insurance salesworkers
Machine tool setters (set-up)
Machinists
Tool & die makers
Millwrights
Plumbers & pipefitters
Practical nurses
Private household workers
Professional Nurses (registered)
Secretaries
Stenographers
Typists
Waiters/Waitresses

REGION 9: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

A. Health Related Occupations:

1. Medical & medical laboratory technicians

B. Technicians and Related Occupations:

1. Automotive technicians
2. Electrical technicians
3. Engineering technicians
4. Industrial technicians
5. Mechanical technicians

C. Management:

1. Administrative managers
2. Manager trainees

D. Salesworkers by Industry:

1. Apparel & accessories
2. Food services (restaurants, etc.)
3. General merchandise (department stores)

E. Office Occupations:

1. Accountants
2. Accounting clerks
3. Bookkeepers
4. Cashiers
5. Clerk typists
6. General office clerks
7. Shipping & receiving clerks
8. Stock & inventory clerks

F. Crafts and Related Occupations:

1. Agricultural implement mechanics
2. Air conditioning & heating installers & repairers
3. Appliance repairers
4. Carpenters
5. Cooks, chefs
6. Die setters
7. Electricians (including electronics)
8. General industrial maintenance
9. Machine tool operators
10. Roofers
11. TV & radio repairers
12. Welders & flamecutters: Basic
    Certified

G. Service and Related Occupations:

1. Delivery & route workers
2. Janitors

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 9: Connersville and Richmond.

REGION 9

W. C. Pavord: RICHMOND*

"The Richmond area economy continues a gradual recovery from the recent recession. Potential for further expansion of business activity exists, and businessmen are cautiously optimistic that the growth will continue through the first part of next year.

"The most encouraging sign is that unemployment has dropped to 5.6% in September 1976, from 12.6% a year ago, as 1,900 workers have been added to payrolls. This increase includes some new hiring after all laid-off personnel had been called back. Other positive factors indicating a broad-based recovery are increases in deposits in financial institutions, higher electricity usage, and steady monthly increases in retail sales. For nine months of 1976, the level of month-end bank deposits was up 8.5% over 1975. Similarly, month-end savings and loan deposits are up 9.2%. Kilowatt hours of electricity consumed rose a modest 3.0% over the nine-month period in 1975. No data is available for retail sales; however, retailers in five shopping centers report moderately higher sales volumes each month. Construction remains a soft spot in the economic recovery. Nine-month dollar value of permits issued for construction is 4.1% below the 1975 level.

"Future economic activity will be strengthened by a major new industrial plant to be established in Richmond. American Motors will eventually employ over 1,000 workers manufacturing four-cylinder metric engines. Full operation will begin in January 1979. Additional strength for future economic activity will come from major expansions of firms presently located in the Richmond area. Nearly 300 workers will eventually be added to payrolls by expansion at Johns-Manville, Perfect Circle Division of the Dana Corporation, Hoffco/Comet, and Champion Target Company, a division of Federal Cartridge Corporation.

"New companies may be attracted to the area by the availability of presently unused plant facilities. About 700,00 square feet of floor space is available in a variety of locations.

"In summary, economic activity in the Richmond area is slowly improving, and there is little evidence to suggest that this recovery will falter. Indeed, all expected events will have a positive effect upon economic activity."

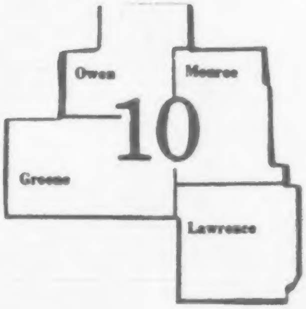
TOTAL	83,800	88,200	172,000	6.2



POPULATION CHARACTERISTICS

The population of Region 10 ranks eleventh among the fourteen Economic Regions of the State. Monroe County has more than half of the population of the Region. Indiana University, the largest university in the State, is an important factor in the population of Monroe County. About two-thirds of the people of Region 10 live in two cities: Bloomington and Bedford.

REGION 10, COMMUTING PATTERNS

About one out of every five employees in Region 10 commutes outside the home county to work. More than a third of all commuters in the Region travel from Lawrence, Owen, and Green Counties to work in Monroe County. About one in ten of the commuters works in the vicinity of Indianapolis. The Map below shows commuting patterns for Region 10.

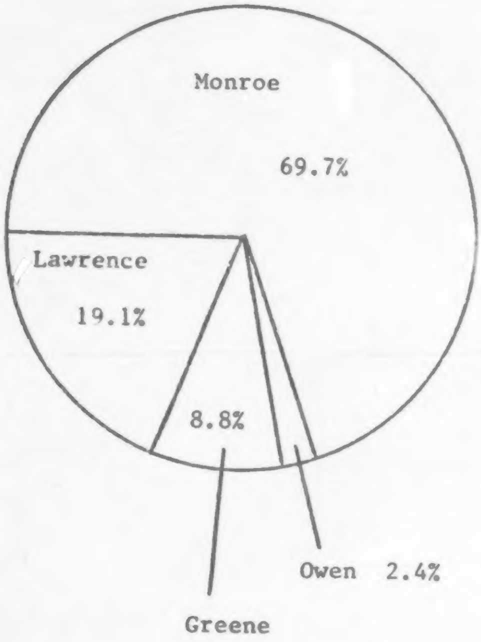
Owen	1,978	2,121	50.6%
Total:	49,111	11,069	22.5%

EMPLOYMENT DISTRIBUTION

Employment in Region 10 is centered in Monroe County, which has nearly seven out of ten employees from the Region. Nearly nine out of ten employees in the Region can be found in Monroe and Lawrence Counties. Covered employment totaled over 40,300 in 1975, and 41,500 in the first quarter of 1976. See the Diagram below.

COVERED EMPLOYMENT* BY COUNTIES

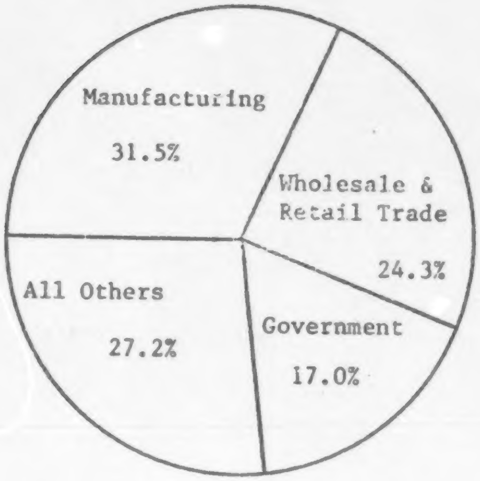


---

*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 10, covered employment is predominatly in manufacturing, trade, and government. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 10.

REGION 10: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	2,587	40,340
AGRICULTURE, FORESTRY, & FISHING	24	170
MINING	25	660
CONSTRUCTION	273	1,440
Building construction	110	520
Construction, except building (general contractors)	27	310

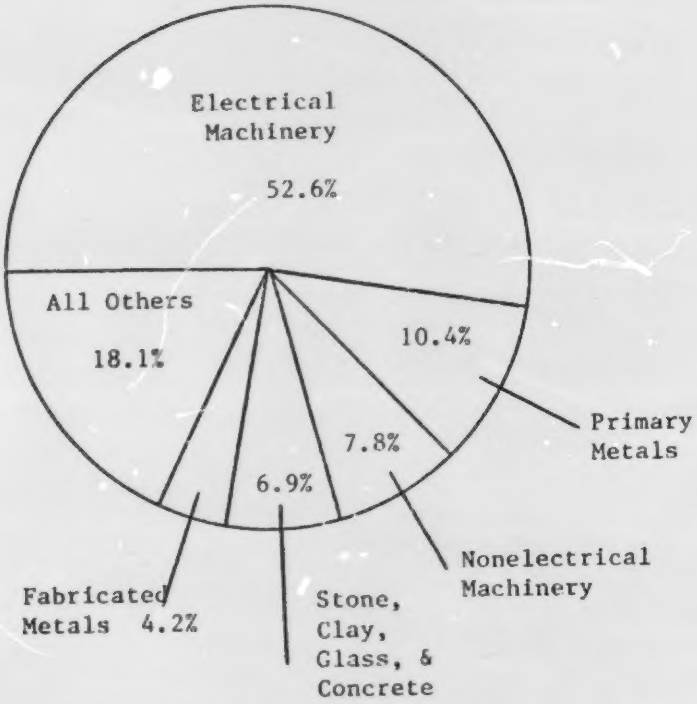
Business services	58	330
Automobile repair, services, & garages	54	170
Miscellaneous repair services	25	80
Motion pictures	14	180
Amusement & recreation services (except motion pictures)	29	130
Health services	204	2,640
Legal services	48	130
Educational services	6	70
Social services	11	170
Membership organizations	59	250
All other services	48	160
GOVERNMENT	13	6,860
State government	1	6,580
Local government	12	280

MANUFACTURING EMPLOYMENT

In Region 10, 31% of all covered employment is in manufacturing. Nearly 12,700 workers in the Region are employed in one of over 170 manufacturing establishments. Nearly two-thirds of the manufacturing employment in the Region can be found in Monroe County. In the manufacturing sector, the electrical machinery industry is the largest industry group. About seven out of ten manufacturing employees can be found in electrical machinery, primary metals, or nonelectrical machinery industries. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 10 are listed in order by numbers employed; see the Table below.

REGION 10: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	4,720
Testers	1,180
Managers & officers	500
Supervisors, nonworking, except service	420
Instrument makers	390
Inspectors	290
Electrical & electronic technicians	280
Welders & flamecutters	270
Sewing machine operators	220
Industrial truck operators	210
Stock clerks, stock room and warehouse	210
Janitors, porters, & cleaners	180
Production packagers	180
Tool & die makers, metal	180
Die casting machine operators	160
Filers, grinders, buffers, chippers, cleaners, & polishers	160
Riveters, light	160
Machine tool operators, combination	150
Punch press operators, metal	130
Mechanics, maintenance	100

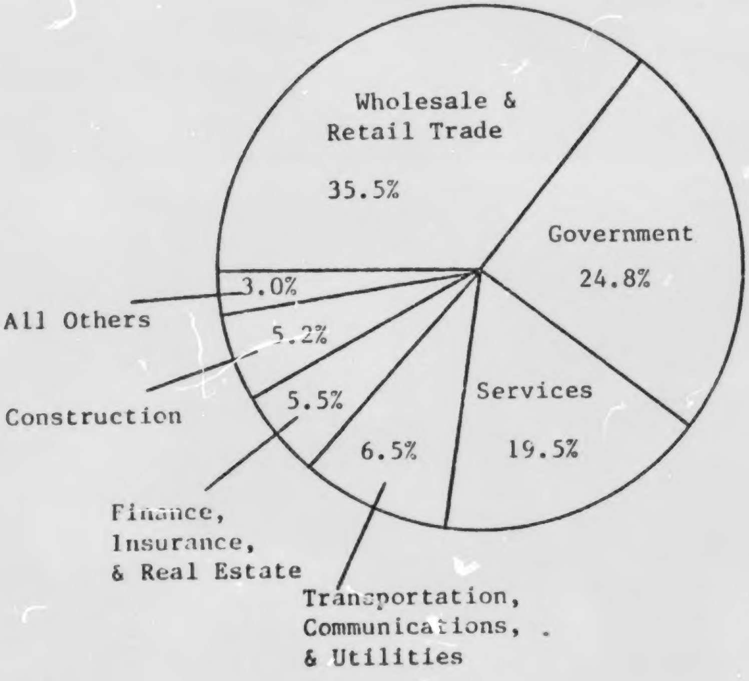
NONMANUFACTURING EMPLOYMENT

In Region 10, over 68% of all covered employment is in nonmanufacturing. More than 27,600 workers are employed in one of over 2,410 nonmanufacturing establishments. Monroe County has more than seven out of ten employees in Region 10 nonmanufacturing.

Wholesale and retail trade represents more than a third of the nonmanufacturing in Region 10. Nearly one out of four nonmanufacturing employees is in the government sector. In the nonmanufacturing sector, eight out of ten employees can be found in wholesale and retail trade, in government, or in the services sector. In addition, 55% of the total employment in Region 10 can be found in these three sectors. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY DIVISION GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 10: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	1,160
Managers & officers	1,000
Sales persons	960
Cashiers	490
Waiters/Waitresses	470
General clerks	340
Food preparation & service workers	320
Mechanics, automotive	320
Stock clerks, sales floor	300
Delivery & route workers	280
Automobile service-station attendants	240
Stock clerks, stockroom & warehouse	230
Bookkeepers, hand	220
Cooks, short order	190
Truck drivers	190
Janitors, porters, & cleaners	180
Kitchen helpers	130
Counter workers, lunchroom	120
Baggers	110
Butchers/Meat cutters	110
Shipping/Receiving clerks	110
Cooks, restaurants	100
Secretaries	100
Bus boys/girls	90
Bartenders	60

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 10. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 10. At the end of the Region 10 section can be found detailed supply information at the secondary and post-secondary levels.

Region X

	Program Enrollments				Registered Apprentice	
	Adult		Apprentice			
Occupation	M	F	M	F	M	F
Agriculture mechanics	50					
Agriculture production	61					
Air conditioning			12			
Carpentry			12			
Die makers					5	
Electrician					1	
Food management	1	23				
Glazer					1	
Operating engineer					1	
Outside electrical worker					6	
Plumbing			26		1	
Roofer					1	

OCCUPATIONAL DEMAND

In Region 10, it is anticipated that about a dozen occupations will be in short supply during 1977-1978. These occupations are listed below.

REGION 10: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

Accountants
Appliance repairers
Automotive mechanics (motor)
Dental assistant
Insurance salesworkers
Mechanical technicians
Medical & medical laboratory technicians
Millwrights
Occupational therapists
Operating room technicians
Physical therapists
Practical nurses
Stenographers
Tool & die makers

During 1977-1978, other occupations are expected to be in constant demand in Region 10. These occupations are listed by occupational group in the Table below.

REGION 10: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Nurses aides
2. Professional nurses (registered)

B. Technicians and Related Occupations:

1. Automotive technicians
2. Drafters
3. Electrical technicians
4. Industrial technicians

C. Management:

1. Manager trainees

D. Salesworkers by Industry:

1. Apparel & accessories
2. Food service (restaurants, etc.)
3. General merchandise (department stores)

E. Office Occupations:

1. Accounting clerks
2. Bookkeepers
3. Clerk typists
4. General office clerks
5. Secretaries
6. Typists

F. Crafts and Related Occupations:

1. Automotive vehicle repairers: body & fender
   combination
2. Carpenters
3. Cooks & chefs
4. Electricians (including electronics)
5. Machine tool operators
6. Machine tool setters (set-up)
7. Machinists
8. Plumbers & pipefitters
9. Sewers & stitchers
10. TV & radio repairers
11. Welders & flamecutters: Basic
    Certified.

G. Service and Related Occupations:

1. Automobile attendants: gas & parking
2. Charworkers & cleaners
3. Janitors
4. Private household workers
5. Waiters/Waitresses

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 10: Bedford, Bloomington, and Linton.

REGION 10

POPULATION CHARACTERISTICS

The population of Region 11 is next to the smallest of the fourteen Economic Regions of the State. Bartholomew County has 40% of the population of the Region. Brown County State Park, a major tourist and recreational area, is in the Region.

REGION 11 COMMUTING PATTERNS

One out of four employees in Region 11 commutes outside the home county to work. More than half of the commuters go to Bartholomew County for employment. Nearly one out of five commuters works in the Indianapolis area. Brown County has the highest rate of commuting with six out of ten workers who do. The Map below shows commuting patterns for Region 11.

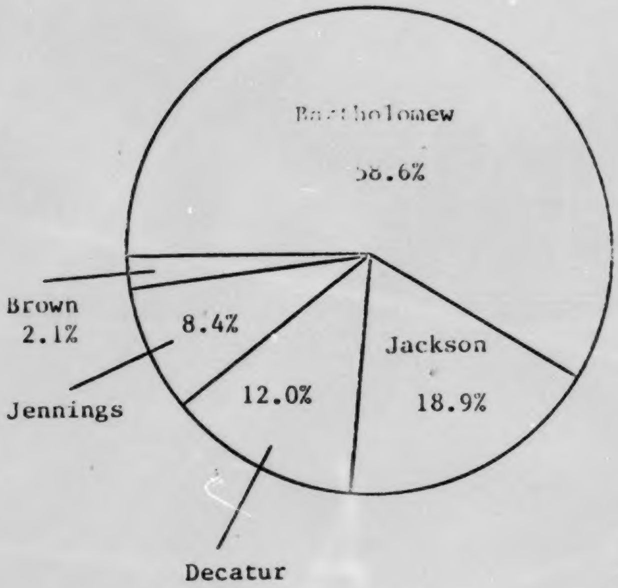
Jennings	3,204	2,236	34.9%
Total:	36,694	11,000	23.1%

EMPLOYMENT DISTRIBUTION

Employment in Region 11 is centered in Bartholomew County. More than three out of four employees in the Region can be found in Bartholomew and Jackson Counties. Covered employment totaled nearly 41,700 in 1975, and 41,900 in the first quarter of 1976. See the Diagram below.

COVERED EMPLOYMENT* BY COUNTIES

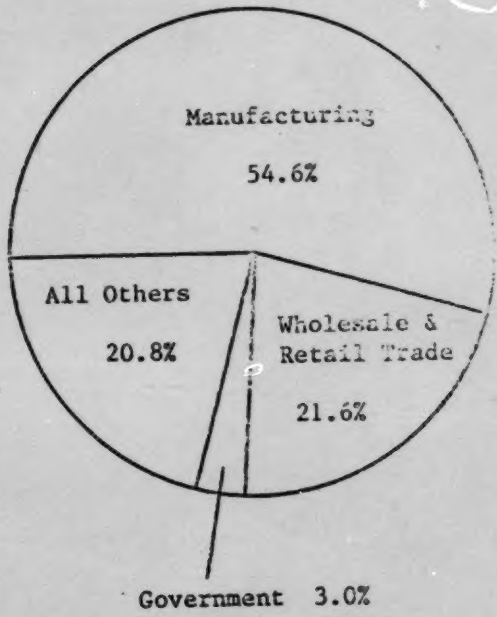


---

*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 11, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 11.

REGION 11: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975.

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT

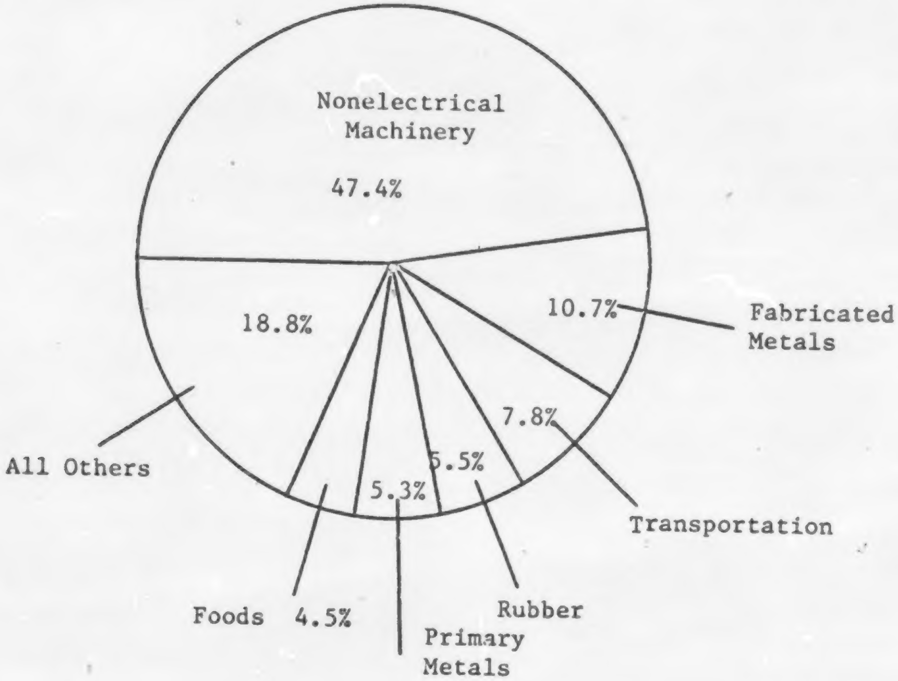
MANUFACTURING EMPLOYMENT

In Region 11, 55% of all covered employment is in manufacturing. The Region is one of Indiana's major areas of nonelectrical machinery production. Nearly 22,800 workers in the Region are employed in one of almost 190 manufacturing establishments. More than two out of three manufacturing employees work in Bartholomew County. Nonelectrical machinery accounts for 47% of the manufacturing employment work force. Two out of three manufacturing employees can be found in one of the following industries: nonelectrical machinery, fabricated metals, and transportation equipment. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 11 are listed in order by numbers employed; see the Table below.

REGION 11: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Managers & officers	1,490
Assemblers	1,320
Supervisors, nonworking, except service	930
Drill press and/or boring machine operators	880
Electrical and electronic engineers	850
Production packagers	750
Punch press operators, metal	750
Lathe and/or turning machine operators	520
Sewing machine operators, regular equipment	510
Industrial truck operators	460
Order fillers	450
Grinding and/or abrading machine operators	440
Inspectors	440
Tool & die makers, metal	440
Secretaries	380
Compression and/or injection molding machine operators	360
Filers, grinders, buffers, chippers, & cleaners	360
Machine tool operators, combination	340
Mechanics, automotive	340
Janitors, porters, & cleaners	300

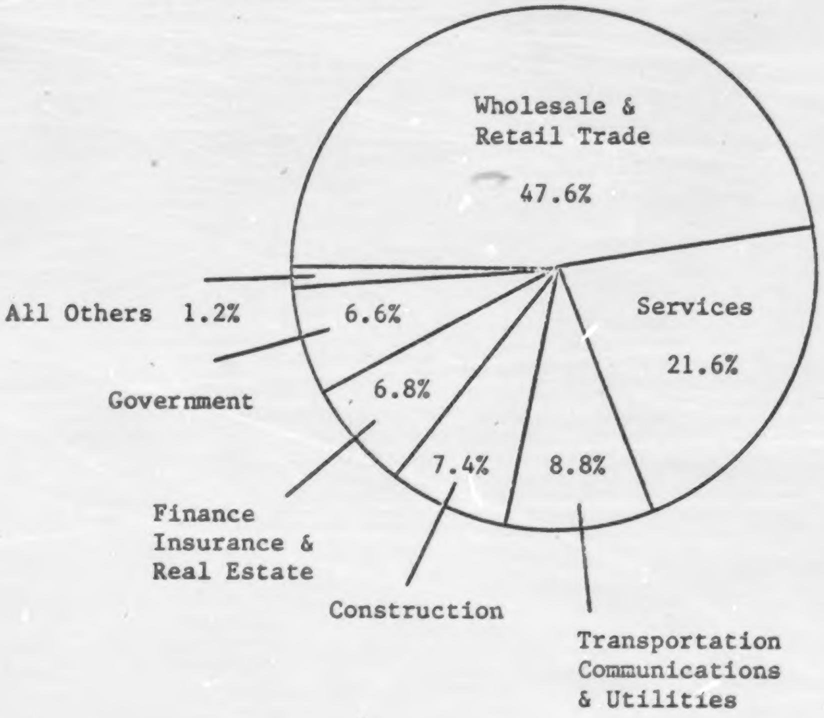
NONMANUFACTURING EMPLOYMENT

In Region 11, over 45% of all covered employment is in nonmanufacturing. More than 18,920 workers are employed in over 2,180 nonmanufacturing establishments. Bartholomew County has almost 48% of the nonmanufacturing employment in the Region.

The wholesale and trade sector employs about 48% of the nonmanufacturing work force in the Region. Three out of four nonmanufacturing employees work in wholesale and retail, in services, or in transportation, communications, and utilities. In addition, one third of the total covered employment in the Region is in these three sectors. See the Diagram below.

DISTRIBUTION OF NONNAUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 11: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	1,050
Managers & officers	900
Sales persons	870
Cashiers	440
Waiters/Waitresses	420
General clerks	300
Food preparation & service workers	290
Mechanics, automotive	290
Stock clerks, sales floor	270
Delivery & route workers	250
Automobile service-station attendants	210
Stock clerks, stockroom & warehouse	210
Bookkeepers, hand	200
Cooks, short order	170
Truck drivers	170
Janitors, porters, & cleaners	160
Kitchen helpers	120
Counter workers, lunchroom	110
Butchers/Meat cutters	100
Shipping/Receiving clerks	100
Baggers	95
Cooks, restaurants	90
Secretaries	90
Bus boys/girls	85
Bartenders	60

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 11. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.

2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.

3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.

4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 11. At the end of the Region 11 section can be found detailed supply information at the secondary and post-secondary level.

Region XI

Occupation	Program Enrollments Adult M	 F	 Apprentice M	 F	Registered Apprentice M	 F
Agriculture	25	5

OCCUPATIONAL DEMAND

In Region 11, it is anticipated that Region 11 will have a short supply of industrial management technicians during 1977-1978.

In addition, other occupations are expected to be in constant demand in Region 11 during 1977-1978. These occupations are listed by occupational group in the Table below.

REGION 11: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Dental assistants
2. Emergency care technicians
3. Hospital dietary technicians
4. Hospital & other institutional workers
5. Medical & medical laboratory technicians
6. Medical records technicians
7. Nurses aides
8. Occupational therapists
9. Physical therapists
10. Practical nurses
11. Professional nurses (registered)

B. Technicians and Related Occupations:

1. Automotive technicians
2. Credit & finance technicians
3. Drafters
4. Electrical technicians
5. Electronic technicians
6. Engineering technicians
7. Industrial technicians
8. Mechanical technicians

C. Management:

1. Manager trainees

D. Sales Workers by Industry:

1. Apparel & accessories
2. Food distribution (grocery stores)
3. Food service (restaurants, etc.)
4. General merchandise
5. Hotel & lodging
6. Insurance

E. Office Occupations:

1. Accountants
2. Accounting clerks
3. Bookkeepers
4. Cashiers

E.

5. Clerk typists
6. General office clerks
7. Order clerks
8. Receptionists & telephone operators
9. Secretaries
10. Shipping & receiving clerks
11. Stenographers
12. Stock & inventory clerks
13. Typists

F. Crafts & Related Occupations:

1. Air conditioning & heating installers & repairers
2. Appliance repairers
3. Automotive vehicle repairers: Body & fender
Mechanics (motor)
4. Bakers
5. Beauty operators (cosmetologists)
6. Carpenters
7. Chemical operators (including extruders)
8. Cooks & chefs
9. Diesel mechanics
10. Die setters
11. Electricians (including electronics)
12. Foundry core makers
13. Foundry molders
14. General industrial maintenance
15. Heavy construction operators: crane, derrick & hoist operators, excavating, grading & road machinery operators
16. Industrial machinery repairers
17. Machinists
18. Meat cutters (except meat packing)
19. Millwrights
20. Painters & decorators
21. Plumbers & pipefitters
22. Sheet-metal workers
23. Tool & die makers
24. TV & radio repairers

G. Service and Related Occupations:

1. Automobile attendants: gas & parking
2. Charworkers & cleaners
3. Counter & fountain workers
4. Delivery & route workers
5. Drivers: truck and/or tractor
6. Industrial guards & watchmen
7. Janitors
8. Laundry & dry cleaning occupations
9. Private household workers
10. Waiters/Waitresses

H. Agricultural Occupations:

1. Nursery workers

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the urban center of Columbus in Region 11.

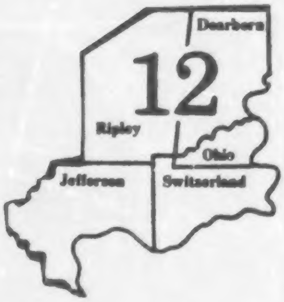
DEARBORN	15,100	15,800	30,900	5.2
JEFFERSON	13,300	14,500	27,800	3.0
OHIO	2,200	2,500	4,700	11.1
RIPLEY	10,900	11,500	22,400	6.1
SWITZERLAND	3,200	3,400	6,600	5.6
TOTAL	44,700	47,700	92,400	4.9



POPULATION CHARACTERISTICS

The population of Region 12 is the smallest of the fourteen Economic Regions of the State. Dearborn, Jefferson and Ripley Counties have 88% of the population of the Region. Dearborn County is considered part of the Cincinnati Metropolitan Statistical Area. Two urban centers are in the Region: Lawrenceburg and Madison.

REGION 12, COMMUTING PATTERNS

One out of four employees in Region 12 commutes outside the home county to work. Commuting rates are fairly high for all counties in Region 12 except for Jefferson County. The Map below shows commuting patterns for Region 12.

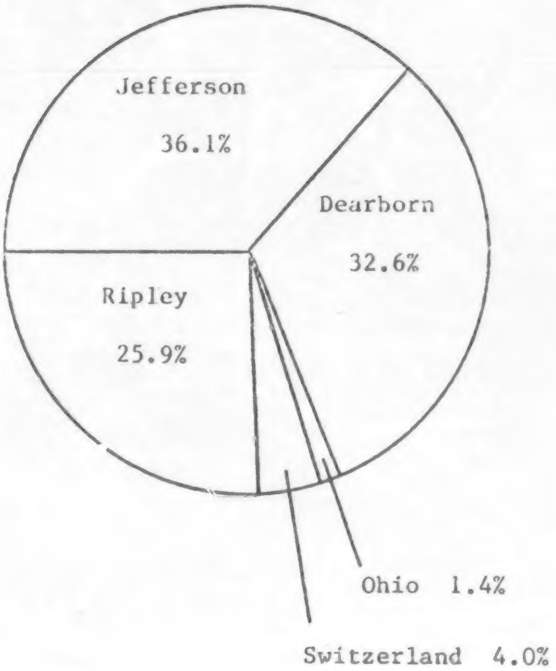
DISTRIBUTION OF REGION 12 LABOR FORCE, BY PLACE OF WORK, 1970 CENSUS

COUNTY	WORKING IN HOME COUNTY	WORKING IN OTHER COUNTIES	(%) COMMUTING OUTSIDE COUNTY
Dearborn	6,132	3,487	34.2%
Jefferson	8,113	1,062	10.9%
Ohio	533	911	60.9%
Ripley	4,787	2,133	28.0%
Switzerland	1,437	691	29.2%
Total:	21,002	8,284	28.3%

EMPLOYMENT DISTRIBUTION

Employment in Region 12 is predominatly in manufacturing and trade. covered employment totaled over 20,800 in 1975, and about 20,400 in the first quarter of 1976. Nearly 95% of the covered employment in this Region is in three counties: Jefferson, Dearborn, and Ripley. See the Diagram below.

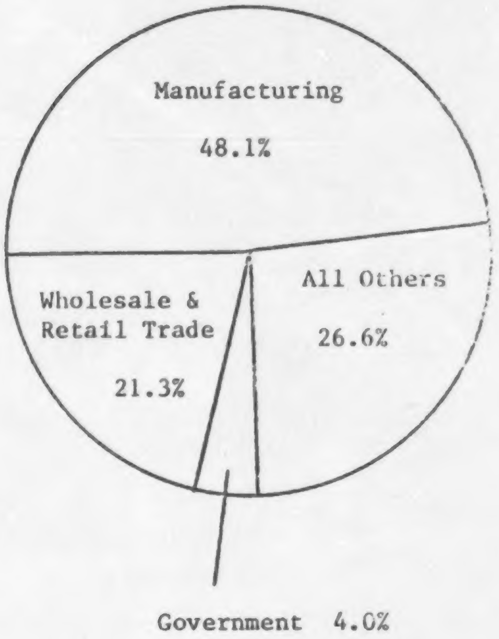
COVERED EMPLOYMENT* BY COUNTIES



*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 12, covered employment is predominatly in manufacturing and in trade. These two sectors account for nearly seven out of ten employees in the total employment force. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 12.

REGION 12: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	1,530	20,820
AGRICULTURE, FORESTRY, & FISHING	13	30
MINING	6	90
CONSTRUCTION	201	860
Building construction	87	380
Construction, except building (general contractors)	21	200
Special trade contractors	93	280
MANUFACTURING	110	10,010
Food & kindred products	16	1,860
Lumber & wood products	12	240
Furniture & fixtures	7	1,330
Printing & publishing	17	200
Leather & leather products	4	1,260
Stone, clay, glass & concrete products	13	600
Fabricated metals	10	420
Nonelectrical machinery	11	570
All other manufacturing	20	3,530
TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS & SANITARY SERVICES	78	1,340
Motor freight transportation	41	240
Communications	12	220
Electric, gas, & sanitary services	17	820
All other transportation	8	60
WHOLESALE & RETAIL TRADE	695	4,440
Wholesale trade (durable goods)	46	280
Wholesale trade (nondurable goods)	62	480
Building materials, hardware, garden supply, & mobile home dealers	40	240
General merchandise stores	35	350
Food stores	78	730
Automotive dealers & gasoline service stations	134	700

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
WHOLESALE & RETAIL TRADE CON'T		
Apparel & accessory stores	45	150
Furniture, home furnishings, & equipment stores	40	160
Eating & drinking establishments	124	940
Miscellaneous retail	91	410
FINANCE, INSURANCE, & REAL ESTATE	98	800
Banking	20	430
Credit agencies (except banks)	19	110

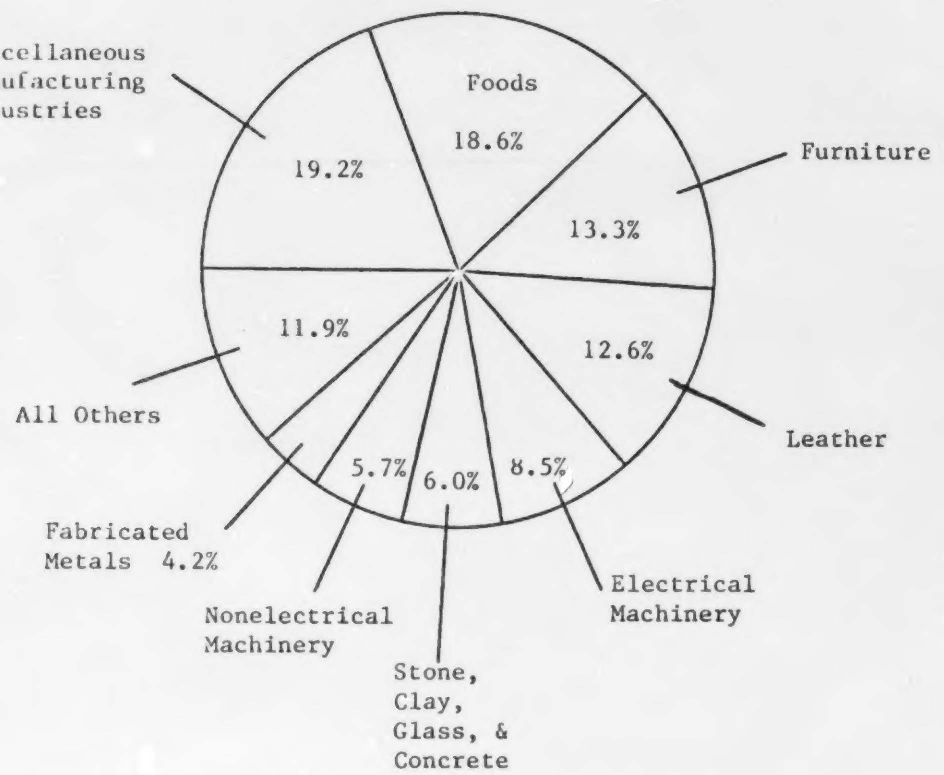
All other finance, insurance, & real estate	34	100
SERVICES	314	2,420
Hotels, rooming houses, camps & other lodging places	16	180
Personal services	64	170
Business services	15	60
Automobile repair, services, & garages	30	70
Amusement & recreation services (except motion pictures)	23	160
Health services	71	1,130
Legal services	26	50
Membership organizations	30	90
All other services	39	510
GOVERNMENT	15	830
State government	2	720
Local government	13	110

MANUFACTURING EMPLOYMENT

In Region 12, 48% of all covered employment is in manufacturing. More than 10,000 workers in the Region are employed in one of 110 manufacturing establishments. Forty-five percent of the total manufacturing work force can be found in the following industries: foods, furniture, and leather. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT, BY INDUSTRY GROUP



459

In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 12 are listed in order by numbers employed; see the Table below.

REGION 12: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	600
Production packagers	460
Managers & officers	290
Supervisors, nonworking, except service	290
Stitchers, standard machine	280
Janitors, porters, & cleaners	200
Coil finishers	160
Industrial truck operators	160
Shipping packers	160
Welders & flamecutters	140
Machinists	130
Selectors	130
Maintenance workers, general utility	120
Painters, production	120
Truck drivers	120
Punch press operators, metal	110
Sewing machine operators, regular non-garment	110
General clerks	80
Inspectors	70
Salespersons	40

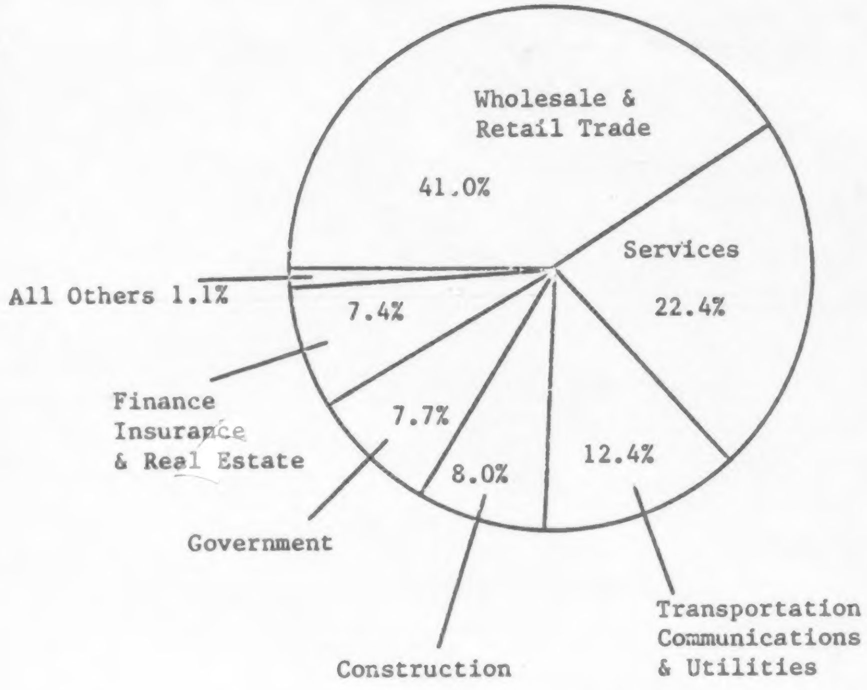
NONMANUFACTURING EMPLOYMENT

In Region 12, over half of all covered employment is in nonmanufacturing. More than 10,800 workers are employed in over 1,420 establishments.

Four out of ten employees in the nonmanufacturing sector work in wholesale and retail trade. Three out of four workers in nonmanufacturing can be found in the following sectors: wholesale and retail trade, services, and transportation, communications, and utilities. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 12: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	530
Managers & officers	460
Sales persons	440
Cashiers	220
Waiters/Waitresses	210
General clerks	160
Food preparation & service workers	150
Mechanics, automotive	150
Stock clerks, sales floor	140
Delivery & route workers	130
Automobile service-station attendants	110
Stock clerks, stock room & warehouse	110
Bookkeepers, hand	100
Cooks, short order	90
Truck drivers	90
Janitors, porters, & cleaners	80
Counter workers, lunchroom	60
Kitchen helpers	60
Baggers	50
Butchers/Meat cutters	50
Shipping/Receiving clerks	50
Cooks, restaurant	40
Bus boys/girls	40
Secretaries	40
Bartenders	30

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 12. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.

2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.

3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.

4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 12. At the end of the Region 12 section can be found detailed supply information at the secondary and post-secondary levels.

Region XII

Occupation	Program Enrollments				Registered Apprentice	
	Adult		Apprentice			
	M	F	M	F	M	F
Agriculture	14	10				
Agriculture mechanics	63					
Agriculture production	72					
Machine repair					1	
Outside electrical worker					2	
Tool & die maker					3	
Tool maker					1	

OCCUPATIONAL DEMAND

In Region 12, it is anticipated that about a dozen occupations will be in short supply during 1977-1978. These occupations are listed below.

REGION 12: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

Accountants
Automotive technicians
Clerk typists
Cooks & chefs
Electricians (including electronics)
Insurance workers
Practical nurses
Professional nurses (registered)
Secretaries
Stenographers
Waiters/Waitresses

During 1977-1978, other occupations are expected to be in constant demand in Region 12. These occupations are listed by occupational group in the Table below.

REGION 12: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Nurses aides
2. Radiologic occupations (x-ray technicians, etc.)

B. Technicians and Related Occupations:

1. Credit & finance technicians
2. Drafters
3. Electrical technicians
4. Electronic technicians
5. Engineering technicians
6. Mechanical technicians
7. Programmers

C. Management:

1. Manager trainees

D. Salesworkers by Industry:

1. Food service
2. General merchandise

E. Office Occupations:

1. Accounting clerks
2. Bookkeeping
3. General office clerks
4. Keypunch operators & verifiers
5. Receptionists & telephone operators

F. Crafts and Related Occupations:

1. Air conditioning & heating installers & repairers
2. Appliance repairers
3. Automotive vehicle repairers: Body & fender
   Combination
4. Bakers
5. Carpenters
6. Machinists
7. Masons

G. Service and Related Occupations:

1. Charworkers & cleaners
2. Day nursery workers & operators
3. Delivery & route workers
4. Industrial guards & watchmen
5. Private household workers

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages or qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 12: Lawrenceburg and Madison.

POPULATION CHARACTERISTICS

The population of Region 13 places it sixth in size among the fourteen Economic Regions. Vanderburgh and Knox Counties account for almost 50% of the population. Evansville, the largest urban center in the Region, is the fifth most populous city in Indiana. Evansville has over 60% of the population in the Region.

REGION 13, COMMUTING PATTERNS

About one out of six employees in Region 13 commutes outside the home county to work. High rates of commuting were found in Warrick, Pike, and Spencer Counties, where about one employee in three in each county is a commuter. Lowest rates of commuting were found in Vanderburg and Dubois Counties. The Map below shows commuting patterns for Region 13.

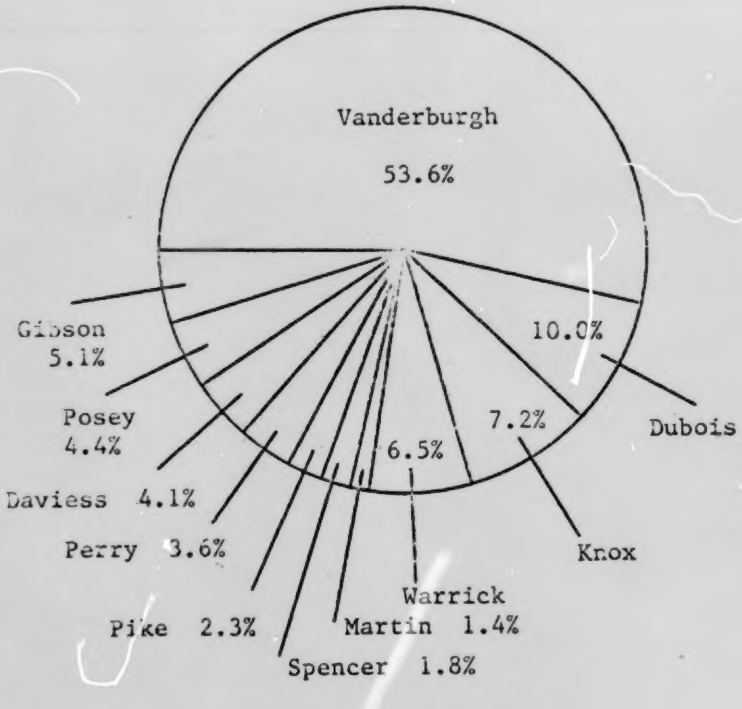
Total:	117,993	23,003	16.3%

EMPLOYMENT DISTRIBUTION

Employment in Region 13 is centered in Vanderburgh County with more than half the total employment in the Region. Covered employment totaled over 120,800 in 1975, and 121,00[illegible] in the first quarter of 1976. See the Diagram below.

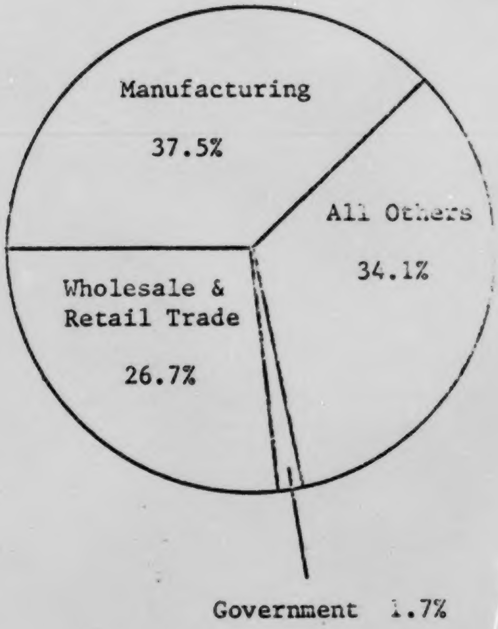
COVERED EMPLOYMENT* BY COUNTIES



*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and government utilities are covered.

In Region 13, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 13.

REGION 13: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	7,577	120,850
AGRICULTURE, FORESTRY & FISHING	70	320
MINING	175	2,810
CONSTRUCTION	853	7,180
Building construction	296	2,420
Construction, except building (general contractors)	95	2,100

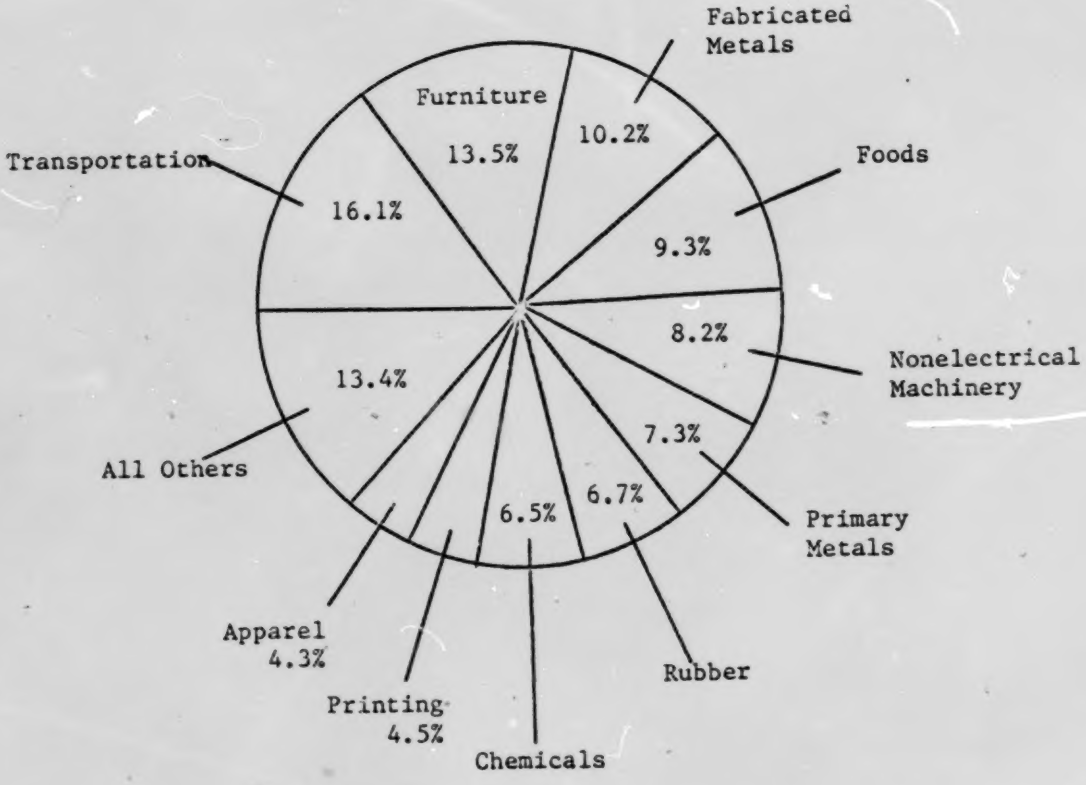
Amusement & recreation services (except motion pictures)	88	940
Health services	492	9,420
Legal services	131	400
Educational services	13	830
Social services	47	970
Membership organizations	185	1,160
All other services	109	560
GOVERNMENT	37	2,040
State government	6	1,400
Local government	31	640

MANUFACTURING EMPLOYMENT

In Region 13, 38% of all covered employment is in manufacturing. This Region is a major furniture production area for the State. Nearly 45,300 workers in the Region are employed in over 550 manufacturing establishments. Almost half of the manufacturing employment can be found in Vanderburgh County. About four out of ten employees in the manufacturing work force can be found in the following industries: transportation equipment, furniture, and fabricated metals. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 13 are listed in order by numbers employed; see the Table below.

REGION 13: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Assemblers	3,350
Managers & officers	2,270
Supervisors, nonworking, except service	1,760
Production packagers	1,390
Sewing machine operators, regular equipment	1,040
Welders & flamecutters	1,030
Inspectors	870
Janitors, porters, & cleaners	700
Painters, production	680
Industrial truck operators	640
Delivery & route workers	620
Compression and/or injection molding machine operators	610
Salespersons	600
Secretaries	560
Truck drivers	550
Millwrights	530
General clerks	500
Punch press operators, metal	470
Tool & die makers, metal	410
Stock clerks, stockroom & warehouse	340

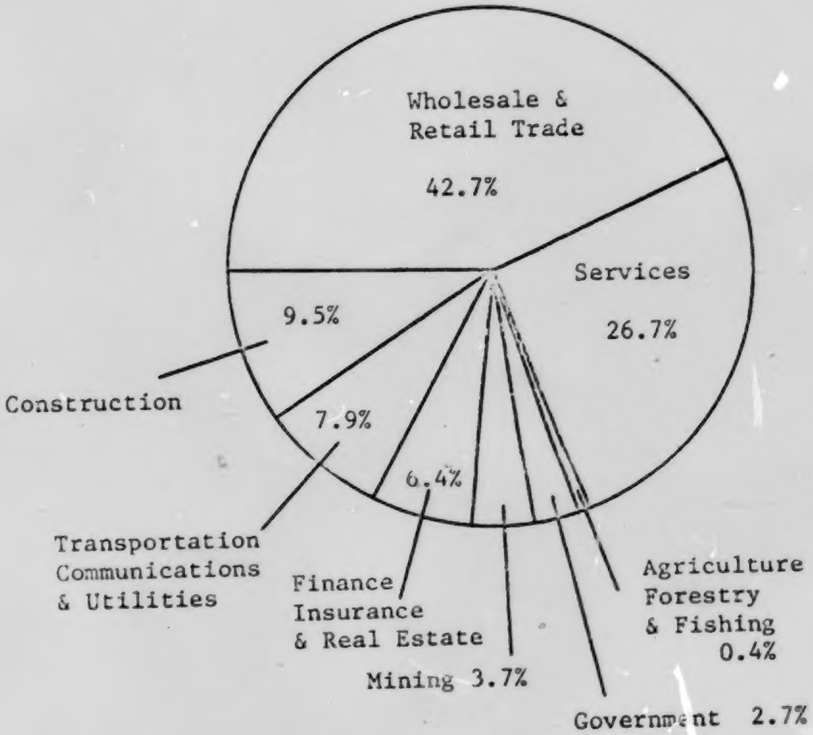
NONMANUFACTURING EMPLOYMENT

In Region 13, nearly 63% of all covered employment is in nonmanufacturing. Almost 75,600 workers are employed in over 7,020 nonmanufacturing establishments. In the Region, more than half of the nonmanufacturing employment is in Vanderburgh County.

Four out of ten nonmanufacturing employees in the Region are in wholesale and retail trade. Nearly eight out of ten employees in nonmanufacturing can be found in the following sectors: wholesale and retail trade, services, and construction. Almost half of the total covered employment in the Region can be found in the three sectors. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY GROUPS



500

In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 13: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN WHOLESALE AND RETAIL TRADE, 1973

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	3,860
Managers & officers	3,320
Sales persons	3,190
Cashiers	1,630
Waiters/Waitresses	1,560
General clerks	1,130
Food preparation & service workers	1,080
Mechanics, automotive	1,060
Stock clerks, sales floor	1,010
Delivery & route workers	920
Automobile service-station attendants	790
Stock clerks, stockroom & warehouse	770
Bookkeepers, hand	730
Cooks, short order	640
Truck drivers	620
Janitors, porters, & cleaners	590
Kitchen helpers	430
Counter workers, lunchroom	410
Butchers/Meat cutters	370
Shipping/Receiving clerks	360
Baggers	350
Cooks, restaurant	320
Secretaries	320
Bus boys/girls	310
Order fillers	140

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 13. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main groupings: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 13. At the end of the Region 13 section can be found detailed supply information at the secondary and post-secondary levels.

Region XIII

Occupation	Program Enrollments				Registered Apprentice	
	Adult		Apprentice			
	M	F	M	F	M	F
Agriculture	22

Tool maker					1	
Upholstering	43	102				
Welding/Cutting	243	3				

OCCUPATIONAL DEMAND

In Region 13, it is anticipated that at least two dozen occupations will be in short supply during 1977-1978. These occupations are listed by occupational group in the Table below.

REGION 13: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Practical nurses
2. Professional nurses (registered)
3. Respiratory therapy technicians and/or inhalation

B. Technicians and Related Occupations:

1. Air pollution technicians
2. Engineering technicians
3. Industrial technicians
4. Mechanical technicians
5. Systems analysts
6. Water & waste water technicians

C. Management:

1. Industrial management technicians

D. Office Occupations:

1. Keypunch operators & verifiers

E. Crafts and Related Occupations:

1. Air conditioning & heating installers & repairers
2. Appliance repairers
3. Automotive vehicle repairers: Body & fender
   Mechanics (motor)
4. Cooks & chefs
5. Electrical motor repairers
6. Electricians (including electronics)
7. General industrial maintenance workers
8. Industrial machinery repairers
9. Millwrights
10. Office machine repairers
11. Patternmakers, metal
12. Patternmakers, wood
13. Tool & die makers

During 1977-1978, other occupations are expected to be in constant demand in Region 13. These occupations are listed by occupational group in the Table below.

REGION 13: OCCUPATIONS IN CONSTANT DEMAND 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Hospital & other institutional workers
2. Nurses aides

B. Salesworkers by Industry:

1. Apparel & accessories
2. Food service (restaurants, etc.)
3. General merchandise (department stores)
4. Hotel & lodging
5. Insurance

C. Office Occupations:

1. Bookkeepers
2. Cashiers
3. Clerk typists
4. General office clerks
5. Secretaries
6. Stenographers
7. Typists

D. Crafts and Related Occupations:

1. Agricultural implement mechanics
2. Cabinet makers
3. Carpenters
4. Diesel mechanics
5. Heavy construction operators: crane, derrick & hoist operators; excavating, grading & road machinery operators
6. Machinists
7. Masons
8. Plumbers & pipefitters
9. Sewers & stitchers (manufacturing)
10. TV & radio repairers
11. Welders & flamecutters: Basic
    Certified

E. Service and Related Occupations:

1. Automobile attendants: gas & parking
2. Charworkers & cleaners
3. Janitors
4. Private household workers
5. Waiters/Waitresses

F. Agricultural Occupations:

1. Grain farm workers

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skilled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the following urban centers in Region 13: Evansville, Jasper, Tell City, and Vincennes.

REGION 13

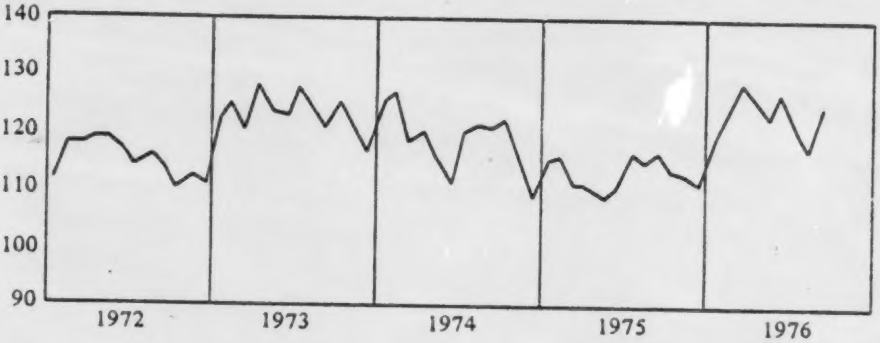
J. F. Ficks: EVANSVILLE

"As measured by the Evansville Area Business Index (see Table and Figure) the regional economy began to recover in June 1975. Spurred by buoyant consumer spending, the index registered a strong 6% increase during third quarter 1975. Since then, however, the expansion in business activity has not been consistent.

Evansville Area Business Index (1967-69 = 100)

Period	*Industrial Production*	*Trade and Services*	*Construction*	*Transportation*	*Finance*	*Employment*	*Composite Index*
1973	132.83	116.75	125.56	110.61	157.55	104.16	123.63
1974	126.26	111.88	112.64	101.72	192.00	102.44	119.16
1975	120.49	112.59	83.09	86.04	196.54	99.64	113.59
1976 estimate	132.85	125.10	105.23	84.40	221.20	101.55	123.78
1977 forecast	135–138	127–130	111–115	87–90	232–235	102–103	125–128

Evansville Area Business Index (1967-69=100)



"After three consecutive monthly declines during fourth quarter 1975, the index rebounded in January. In fact, the first quarter of 1976 featured a remarkable 16% rise, the result of exuberant consumer spending, substantial inventory rebuilding (particularly in the refrigeration industry), and strong auto and truck sales, as well as healthy increases in construction, especially residential building. The apparent robustness of the recovery led some analysts to predict that 1976 would prove to be the best year in two decades for the Evansville regional economy.

"Since March, however, the early optimism of the first quarter has been tempered. While still above the 1975 level, the second quarter proved to be sluggish, with the composite index registering a 1% decline. Both April and May data showed declines, as inventory rebuilding began to level off and consumer spending moderated. June promised continued growth, as industrial production rose, inventories were rebuilt, retail sales increased and residential construction looked particularly strong. Still, employment dropped in the Evansville area for the first time since December, as inventories piled up and caused layoffs in refrigeration and air conditioning equipment as well as in furniture and fixtures.

"Third-quarter data cast further doubt on the certainty of recovery; the index showed a decline of 3%. Both July and August showed declines, with the index reaching its lowest level since December of 1975. Unemployment did decline by 900 during August, and Evansville's 5.3% rate of unemployment compared favorably with most Indiana regions and with the national rate of 7.9% (both seasonally adjusted). Nevertheless, total employment declined by 1,300 during the month, the result of labor-management disputes and lagging sales of refrigeration and air conditioning equipment. The most optimistic forecast at that point was that the average level of business activity for 1976 would remain above that for 1975.

"September data, however, revealed flashes of the earlier upward momentum as the index rose almost 6% to 124.38, the best performance since June and almost 12% above December 1975. Five of the six component factor indexes showed increases; only the transportation figure declined. The industrial production index revealed a sharp increase of almost 11% to 134.15, the highest level since June and the result of significant inventory accumulation.

"The trade and services index also rose in September, the result of guarded optimism at the local level and back-to-school buying. The construction index rose to its highest level since June, as residential building showed a dynamic 35% rise from August and an 88% rise from September 1975 (all data seasonally adjusted). Although the unemployment rate remained constant at 5.3%, total employment rose by 400 as recalls mounted in the refrigeration industry, and wholesale and retail trade reached its highest level of the year. The only decline among the component factor indexes in September was in transportation, the result of a 10% drop in truck tonnage and a 5% decline in car loadings.

"Based on this year's past performance, fourth quarter 1976 and 1977 will echo this sawtooth pattern of economic growth. Recent consumer confidence polls reveal positive changes occurring in consumer durables, which should provide a stimulus to the industrial production index and keep it at the 1973 level. Trade and services should continue to remain above 1973, while construction may reach the level of 1974. The financial and transportation sectors will continue to grow at a moderate rate, although dwarfing previous years' performances. While employment will increase, it will not reach its high point of 1974, nor will the unemployment rate change much from its present 5.3% (adjusted) rate. In short, 1977 will be a year of solid but hardly exuberant growth, surpassing 1973's record performance overall but rising at a slower rate than in 1976."

POPULATION CHARACTERISTICS

The population of Region 14 is the ninth highest of the fourteen Economic Regions. Clark and Floyd Counties have 61% of the population. These two counties are part of the Louisville Standard Metropolitan Statistical Area. About one half of the Hoosier National Forest Purchase Area is located in Crawford and Orange Counties.

REGION 14, COMMUTING PATTERNS

About one out of two employees in Region 14 commutes outside the home county to work. A total of 19,200 workers, more than half of the commuters in the Region, works in Kentucky. About 14,200 workers in the Region commute to Clark County. High rates of commuting were found for all counties in the Region, with four out of ten employees commuting in four of the seven counties. The Map below shows commuting patterns for Region 14.

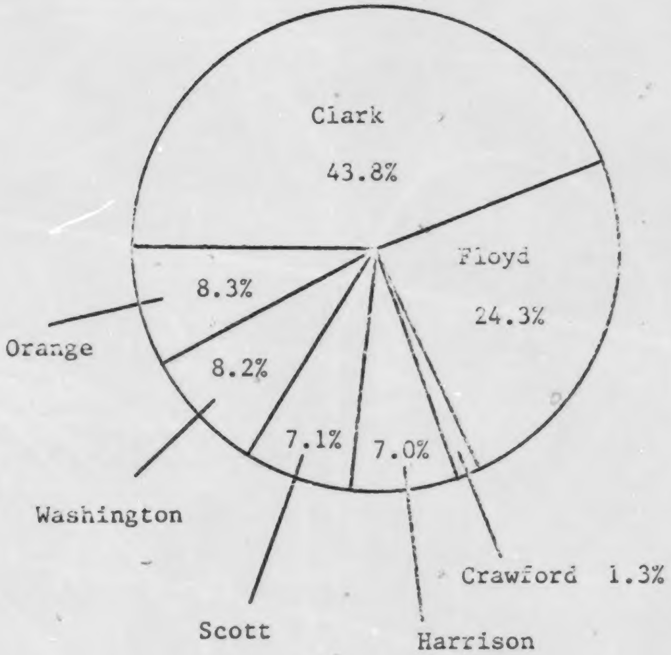
EMPLOYMENT DISTRIBUTION

Employment in Region 14 is centered in Clark and Floyd Counties. More than two out of three employees in the Region work in Clark or Floyd Counties. Covered employment totaled nearly 44,500 in 1975, and 42,690 in the first quarter of 1976. See the Diagram below.

COVERED EMPLOYMENT* BY COUNTIES

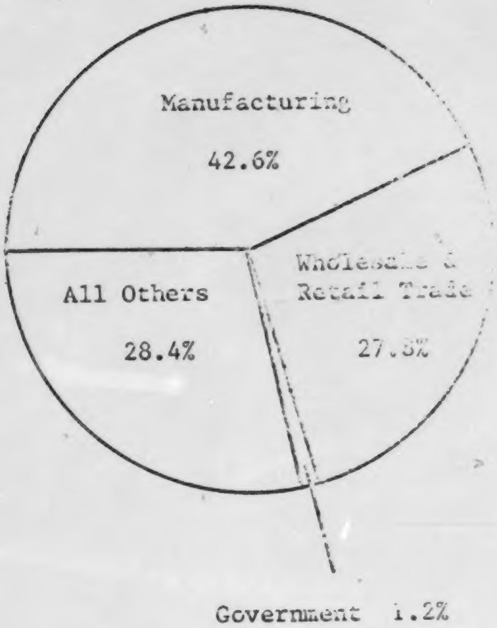


---

*Covered Employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State government hospitals, schools of higher education, and local government utilities are covered.

In Region 14, covered employment is predominantly in manufacturing and trade. See the Diagram below.

COVERED EMPLOYMENT BY MAJOR INDUSTRY DIVISIONS*



---

*Industry designations are based on the Standard Industrial Classification Manual of 1972 prepared by the U. S. Office of Statistical Standards.

The Table below lists the distribution of establishments by industry and the average covered employment for 1975, in Region 14.

REGION 14: DISTRIBUTION OF ESTABLISHMENTS AND EMPLOYMENT, 1975

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
TOTALS	3,470	44,450
AGRICULTURE, FORESTRY, & FISHING	31	180
MINING	21	460
CONSTRUCTION	465	2,020
Building construction	154	470
Construction, except building (general contractors)	54	520
Special trade contractors	257	1,030
MANUFACTURING	281	18,950
Food & kindred products	24	2,320
Apparel & fabric products	4	930
Lumber & wood products	81	2,410
Furniture & fixtures	16	2,080
Paper & allied products	5	320
Printing & publishing	29	320
Chemicals & allied products	11	1,380
Rubber & plastics products	11	1,050
Leather & leathers products	4	250
Stone, clay, glass, & concrete products	20	710
Primary metals	5	310
Fabricated metals	24	3,160
Nonelectrical machinery	25	560
Electrical machinery	5	210
Transportation equipment	7	1,990
All other manufacturing	10	950
TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS & SANITARY SERVICES	185	2,200
Local & suburban passenger transportation	10	100
Motor freight transportation	99	610
Communications	26	530
Electric, gas, & sanitary services	40	660
All other transportation	10	300

INDUSTRY	NO. OF FIRMS	AVERAGE COVERED EMPLOYMENT
WHOLESALE & RETAIL TRADE	1,423	12,330
Wholesale trade (durable goods)	102	880
Wholesale trade (nondurable goods)	112	930
Building materials, hardware, garden supply, & mobile home dealers	93	540
General merchandise stores	56	1,700
Food stores	153	1,910
Automotive dealers & gasoline service stations	270	1,690
Apparel & accessory stores	70	450
Furniture, home furnishings, & equipment stores	67	340
Eating & drinking establishments	267	2,640
Miscellaneous retail	233	1,250
FINANCE, INSURANCE, & REAL ESTATE	251	1,970
Banking	25	910
Credit agencies (except banks)	33	260
Insurance	15	280
Insurance agents, brokers, & services	58	150
Real estate	103	320

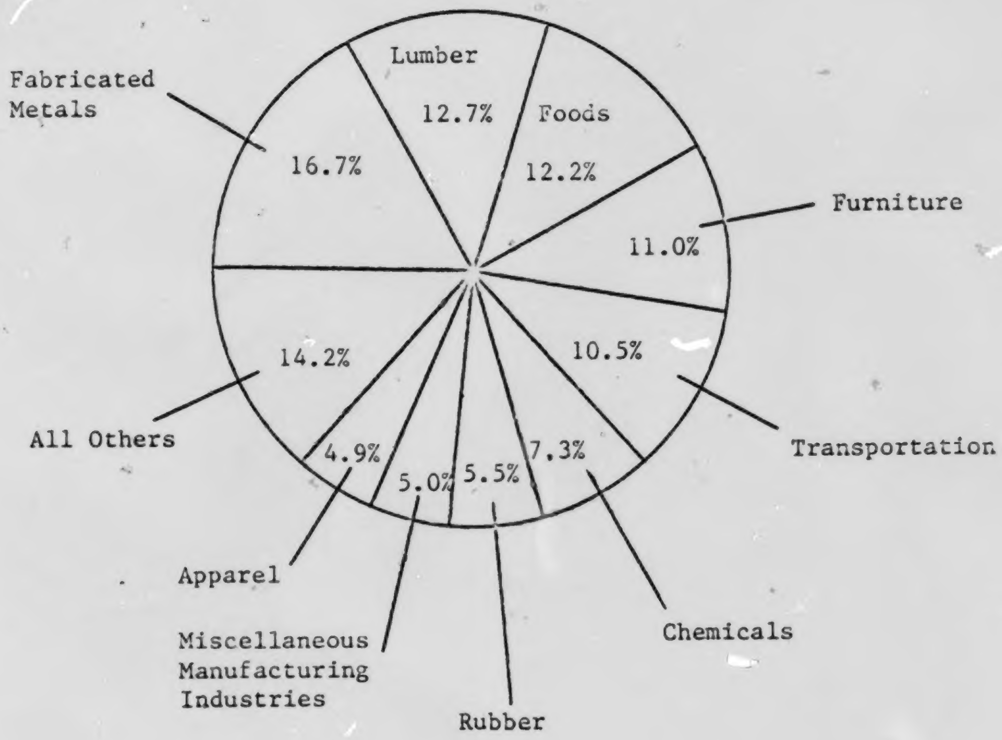
SERVICES	796	5,800
Hotels, rooming houses, camps, & other lodging places	42	1,290
Personal services	158	570
Business services	86	400
Automobile repair, services, & garages	77	260
Miscellaneous repair services	18	100
Motion pictures	13	70
Amusement & recreation services (except motion pictures)	39	400
Health services	187	1,680
Legal services	61	140
Educational services	8	120
Social services	19	310
Membership organizations	45	280
All other services	43	180
GOVERNMENT	17	540
State government	2	320
Local government	15	220

MANUFACTURING EMPLOYMENT

In Region 14, 43% of all covered employment is in manufacturing. More than 18,900 workers in the Region are employed in one of over 280 manufacturing establishments. Four out of ten manufacturing employees work in one of the following industries: fabricated metals, lumber, or foods. See the Diagram below.

DISTRIBUTION OF MANUFACTURING EMPLOYMENT,

BY INDUSTRY GROUP



In 1974, a survey of manufacturing establishments was conducted by the Indiana Employment Security Division. Based upon survey results, the major manufacturing occupations in Region 14 are listed in order by numbers employed; see the Table below.

REGION 14: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN MANUFACTURING, 1974

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sewing machine operators, regular, non-garment	1,920
Assemblers	1,310
Welders & flamecutters	1,140
Managers & officers	990
Supervisors, nonworking, except service	960
Production packagers	760
Inspectors	630
Sewing machine operators, regular, garment	620
Janitors, porters, & cleaners	320
Industrial truck operators	310
Truck drivers	280
Offbearers (millwork)	260
Shipfitters	260
Guards, watchmen, and doorkeepers	240
General clerks	220
Painters, production	220
Cabinetmaker	210
Maintenance worker, general utility	190
Machinsts	180

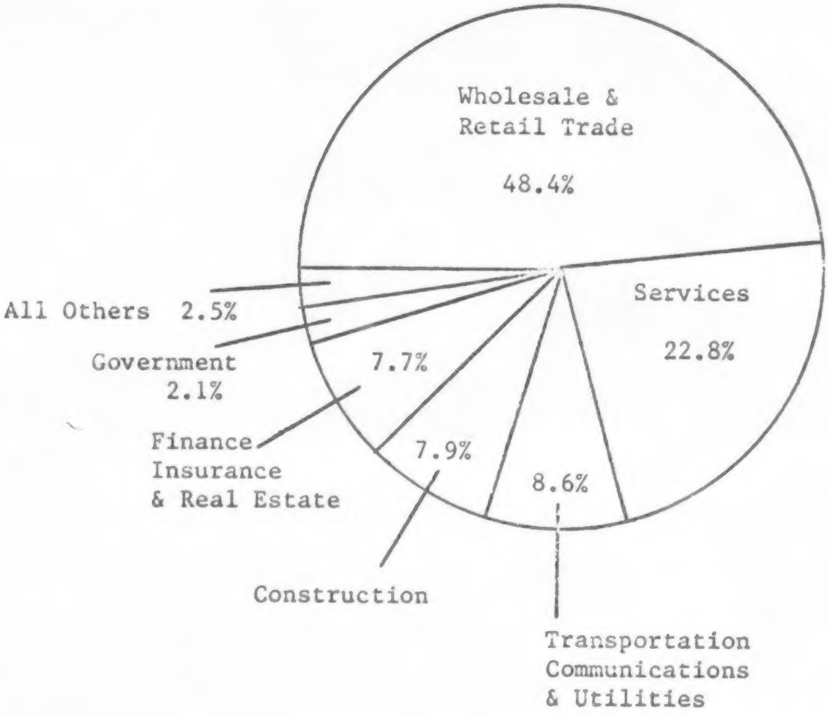
NONMANUFACTURING EMPLOYMENT

In Region 14, over 57% of all covered employment is in nonmanufacturing. More than 25,500 workers are employed in almost 3,190 nonmanufacturing establishments. Clark and Floyd Counties account for seven out of ten employees in Region 14 nonmanufacturing sector.

Wholesale and retail trade represents nearly half of the nonmanufacturing in Region 14. About one out of five employees in nonmanufacturing is in the services sector. Nearly eight out of ten employees in nonmanufacturing works in wholesale and retail trade, in services, or in transportation, communications, and utilities. In addition, 46% of the total covered employment in Region 14 is in these three sectors. See the Diagram below.

DISTRIBUTION OF NONMANUFACTURING EMPLOYMENT,

BY MAJOR INDUSTRY GROUPS



In 1973, the Indiana Employment Security Division conducted a survey of wholesale and retail establishments. The major occupations in the wholesale and retail trade sector are listed in order of size in the Table below.

REGION 14: OCCUPATIONS OF NUMERICAL SIGNIFICANCE IN THE WHOLESALE AND RETAIL TRADE, 1973.

OCCUPATIONS	ESTIMATED EMPLOYMENT
Sales clerks	1,440
Managers & officers	1,240
Sales persons	1,190
Cashiers	610
Waiters/Waitresses	580
General clerks	420
Food preparation & service workers	400
Mechanics, automotive	400
Stock clerks, sales floor	380
Delivery & route workers	350
Automobile service-station attendants	290
Stock clerks, stockroom & warehouse	290
Bookkeepers, hand	270
Cooks, short order	240
Truck drivers	230
Janitors, porters, & cleaners	220
Kitchen helpers	160
Counter workers, lunchroom	150
Butchers/Meat cutters	140
Shipping/Receiving clerks	140
Secretaries	140
Baggers	130
Bartenders	120
Bus boys/girls	120
Packagers, hand or machine	60

OCCUPATIONAL SUPPLY AND DEMAND

The following pages present the listing of the occupational supply and demand by job titles for Region 14. The occupational supply data provide a picture of the number of persons enrolled in vocational education programs leading to particular jobs. The occupational demand data summarize the experience of the local Indiana Employment Security Offices with requests for workers.

OCCUPATIONAL SUPPLY:

The occupational supply data are arranged under three main grouping: Secondary, Post-Secondary and Adult. Where information is available, comparisons are included for enrollments and course/program completions as well as by sex.

1. Enrollments and completions at the secondary level, and in the public sector at the post-secondary level, are for the school year 1975-1976.
2. Enrollments and completions for private schools at the post-secondary level are for the school year 1975-1976. Information was obtained at the time of request for accreditation.
3. At the adult level, enrollments are reported for programs for adults and for apprenticeship programs during the school year 1975-1976.
4. Information is reported on apprentices registered in Indiana during the calendar year 1976.

The Table that follows lists adult and apprentice course/program enrollments and registered apprentices for Region 14. At the end of the Region 14 section can be found detailed supply information at the secondary and post-secondary levels.

Region XIV

	Program Enrollment				Registered Apprentice	
	Adult		Apprentice			
Occupation	M	F	M	F	M	F
Agriculture mechanics	28					
Agriculture production	46					
Air conditioning	31					
Automotive service		52				
Blueprint reading	10					
Body/Fender	75	4				
Cashier/Checker		27				
Construction/ Maintenance occupation	24	6				
Data processing occupation		49				
Electrical occupation	30	1				
Electronic occupation	27					
Food/Nutrition	3	96				
Graphic arts occupation	14	6				
Housing	1	13				
Interior/Decorator		15				
Landscaping	26	12				
Lithographer					1	
Machine repair					2	
Machinists					1	
Millwork/Cabinet	10					
Ornamental horticulture	17	50				
Outside electrical worker					1	
Plumbing			15			
Steamfitter					1	
Textiles/Clothing	19	201				
Tool maker					1	
Upholstering	21	47				
Welding/Cutting	88					

OCCUPATIONAL DEMAND

In Region 14, it is anticipated that more than a dozen occupations will be in short supply during 1977-1978. These occupations are listed by occupational group in the Table below.

REGION 14: OCCUPATIONS IN SHORT SUPPLY, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

   1. Professional nurses (registered)

B. Technicians and Related Occupations:

   1. Cable television technicians

C. Office Occupations:

   1. Secretaries

D. Crafts and Related Occupations:

   1. Air conditioning & heating installers & repairers
   2. Automotive vehicle repairers: Body & fender
      Mechanics (motor)
   3. Cabinet makers
   4. Carpenters
   5. Diesel mechanics
   6. Electricians (including electronics)
   7. General industrial maintenance
   8. Machinists
   9. Meat cutters (except meat packing)
   10. Millwrights
   11. Plumbers & pipefitters
   12. Roofers
   13. Sheet-metal workers
   14. Tailors
   15. Upholsterers
   16. Welders & flamecutters: certified

During 1977-1978, other occupations are expected to be in constant demand in Region 14. These occupations are listed by occupational group in the Table below.

REGION 14: OCCUPATIONS IN CONSTANT DEMAND, 1977-1978

OCCUPATIONS:

A. Health Related Occupations:

1. Child care technicians
2. Clinical laboratory technicians
3. Emergency care technicians
4. Hospital dietary technicians
5. Hospital & other institutional workers
6. Medical health technicians
7. Medical & medical laboratory technicians
8. Medical records technicians
9. Medical transcription technicians
10. Nurses aides
11. Occupational therapists
12. Operating room technicians
13. Optometric technicians
14. Physical therapists
15. Practical nurses
16. Radiologic occupations (x-ray technicians, etc.)
17. Respiratory therapy technicians and/or inhalation

B. Technicians and Related Occupations:

1. Air pollution technicians
2. Automotive technicians
3. Chemical technicians
4. Credit & finance technicians
5. Drafters
6. Electrical technicians
7. Engineering technicians
8. Industrial safety & health technicians
9. Industrial technicians
10. Law enforcement technicians
11. Mechanical technicians
12. Programmers
13. Science technicians
14. Systems analysts
15. Water & waste water technicians

C. Management:

1. Administrative managers
2. Industrial management technicians
3. Manager trainees

D. Salesworkers by Industry:

1. Apparel & accessories
2. Food distribution (grocery stores)
3. Food service
4. General merchandise
5. Home furnishings
6. Hotel & lodging
7. Insurance

E. Office Occupations:

1. Accountants
2. Accounting clerks
3. Bookkeepers
4. Cashiers
5. Clerk typists
6. Computer operators
7. General office clerks
8. Keypunch operators & verifiers
9. Order clerks
10. Receptionists & telephone operators
11. Shipping & receiving clerks
12. Stenographers
13. Stock & inventory clerks
14. Typists

F. Crafts and Related Occupations:

1. Aviation mechanics
2. Aviation structural repair workers
3. Cooks & chefs
4. Industrial machinery repairers
5. Masons
6. Sewers & stitchers

G. Service and Related Occupations:

1. Industrial guards & watchmen
2. Janitors
3. Laundry & dry cleaning occupations
4. Private household workers
5. Waiters/Waitresses

DETAILED SUPPLY AND DEMAND:

The tabulations which follow rate the demand for particular jobs from lowest to highest. Jobs where shortages of qualified workers exist are indicated by an asterisk. Some jobs may be in relatively high demand because of a high turnover rate; for example, waitresses. This high demand is not necessarily accompanied by a shortage of workers to fill the openings. On the other hand, some skillled jobs may not become vacant very often, but there is a shortage of trained workers to fill such vacancies when they do occur.

In the Table that follows, anticipated demand for occupations is listed for the urban center of New Albany in Region 14.

F. E. Greckel: JEFFERSONVILLE-NEW ALBANY (Louisville Area)*

"At first glance, the Louisville area economy appears to have mirrored the national economic picture this year, with a strong expansion during the first few months, followed by a slowdown or slight decline. However, a closer examination indicates more robust conditions locally.

"The first impression is supported by the business activity indexes shown in the Table below. The index of industrial production, based on industrial power usage and outbound rail freight, reached a peak in March and April that not only exceeded the 1975 level, but also surpassed the prerecession peaks of 1973 and 1974. After this strong showing, however, the industrial production index fell off during the summer and fall. The other indexes also rose more slowly, or fluctuated, after April, but still followed an upward trend through August or September.

Index of Louisville Area Business Activity
(1967=100, seasonally adjusted)

	October 1975	April 1976	July 1976	October 1976
Industrial production	112.1	134.1	116.8	106.6
Transportation	152.6	161.4	162.9	165.1
Trade and services	122.4	132.0	126.3	125.5
Construction	127.2	106.7	122.8	111.1
Financial	271.0	281.1	281.8	292.3
Employment	116.4	115.4	116.5	114.1
Composite index	136.0	147.1	140.6	137.1

SOURCE: Research Department, Louisville Area Chamber of Commerce.

"While this sluggishness parallels conditions in the national economy, the local data may not really indicate an interrupted recovery. For example, most of the drop in industrial production between June and October resulted from strikes or vacation plant closings. These factors also reduced freight shipments out of the area, an important component of the transportation index. And the strikes held employment totals down as well.

"On the positive side, reported department store sales have been running ahead of last year, and new car and truck sales have been particularly strong, surpassing the 1974 levels. Unemployment has dropped by nearly 10,000 workers, and the October 1976 unemployment rate for the metropolitan area was down to 6.4%, compared with 8.7% a year earlier. Even construction may be in better shape than it appears. New housing starts are up and the dollar value of housing permits is higher than in 1975. In Clark and Floyd counties, during the first ten months of 1976 housing starts were 25% higher than in the comparable period of 1975-and 20% higher than in 1974. Unfortunately, unemployment in the construction industry remains a distressingly high 17%. Many firms are apparently using existing employees more intensively, instead of rehiring the unemployed. In addition, the completion of several government-sponsored construction projects has eliminated numerous jobs.

---

*Greckel, F. E. Jeffersonville-New Albany (Louisville Area). Indiana Business Review, Nov.-Dec. 1976, 51, 23-25.

"The employment data in the Table below show that the area is still well below the prerecession high of July 1974. However, the low October 1976 figures for the metropolitan area are misleading, since there were some 7,000 striking workers from at least three different manufacturing industries not counted among the employed. Strikes had relatively little impact on the earlier employment statistics shown. Thus, it is obvious that both employment and the unemployment situation have improved considerably over the past year. Most of the employment gains were in durable goods manufacture, which nonetheless remained seriously below the 1974 job level, as did wholesale and retail trade and the construction industry.

Employment and Unemployment in the Louisville Area
July 1974-October 1976*

	July 1974	October 1975	October 1976
Clark and Floyd Counties			
Total nonfarm employment	42,400	39,200	39,500
Manufacturing	15,500	10,400	10,800
Nonmanufacturing	26,900	28,800	28,700
Residents unemployed	2,900	5,900	4,300
Unemployment rate	4.6%	9.4%	7.1%
Louisville Metropolitan Area**			
Total nonfarm employment	373,400	347,500	345,100
Manufacturing	118,800	101,900	99,100
Nonmanufacturing	254,700	245,700	246,000
Residents unemployed	16,700	34,000	24,600
Unemployment rate	4.2%	8.7%	6.4%

*The employment data refer to establishments located within the area cited; the unemployment data refer to residents of the area cited.

**Includes Floyd and Clark counties in Indiana; Jefferson, Oldham and Bullit counties in Kentucky.

SOURCES: Indiana Employment Security Division, and Kentucky Department of Human Resources.

"As usual, the unemployment rate for Floyd and Clark county residents exceeds the metropolitan area average. Still, the unemployment rate in the metropolitan area average. Still, the unemployment rate in the two Indiana counties had dropped considerably, from 9.4% a year earlier to 7.1% this October. It is disappointing that total employment in Floyd and Clark county establishments showed little improvement over the year, but unlike the situation in the rest of the metropolitan area, nonmanufacturing employment remained higher than in 1974. Over the past year, job gains in durable goods manufacture were partially offset by declines in firms producing nondurables. This trend will be reinforced in November by the permanent closing of Seinsheimer, Floyd County's second largest employer, with a loss of some 560 clothing industry jobs. While a more vigorous economy might have enabled the firm to survive, its basic problems stem from long-term developments within the clothing industry.

"Over the next several months there will be some offsetting employment gains in Clark County, independent of business cycle developments. ICI, the operator of the Army ammunition plant, expects to rehire about 400 workers (after having laid off nearly 4,000 workers between 1974 and 1976), and the Census Bureau will probably add some employees as it begins preparations for the 1980 population census.

"On the whole, the economic outlook for the area economy appears reasonably bullish. Retailers are very optimistic about holiday season sales and fairly optimistic about the year ahead. Construction activity should be picking up strength next spring. The expansion of single-family housing is expected to continue, and the low rental vacancy rate suggests that some multifamily dwellings will be under construction next year. A few major nonresidential projects, such as the Convention Center garage and the Hyatt-Regency Hotel, will also help boost industry employment.

"The recent election results indicate a somewhat expansionary fiscal policy on the national level, which should result in higher output and spending levels locally. If the incidence of strikes also diminishes, local employment totals sould rise noticeably in the months ahead. Unemployment should continue to decline, with the area unemployment rate likely to fall below 6% during the second half of 1977. Barring highly adverse developments on the international scene, the Louisville metropolitan area should enjoy a moderately strong recovery during the coming year."
